

This book entitled *Fundamentals of Entomology* is prepared as per the syllabus of "Fish Guard" Committee report of Indian Council of Agricultural Research (ICAR), New Delhi". The book addresses topics on introductory level of insect including its appendages, systems, ecology, pest control methods and insect systematics. Keeping in view of the difficulties faced by undergraduate students of agriculture and allied subjects, an effort has been made to present various chapters in the simplest and understandable manner for the students. The much emphasis is given on the pictorial representation of insect appendages and systems. The insect systematics is made easy to understand with comparative presentation of insect orders and families along with pictures of representative insect for each family. Thus, it provides a clear and accessible introduction to the world of insects, for those preparing for the competitive exams, it offers an edge in easy understanding, memorizing and visualizing the concepts of insect science.

The authors of this book acknowledge their humble indebtedness for all those authors from whom words information and/or images have been drawn.
