Reilly, 2002 Financial Management Eugene F. Brigham, Louis C. Gapenski, Michael C. Ehrhardt, 1999 Intended for use in an introductory finance course this textbook emphasizes the skills needed to make good financial decisions It outlines fundamental concepts and provides detailed discussions of topics like securities corporate valuation strategic investment and working capital management Two CD ROMs contain displays tools kits models files spreadsheets and reference materials Brigham teaches at the University of Florida Ehrhardt teaches at the University of Tennessee Distributed by ISBS c Book News Inc **Essentials of Managerial Finance** Scott Besley, Eugene F. Leahigh, 1996 This brief handy guide reviews financial management s most frequently used formulas basic concepts and definitions The easy to use reference revisits the essentials of a basic financial management course without the bulk and expanded explanations of a principals text As an inexpensive no frills review it is an excellent supplement for many undergraduate finance case and any upper division courses **Advances in Business Financial Management** Philip L. Cooley, 1996 Forty eight articles drawn from 25 financial journals report recent advances in finance They focus on concepts rather than methodology and are intended to be used to supplement introductory level casebooks and finance survey textbooks Topics include business financial management and its environment valuations and the cost of capital capital budgeting managing working capital analyzing and planning financial performance and institutional features of long term financing No index Annotation copyrighted by Book News Inc Portland OR **Financial Institutions, Investments, and Management** Herbert B. Mayo, 1998 The goal of this text is to introduce the business major and particularly the non finance major to the broad field of finance rather than just corporate finance Mayo s is one of the only books that attempts coverage of all three major areas of finance while maintaining a level appropriate for introductory courses in both 2 year and 4 year schools Since many students will have only this exposure to the subject the text gives them a working knowledge of all aspects of introductory finance **Planning Your Financial Future** Louis E. Boone, David L. Kurtz, Douglas Heath, 2000 **Small Firm Finance** Jerome S. Osteryoung, Derek L. Newman, Leslie Davies, 1997 While small businesses share many of the problems of their larger counterparts in terms of financial management the smaller firm faces issues uniquely its own The first of its kind this text addresses finance from the small business and entrepreneurial perspective not from the perspective of the corporate Goliaths

Bowker Company,1982

Fundamentals of Financial Management Eugene F. Brigham, Joel F. Houston, 1998 When the book was first published more than 20 years ago our intent was to write an introductory finance text that students could understand Today the book has become the leading undergraduate finance text The book is intended for use in the introductory finance course The key chapters can be covered in a one term course or supplemented with cases and some outside readings used in a two term course Pref **To evaluate 'demerger' as a strategic objective** Matthias Feik, 1997-07-14 Inhaltsangabe Abstract In general the focus of an investigation an demerger Gould range from its economic implications to its political social legal or business implications However it seems reasonable to conduct an early investigation of demerger not from an economic political or social viewpoint since there has not been enough demerger activity yet to evaluate its greater economic political

or social implications Therefore this paper will try to evaluate demerger from a company s point of view Le to look at demerger from a corporate strategy angle In this context it is also regarded necessary to take some of its legal background into consideration To evaluate demerger as one strategic objective for a company s management the trst aim of this dissertation shall be to detect evidence regarding underlying demerger rationales of the past Therefore the question What are the reasons for conducting a demerger will be addressed Furthermore since demerger can only be regarded as a strategic objective if it actually improves the chances of a company to enhance its future position and prospects it is necessary to raise two further questions Hence derived from the evidence found the author will address the questions What are the benefits associated with demerger and What are the problems which appear to be involved ih demerger The second aim of this dissertation will consequently be to find answers to these questions This will lead to a better understanding of the reasons why some corporate managers consider demerger as an appropriate strategic mean while others still seem to be hesitant about it Please acknowledge that the analysis of the demerger Gases conducted in this dissertation cannot be representative since it only refers to certain UK demergers An analysis that covers a wider scope Could not be conducted This was due to the limited timeframe which was set for this dissertation However the empirical evidence displayed in this paper will introduce findings of demerger studies which haue the necessary scope and depth to be interpreted as representative
