Furia Y Muerte: Los Bandidos Chicanos Pedro G. Castillo, Pedro Castillo, Albert Camarillo, 1973 Cuenta con ilustraciones cortos y biografías de chicanos bandidos sociales históricos como Gregorio Cortez y Tiburcio Vázquez para nombrar unos pocos. Tachucha **Resources in Education**, 1979 **Displacing Whiteness** Ruth Frankenberg, 1997-09-22 Displacing Whiteness makes a unique contribution to the study of race dominance. Its theoretical innovations in the analysis of whiteness are integrated with careful substantive explorations of whiteness on an international, multiracial, cross-class and gendered terrain. Contributors localize whiteness as well as explore its sociological, anthropological, literary and political dimensions. Approaching whiteness as a plural rather than singular concept, the essays describe, for instance, African American, Chicana o European American and British experiences of whiteness. The contributors offer critical readings of theory, literature, film and popular culture, ethnographic analyses, explorations of identity formation and examinations of racism and political process. Essays examine the alarming epidemic of angry white men on both sides of the Atlantic, far-right electoral politics in the UK, underclass white people in Detroit, whiteness in brownface in the film Gandhi, the engendering of whiteness in Chicana o movement discourses, whiteface literature, Roland Barthes as a critic of white consciousness, whiteness in the black imagination, the inclusion and exclusion of suburban brown-skinned white girls and the slippery relationships between culture, race and nation in the history of whiteness. Displacing Whiteness breaks new ground by specifying how whiteness is lived, engaged, appropriated and theorized in a range of geographical locations and historical moments, representing a necessary advance in analytical thinking surrounding the burgeoning study of race and culture. Contributors: Rebecca Aanerud, Angie Chabram, Derranesian Phil Cohen, Ruth Frankenberg, John Hartigan Jr, bell hooks, T. Muraleedharan, Chela Sandoval, France Winddance Twine, Vron Ware, David Wellman. *Latino Empowerment* Roberto E. Villarreal, Norma G. Hernandez, Howard Neighbor, 1988-11-17 This exemplary contribution to the literature on ethnic studies examines the issues surrounding Mexican American political empowerment in the United States. The chapters, originally contributions to a symposium at the University of Texas in El Paso, are uniformly engaging, rigorous in their analysis and richly suggestive in their conclusions. This exceptionally fine collection discusses the political history of Mexican Americans, the role of their interest groups, educational models, local bureaucracies and electoral strategies. Noteworthy are the barriers to Chicano authority found in Los Angeles and Texas. Strongly recommended. Library Journal. This timely book is among the first to be published that directly addresses the political empowerment of Hispanics. The contributors concern themselves not only with the progress and problems of political empowerment but also with the prospects of future empowerment, the political strategies and agendas for the next decade. Conducted by a group of scholars well known for their research on Chicano politics, the studies suggest that while substantial progress has been made in opening political doors to Mexican Americans, most of their political potential has yet to be realized. The volume begins with an overview of the history of Mexican American political

empowerment from 1850 to the present Institutional procedural and ideological barriers to success in American politics for Mexican Americans are reviewed An examination of two major politics for paradigms for educational achievement reflect different views on educational success and failure The bureaucracy of local government and its sensitivity in increasing political representation in Los Angeles the development of political organization and leadership and future legal issues are covered In the conclusion the various perspectives of the contributors are synthesized to point the way to the next level of Mexican American empowerment and ultimately to a general theory of political integration

*Thrown Among Strangers* Douglas Monroy,1990-11-15 Every California schoolchild s first interaction with history begins with the missions and Indians It is the pastoralist image of course and it is a lasting one Children in elementary school hear how Father Serra and the priests brought civilization to the groveling lizard and acorn eating Indians of such communities as Yang na now Los Angeles So edified by history many of those children drag their parents to as many missions as they can Then there is the other side of the missions one that a mural decorating a savings and loan office in the San Fernando Valley first showed to me as a child On it a kindly priest holds a large cross over a kneeling Indian For some reason

though the padre apparently aims not to bless the Indian but rather to bludgeon him with the emblem of Christianity This portrait too clings to the memory capturing the critical view of the missionization of California s indigenous inhabitants I carried the two childhood images with me both when I went to libraries as I researched the missions and when I revisited several missions thirty years after those family trips In this work I proceed neither to debunk nor to reconcile these contrary notions of the missions and Indians but to present a new and I hope deeper understanding of the complex interaction of the two antithetical cultures     The Mexican American Experience Matt S.
