German architect Ludwig Mies van der Rohe is without doubt one of the pioneering masters of modern architecture. The modern city with its towers of glass and steel can be at least in part attributed to his influence. Equally significant if smaller in scale is Mies' daring design of furniture pieces that exhibit an unerring sense of proportion as well as minimalist forms and exquisitely refined details. After an apprenticeship with furniture designer Bruno Paul in Berlin, he joined the office of architect Peter Behrens where he met Le Corbusier and Walther Gropius. In the mid 1920s he began to design furniture pieces that he conceived and created for particular interiors. Mies van der Rohe's furniture is known for fine craftsmanship, a mix of traditional luxurious fabrics like leather combined with modern chrome frames and a distinct separation of the supporting structure and the supported surfaces. His modern furniture pieces using new industrial technologies like the Barcelona chair and table (1929) and the Brno chair (1930) have become acclaimed icons of twentieth-century design.

Charles and Ray Eames: Objects and Furniture Design Patricia De Muga, Laura Garcia Hintze, Sandra Dachs, 2022-03-15. Mid-century masterpieces from the inventors of the Eames chair. Best known for their contributions to architecture, furniture design, industrial design, film, and photography, Charles and Ray Eames remain among the most renowned American designers of the 20th century. The couple married in 1941 and moved to California where they pursued their furniture design in molded plywood. During the war, they were commissioned by the US Navy to produce molded plywood splints, stretchers, and experimental glider shells. In 1946, Evans Products began producing the Eames molded plywood furniture. Their iconic molded plywood chair was called the chair of the century by the influential architectural critic Esther McCoy. In 1949, the Eameses designed and built their own home in Pacific Palisades, their design and imaginative use of materials making this house a mecca for architects and designers internationally. Today it is considered one of the most important postwar residences in the world. This volume introduces key works by the couple from across their career.

Furniture Design James Christopher Postell, 2007-08-03. Publisher description. Bruno Mathsson Dag Widman, Bruno Mathsson, Karin Winter, Nina Stritzler-Levine, Åke E:son Lindman, 2006-01-01. A complete survey of the life and work of master designer Bruno Mathsson whose archetypal Modernist chair is admired worldwide. The sensuously undulant lines of Bruno Mathsson's furniture designs made him one of the leading figures of Swedish modernism in the 1930s. Chairs that adapted to their occupant with graceful natural curves became his trademark and have been in continuous production for more than fifty years. In his less familiar architectural work, Mathsson (1907-1988) applied the same principles of innovative, comfortable living. Throughout his work, the connections between design and ergonomics, aesthetics and innovative materials, energy saving and environmental concerns resonate for designers today. This book surveys Mathsson's output as an architect and designer as well as his relationships with American architects and designers including Frank Lloyd Wright, Charles and Ray Eames, and Hans Knoll. Extensive illustrations include unpublished photographs of his Mathsson's work in situ. Architects' Designs for Furniture Jill Lever, 1982. Are architects the best furniture designers?
