*Dominican Crossroads* Christina Cecelia Davidson, 2024-09-13 H C C Astwood minister and missionary diplomat and politician enigma in the annals of US history In *Dominican Crossroads* Christina Cecelia Davidson explores Astwood's extraordinary and complicated life and career Born in 1844 in the British Caribbean Astwood later moved to Reconstruction era New Orleans where he became a Republican activist and preacher in the African Methodist Episcopal AME Church In 1882 he became the first Black man named US consul to the Dominican Republic Davidson tracks the challenges that Astwood faced as a Black politician in an era of rampant racism and ongoing cross border debates over Black men's capacity for citizenship As a US representative and AME missionary Astwood epitomized Black masculine respectability But as Davidson shows Astwood became a duplicitous scheming figure who used deception and engaged in racist moral politics to command authority His methods Davidson demonstrates show a bleaker side of Black international politics and illustrate the varied contours of transnational moral discourse as people of all colors vied for power during the ongoing debate over Black rights in Santo Domingo and beyond

**Thefts of Relics in Italy** Marco Papasidero, 2025-10-01 With the birth of the cult of the saints their relics became valuables whose possession would guarantee prestige protection and spiritual benefits to a town church or monastery For this reason at first with the aim of preserving the bodies of newly executed martyrs from destruction and later of increasing the power of a particular faction or community the relics began to be stolen with numerous cases documented throughout Europe At the same time a rich hagiographic literature flourished to describe the contexts in which the thefts occurred and to demonstrate their authenticity Justifications legitimations ordeals and supernatural interventions are dotted throughout the stories of hagiographers over the centuries This book seeks to reconstruct the cultural history of the theft of relics in the specific context of Italy from Late Antiquity to the Central Middle Ages availing itself of an interdisciplinary perspective

Madden, 2016-12-05 The Fourth Crusade 1201-1204 launched to restore Jerusalem to Christian control veered widely off course finally landing at Constantinople which it conquered and sacked The effects of the crusade were far reaching during the Middle Ages and remain powerful even today which explains the continued vibrancy of its historiography This volume based on studies presented at the Sixth Conference of the Society for the Study of the Crusades and the Latin East in Istanbul Turkey in 2004 represents some of the best new research on this fascinating event With the Diversion Question of the past centuries now largely settled these studies focus on three aspects of current scholarship evaluations of the event itself investigations into the aftermath of the conquest of Constantinople in 1204 and analyses of the evolving perceptions and memories of the event in Europe and the Middle East Together these essays help to place the Fourth Crusade within the larger context of medieval Mediterranean history as well as larger issues such as agency accommodation and memory that inform new aspects of modern historiography

Perry,2015-06-18 In *Sacred Plunder* David Perry argues that plundered relics and narratives about them played a central role in shaping the memorial legacy of the Fourth Crusade and the development of Venice s civic identity in the thirteenth century After the Fourth Crusade ended in 1204 the disputes over the memory and meaning of the conquest began Many crusaders faced accusations of impiety sacrilege violence and theft In their own defense they produced hagiographical narratives about the movement of relics a medieval genre called *translatio* that restated their own versions of events and shaped the memory of the crusade The recipients of relics commissioned these unique texts in order to exempt both the objects and the people involved with their theft from broader scrutiny or criticism Perry further demonstrates how these narratives became a focal point for cultural transformation and an argument for the creation of the new Venetian empire as the city moved from an era of mercantile expansion to one of imperial conquest in the thirteenth century **The Cult of St Swithun** Michael Lapidge,2025-04-03 Following the translation of his relics from a conspicuous tomb into the Old Minster Winchester the massive rebuilding of the cathedral and a vigorous publicity campaign by Bishop Aethelwold 963-84 St Swithun became one of the most popular and important English saints whose cult was widespread in England Ireland Scandinavia and France Myths of Europe ,2007-01-01 *Myths of Europe* focuses on the identity of Europe seeking to re assess its cultural literary and political traditions in the context of the 21st century Over 20 authors historians political scientists literary scholars art and cultural historians from five countries here enter into a debate How far are the myths by which Europe has defined itself for centuries relevant to its role in global politics after 9 11 Can Old Europe maintain its traditional identity now that the European Union includes countries previously supposed to be on its periphery How has Europe handled relations with the

non European Other in the past and how is it reacting now to an influx of immigrants and asylum seekers It becomes clear that founding myths such as Hamlet and St Nicholas have helped construct the European consciousness but also that these and other European myths have disturbing Eurocentric implications Are these myths still viable today and if so to what extent and for what purpose This volume sits on the interface between culture and politics and is important reading for all those interested in the transmission of myth and in both the past and the future of Europe
