analogies Seth leads us beyond our ordinary level of awareness into a spectacular discovery of the multidimensional nature of the self including Consciousness units as the basis of our universe The relevance of extrasensory perception in understanding our world The worlds we visit in dreams and out of body states Dreaming as a science to create present and future realities Families of consciousness we choose to belong to Practical methods for exploring your own unknown reality There is an unknown reality I am part of it and so are you Each individual is a part of the unknown reality To explore the unknown reality you must venture within your own psyche travel inward through invisible roads as you journey outward on physical ones I hope that in this book the reader can see the greater dimensions that touch ordinary living and sense the psyche s greater magic Jane Roberts Speaking for Seth      Dreams, Evolution, and Value Fulfillment, Vol 1 Jane Roberts, 2011-07-08 From the Bestselling Author of Seth Speaks and The Nature of Personal Reality In this first volume of Dreams Evolution and Value Fulfillment Seth takes us on an odyssey to identify the origins of our universe and our species He asserts that consciousness units form the basis of all energy and matter and charts a conscious self aware universe that is constantly recreated by our own thoughts dreams and desires Illuminating the part that humans play in the greater scheme of things he suggests that we are alive not only for the continuation of the species but to add to the very quality of life itself Other fascinating topics include The role dreams play in the creation of language and technology The relationship between genetic heritage and reincarnation How creativity provides a link with the source of all existence The true power of the imagination and the importance of broadening its scope A discussion of value fulfillment or the yearning to enhance the quality of life as a fundamental desire in all life forms Stimulating and provocative this long awaited book answers crucial questions about the entire significance of Seth s system of thought When I speak of the dream world I am not referring to some imaginary realm but to the kind of world of ideas of thoughts of mental actions out of which all form as you think of it emerges In actuality this is an inner universe rather than an inner world Your physical reality is but one materialization of that inner organization Jane Roberts Speaking for Seth      *The Unknown Reality, Volume One* Jane Roberts, 2011-07-08 From the Bestselling Author of Seth Speaks and The Nature of Personal Reality In this mind stretching journey into the very frontiers of consciousness Seth reveals the multidimensional nature of the human soul In Seth Speaks Seth introduced the concept of probable realities in which our idle daydreams and unfulfilled impulses do take place in which all possible choices are fully experienced by other portions of the self Now in this first volume of The Unknown Reality Seth explains the dazzling labyrinths of unseen probabilities involved in any decision and how our awareness of these can enrich the waking life we know In a fascinating exploration of the cosmic web of our existence Seth reveals The purpose of dreams and how they are often fulfilled unconsciously Misconceptions about death and the afterlife How different probable realities intersect and influence one another The relationship between physical health and inner reality A series of exercises to help you discover the unknown portions of your greater identity The self is multidimensional when it is physically alive It is a triumph of

spiritual and psychological identity ever choosing from a myriad of probable realities its own clear unassailable focus When you don't realize this then you project upon life after death all of the old misconceptions The fact is that in life you poise delicately and yet perfectly between realities and after death you do the same Jane Roberts Speaking for Seth     **The Way Toward Health** Jane Roberts, 2011-07-08 From the Bestselling Author of Seth Speaks and The Nature of Personal Reality In September 1984 the voice that had spoken for one of the most profound and prolific metaphysical teachers of the 20th century fell silent Seth the entity who described himself as an energy personality essence no longer focused in physical matter had spoken exclusively through Jane Roberts since 1963 During the long illness that led to her death Jane continued to channel Seth from her hospital bed but this final work was left unfinished Now in The Way Toward Health Jane's husband Robert Butts shares with us the intimate story of Jane's final days and the exquisite teachings that Seth gave during that time In an examination of the miracle of life in a human body Seth speaks about Why medicine and therapy often perpetuate illness How the practice of naming diseases can work against us The influence of religion in creating disease How children's health is influenced by parents' beliefs Humor as an effective factor in healing Includes 8 page photo gallery Do not think of the mind as a purely mental entity and of the body as a purely physical one Instead think of both mind and body as continuing interweaving processes that are mental and physical at once Your thoughts actually are quite as physical as your body is and your body is quite as nonphysical as it seems to you your thoughts are You are actually a vital force existing as a part of your environment and yet apart from your environment at the same time Jane Roberts speaking for Seth in The Way Toward Health     **Seth Speaks (A Seth Book)** Jane Roberts, 2012-04-01 One of the most powerful of the Seth Books this essential guide to conscious living clearly and powerfully articulates the furthest reaches of human potential and the concept that we all create our own reality according to our individual beliefs Having withstood the test of time it is still considered one of the most dynamic and brilliant maps of inner reality available today The Seth books present an alternate map of reality with a new diagram of the psyche useful to all explorers of consciousness Deepak Chopra Seth was one of my first metaphysical teachers He remains a constant source of knowledge and inspiration in my life Marianne Williamson I would like to see the Seth books as required reading for anyone on their spiritual pathway The amazing in depth information in the Seth books is as relevant today as it was in the early 70s when Jane Roberts first channeled this material Louise Hay     **The Nature of the Psyche** Jane Roberts, 2011-07-08 Seth speaking exclusively through Jane Roberts reveals a startling new concept of self answering questions about the secret language of love human sexuality the real origins and incredible powers of dreams and how we choose our physical death sometimes years in advance For the first time Seth explains Why love is the basic language from which all others spring The bisexual nature of humanity and its biological and spiritual importance The true basis of homosexuality and lesbianism along with their private and social effects The benefits of recalling our dreams and consciously participating in them How dreams can prevent chronic illnesses by providing important therapeutic information

Simple exercises you can do to expand your awareness of the deeper portions of your psyche and stretch your abilities to their fullest potential The psyche is a gestalt of aware energy in which your own identity resides inviolate yet ever changing as you fulfill your potentials You are your psyche's living expression its human manifestation Yet you allow yourselves often to become blind to brilliant aspects of your own existence Jane Roberts Speaking for Seth *Dreams, Evolution, and Value Fulfillment, Volume Two* Jane Roberts, 2011-07-08 The Seth books present an alternate map of reality with a new diagram of the psyche useful to all explorers of consciousness Deepak Chopra M D author of The Seven Spiritual Laws of Success From the Bestselling Author of Seth Speaks and The Nature of Personal Reality In the first volume of Dreams Evolution and Value Fulfillment Seth presented an in depth picture of the origin of all life from the inner dream world to the vast display of material creation Here in Volume Two Seth continues his explanation of the physical world as an ongoing self creation a direct and intentional outgrowth of the wisdom of the life forms that inhabit it including humanity He expands upon his vision of a thoroughly animate universe where virtually every possibility not only exists but is constantly encouraged to achieve its highest potential In his typical awe inspiring manner Seth sheds light on many controversial and complex subjects including The ways in which our religions have stifled the human spirit Surprising insight into life's meaning and purpose The genetic basis of faith hope and charity The pursuit of pleasure as a fundamental human need How each species keeps millions of characteristics within its genetic bank for various contingencies Dreams are mental work and play combined psychic and emotionally rich creative dramas They also involve you in the most productive of enterprises as you begin to play with versions of events that are being considered for physical actualization Jane Roberts Speaking for Seth *Abe and Genetic Engineering* James S.
