Furthering Humanity Timothy Gorringer, 2004 How should we reflect theologically about culture Tim Gorringer presents a threefold and interrelated reflection organised around culture power and mission First Gorringer interrogates culture through contemporary cultural studies but also through the contribution of the great eighteenth century theologian J G Herder He concludes by considering the question of cultural imperialism Secondly Gorringer asks where power is located in culture and how the church relates to that arguing that the central theses of liberation theology are far from dead The third part turns to questions of mission asking whether this is morally feasible in a culturally pluralist world and considering the implications of Samuel Huntington s notorious thesis of the clash of civilizations Gorringer argues that mission is in fact a vital part of a respectful multicultural society

A Cultural Theology of Salvation Clive Marsh, 2018-11-01 There aren t many serious works of systematic theology which engage with Breaking Bad The Big Bang Theory Crazy Heart theories of capital and positive psychology as well as the Isenheim Altarpiece and Handel s Messiah This lively contemporary study of salvation does precisely that Christian doctrine cannot simply repeat what has gone before even as it recognises the value and richness of the traditions Christianity carries with it Clive Marsh acknowledges this in exploring how doctrine interweaves with life experience and cultural consumption A Cultural Theology of Salvation considers how salvation is to be understood and articulated now when the theme of redemption appears outside of Christianity in the arts and popular culture Marsh also assesses whether contemporary

interest in happiness has anything to do with salvation The first part of the book sets the enquiry in the context of how theology operates as a discipline and the cultural climate in which theology has to be done The second part offers a number of case studies in art music TV film positive psychology and economic life exploring how the concerns of a doctrine of salvation are addressed directly and indirectly in Western culture The third part distils the results of the case studies in formulating a contemporary exposition of salvation and concludes by showing what this means in practice *Theological Interpretation of Culture in Post-Communist Context* Ivana Noble, 2016-12-05 Twenty years after the fall of Communism in Central and East Europe is an occasion to reevaluate the cultural and theological contribution from that region to the secularization post secularization debate Czech theologian Ivana Noble develops a Trinitarian theology through a close dialogue with literature music and film which formed not only alternatives to totalitarian ideologies but also followed the loss and reappearance of belief in God Noble explains that by listening to the artists the churches and theologians can deal with questions about the nature of the world memory and ultimate fulfilment in a more nuanced way Then as partakers in the search undertaken by their secular and post secular contemporaries theologians can penetrate a new depth of meaning sending out shoots from the stump of Christian symbolism Drawing on the rich cultures of Central and East Europe and both Western and Eastern theological traditions this book presents a theological reading of contemporary culture which is important not just for post Communist countries but for all who are engaged in the debate on the boundaries between theology politics and arts Everyday Theology (Cultural Exegesis) Kevin J. Vanhoozer, Charles A. Anderson, Michael J. Sleasman, 2007-03-01 Everyday theology is the reflective and practical task of living each day as faithful disciples of Jesus Christ In other words theology is not just for Sundays and it's not just for professional theologians Everyday Theology teaches all Christians how to get the theological lay of the land It enables them to become more conscious of the culture they inhabit every day so that they can understand how it affects them and how they can affect it If theology is the ministry of the Word to the world everyday theologians need to know something about that world and Everyday Theology shows them how to understand their culture make an impact on it Engaging and full of fresh young voices this book is the first in the new Cultural Exegesis series **Religion and Ecology in the Public Sphere** Celia Deane-Drummond, Heinrich Bedford-Strohm, 2011-04-28 A collection of essays from top scholars in the field of Religion and Ecology that stimulates the debate about the religious contribution to ecological debate *The Eucharist as a Countercultural Liturgy* Yik-Pui Au, 2017-04-14 Since its institution the Eucharist has been celebrated in all churches regardless of denominational differences Yet its importance should not be just confined to the Christian communities it can have transformational power in the cultural milieu In this book Yik Pui Au argues that the Eucharist can be a countercultural liturgy that upholds the identity and values of Christianity by countering cultural currents that are contrary to the Christian faith Au takes an interdisciplinary approach comprised of church history ritual theory and theology of culture to examine systematically the countercultural

functions of the Eucharist interpreted by three modern theologians Henri de Lubac John Zizioulas and Miroslav Volf representing the Catholic Orthodox and Protestant traditions respectively The comparative evaluation of this cross tradition analysis supports Au s argument that even though culture is complex and changing the countercultural function of the Eucharist remains valid Despite its complexity culture can be transformed by the Eucharist and it can also challenge and renew our understanding of the Eucharist She suggests that due to its richness the countercultural function of the Eucharist cannot be exhausted by one tradition It is the task of theologians to help the church continually venture to explore and vivify this function ecumenically

An Epistemology of Religion and Gender Ulrike E. Between a Rock and a Hard Place Elaine Graham,2013-07-31 Public theology is an increasingly important area of theological discourse with strong global networks of institutions and academics involved in it Elaine Graham is one of the UK s leading theologians and an established SCM author In this book Elaine Graham argues that Western society is entering an unprecedented political and cultural era in which many of the assumptions of classic sociological theory and of mainstream public theology are being overturned Whilst many of the features of the trajectory of religious decline typical of Western modernity are still apparent there are compelling and vibrant signs of religious revival not least in public life and politics local national and global This requires a revision of the classic secularization thesis as well as much Western liberal political theory which set out separate or at least demarcated terms of engagement between religion and the public domain Elaine Graham examines claims that Western societies are moving from secular to post secular conditions and traces the contours of the post secular the revival of faith based engagement in public sphere alongside the continuing perhaps intensifying questioning of the legitimacy of religion in public life She argues that public theology must rethink its theological and strategic priorities in order to be convincing in this new post secular world and makes the case for the renewed prospects for public theology as a form of Christian
