sorts of questions Alan Dershowitz has been asking for more than 60 years in his teaching writing and litigation Now at age 86 he has written his magnum opus In it he suggests an overarching jurisprudential framework that would set limits to the ballooning power of what he calls the preventive state This important book offers unprecedented insights into one of the most underexamined developments of our age the growing magnitude and frequency of cataclysmic threats coupled with the increasingly effective but increasingly intrusive tools intended to predict and prevent them Dershowitz responds to the urgent need for a jurisprudence that provides balance and accountability as both dangers and preventive capabilities increase threatening our security and our liberties This masterful analysis should be read by everyone who cares about security liberty and democracy
