Future Of Nato:

The Future of NATO Andrew A. Michta, Paal Sigurd Hilde, 2014-06-23 The conclusion of International Security Assistance Force ISAF operations in Afghanistan in 2014 closes an important chapter in the history of the North Atlantic Treaty Organization NATO In this volume European and US experts examine a range of perennial issues facing the Alliance including relations with Russia NATO's institutional organization and command structure and the role of the United States in the Alliance in order to show how these issues shape today's most pressing debate the debate over the balance between NATO's engagement in security operations globally and traditional defense within the North Atlantic region The volume's contributors propose that NATO can indeed find a viable balance between competing but not inherently incompatible strategic visions A theoretically informed empirical account and analysis of NATO's recent evolution this volume will appeal to both security scholars and practitioners from the policy community

The Future of NATO Teleglobe Raoul-Dandurand Chair of Strategic and Diplomatic Studies, Université du Québec à Montréal. Centre d'études des politiques étrangères et de sécurité, 1999 In this collection the leading authorities address the complexity of present day NATO its inherent contradictions and its current direction The authors reflect on the significance of these issues for the alliance's future prospects for Russia and for European security generally The Future of NATO looks at the conceptual and theoretical approaches that underlie the question of enlarging NATO's membership and the consequences of enlargement on international relations It examines the policies of some of NATO's leading member states including Canada which has recently begun a two year term on the security council and deals with the issue of enlargement from the point of view of the East European candidates focusing on Russia and its opposition to the current process Contributors include András Balogh Lorán Ertzsényi University of Toronto Martin Bourgeois Charles Philippe David UQAM André P. The future of NATO and European defence Great Britain: Parliament: House of Commons: Defence Committee, 2008-03-20 This report is presented prior to the NATO Summit at Bucharest in April 2008 and examines the status of NATO in dealing with the security environment that exists in Europe today The situation in Afghanistan offers a key test of the strengths and failings of the NATO Alliance To bring stability and encourage development and reconstruction in this region requires a long term military and financial commitment on the part of the Alliance Failure in Afghanistan may diminish the effectiveness of NATO and undermine allied unity perhaps pushing the United States to question the purpose of NATO itself The Bucharest Summit will have to address a number of issues in respect of Afghanistan including the need to generate sufficient military forces to carry out operations

NATO faces broader questions about its role and relevance in the 21st century and the Defence Committee believes it needs to launch a far reaching review of its strategic concept setting forth a future role and purpose NATO's willingness to fulfil a global role is critical to the continued support of the United States NATO has shortfalls across a range of specific military capabilities which are seen as compromising its ability to mount and sustain the expeditionary operations that underpin the Alliance The creation of the NATO Response Force is seen as representing a significant achievement but it needs to be financed out of NATO Common Funding The Committee states that NATO's biggest shortfall is a lack of political will where a large and growing gap exists between the United States and the European members in defence spending The Committee further states that the relationship between NATO and the EU is plagued by mistrust and characterised by unhealthy competition Improving communication and coordination between the two is seen as essential The Committee views NATO as indispensable to the Alliance

The Future of NATO Ted Galen Carpenter, 2013-10-11 The end of the Cold War has raised questions about the future of NATO Now that the threat from the Warsaw Pact has disappeared there seems little need for a Western military alliance of such magnitude The contributions here offer various views on NATO's future

The Oxford Handbook of NATO James Sperling, Mark Webber, 2025-02-05 The North Atlantic Treaty Organization NATO has since its foundation in 1949 been the principal body of the Western security order and remains as important in the 2020s as it was in the 1950s This Handbook offers the most extensive treatment of the Alliance published in the last two decades providing detailed coverage of NATO allies policies and organizational structures It brings together internationally renowned scholars who interrogate NATO's actions from historical theoretical and empirical perspectives The Handbook is divided into nine parts Following an introductory part offering a thematic overview of NATO framed by different approaches to domestic politics and global order the second part explores three broad questions what is NATO for who is NATO for and whither NATO Part Three is more expressly theoretical providing multi perspectival analyses of the Alliance Part Four then turns to how NATO works as a political military alliance Parts Five and Six are concerned with what NATO does in practical terms how it addresses a wide range of security threats and what operations it has mounted in response Part Seven looks at some of NATO's most significant allies including France Germany Italy Poland Turkey the United Kingdom and the United States Part Eight meanwhile is concerned with partnerships and key relationships beyond NATO's membership looking at Australia Georgia Ukraine Russia China the European Union and the European neutrals as well as ties to states in the Gulf the Middle East and North Africa The final part of the volume offers reflections on NATO's recent past and possible lines of future development

NATO's Future United States. Congress. Senate. Committee on Foreign Relations. Subcommittee on European Affairs, 1995

The Future of the American Military Presence in Europe Lloyd J. Matthews, 2000 Ten years have elapsed since the fall of the Berlin Wall which served as a fitting symbol for the end of the Cold War That historic

juncture brought into question the North Atlantic Treaty Organization which has served Alliance members so well since its founding in 1949. It also brought into question the rationale for America's continued deep involvement in European security affairs. With the gradual realization that the Russian menace is essentially dead at least for the next 10 to 15 years and perhaps longer and with NATO's missions having evolved well beyond the original purpose of territorial defense, debate on both sides of the Atlantic has begun to intensify concerning the vital issue of where NATO should be headed and America's relation to the Alliance. To bring an array of informed voices to the debate, four institutions—the Office of the Assistant Vice Chief of Staff of the U.S. Army, the Strategic Studies Institute of the U.S. Army War College, the Irving B. Harris Graduate School of Public Policy Studies of the University of Chicago, and the Program on International Security Policy at the University of Chicago—joined hands to sponsor a symposium titled *The Future of U.S. Military Presence in Europe*, held at the University of Chicago on August 4, 1999. The present book is an outgrowth of this symposium. It is not designed to set forth a literal record of words and events in the mold of the traditional symposium proceedings but rather is organized as an anthology of individual chapters complemented by selected questions, answers, and comments by symposium participants and attendees.

The Future of the American Military Presence in Europe, 2000. *Future of NATO*. Charles-Philippe David, Jacques Lévesque, 1999-05-20. *The Future of NATO* looks at the conceptual and theoretical approaches that underlie the question of enlarging NATO's membership and the consequences of enlargement on international relations. It examines the policies of some of NATO's leading member states, including Canada, which has recently begun a two-year term on the Security Council, and deals with the issue of enlargement from the point of view of the East European candidates, focusing on Russia and its opposition to the current process. Contributors include András Balogh, Lorán Ertv, University of Martin; Bourgeois, Charles-Philippe, UQAM; André P. Donneur, UQAM; David G. Haglund, Queen's; Philippe H. Bert, Montréal; Stanislav J. Kirschbaum, Glendon College; Richard L. Kugler, RAND; National Defence University, David Law, Queen's; Paul L. Tourneau, Montréal; Jacques Lévesque, UQAM; Gale Mattox, U.S. Naval Academy; Marie-Claude Plantin, Université de Lyon 2; Sergei Plekhanov, York; Jane M. O. Sharp, Kings College, London.

The Future of Transatlantic Relations. Andrew Dorman, Joyce Kaufman, 2010-11-29. This contributed volume provides a valuable comparative examination of the state of transatlantic relations. The comparative approach utilized highlights the often understudied differences in perception and policy that exist across European and North American states towards the idea and practice of the transatlantic relationship.

NATO's Future. Stanley R. Sloan, 1995-09. Examines the role of the U.S. in NATO. The author finds the sources of many current problems and singles out two basic weaknesses: the failure of the European NATO Allies to form a European defense community and the parallel U.S. decision to rest NATO's defense on U.S. nuclear forces. Suggests some directions for NATO strategy, force posture, arms control policies, and East-West relations. Photos, tables, and figures. Glossary. Index.
