English Usage Guides Ingrid Tieken-Boon van Ostade, 2018 This volume explores both historical and current issues in English usage guides or style manuals Chapters look at how and why these guides are compiled and by whom what sort of advice they contain how they differ from grammars and dictionaries and how attitudes to usage have changed The Great American Songbook Steven Suskin, 2023-04-01 In an age of ubiquitous music and countless new songs releasing every minute the Great American Songbook endures After all the Songbook that sprawling canon of popular songs standards and show tunes from roughly the 1920s through the 1950s is a foundational text of American pop music Rare indeed is the song that doesn't in some way draw on this magnificent corpus and rare is the person who hasn't heard at least a few of its most enduring melodies Nonetheless the Songbook is broader and deeper than most listeners can imagine and on the margins the question of whether this or that song should be included is the source of regular arguments among scholars and buffs alike Attempting to plumb its depths can be a daunting prospect Enter Steven Suskin who has been writing about music since the days that Rodgers Arlen and Berlin still roamed the streets of Manhattan In this carefully curated and cheerfully opinionated guidebook Suskin surveys 201 of the most significant selections from the Songbook ranging from celebrated masterpieces to forgotten gems Year by year he puts songwriters and their contributions in their context and explains what makes each song such a distinctive treat whether felicitous melody colorful harmony compositional originality or merely the sheer irreducible joy of listening to it Old and new favorites await all readers of this painstakingly compiled enthusiastically written catalog
