Aldebaran Beta Phi Alpha, 1927 *Don't Forget the Child* Alex A. Gondola, 2001. Alex Gondola says that in our modern culture we sometimes experience Christmas at its worst: overcommercialized, expensive, exhausting, nearly devoid of spiritual significance. In this collection of twenty cogent and inspiring sermons for Advent and Christmas, he reminds us of the key to putting the season in its proper perspective: Don't forget the child. For it is only when we are drawn nearer to the child of Bethlehem, celebrating the simple beauties of the stable, that we can escape from the rush of the season into the divine light of saving grace heralded by the birth of God's Son. This volume is an exceptional source of inspiration for sermon preparation, but it's also excellent for personal devotions exploring the meaning of Advent and Christmas. It's a great Christmas gift. Alex Gondola has given us a lovely round of Advent and Christmas meditations. They are reflective and delightful. They shine with little gems of human interest stories that can light our path throughout the whole year. Catherine Clark Kroeger, Editor, *Study Bible for Women: The New Testament*. This outstanding collection of Advent Christmas sermons brings rich insights and new appreciation for the wondrous story of Christ's coming. Whether you are in a pew or in a pulpit on Sundays, you will be grateful for this book. Dr. William P. Baker.

Tales from a Distant Star Raymond Hardcastle, 2023-11-15 About the Book *Tales from a Distant Star* is a short story anthology following a crew and their seemingly never-ending journey through space, which it very well could, with the ever-expanding size of the universe. Using real science, the tales within stay as true as possible to the current understanding of space and space travel and how it may look hundreds of years from now. Raymond Hardcastle's years of studies in physics and engineering and his love for storytelling are now combined into one fascinating collection. About the Author Raymond Hardcastle spent his childhood in orphanages and foster homes until his teenage years and attended one-room schoolhouses where he would learn from the higher grades. He went on to take courses at vocational school to learn a trade. Until he was seventeen, he worked mowing lawns, shoveling snow, shining shoes, and as a store clerk until he could join the navy. At twenty-one, he was discharged and practiced his trade while attending college. He now holds a BS in physics and an MBA. He has worked as an engineer on a space shuttle and as an administrator of a scientific research laboratory and taught technical college classes until his retirement.
