Follow The Leader Opinion Polls And The Modern Presidents:

New Directions in the American Presidency Lori Cox Han, 2023-02-21 The third edition of *New Directions in the American Presidency* provides important updates on all topics throughout the text including new and relevant literature across the subfield of presidency studies within political science Significant changes have occurred within the political environment since the publication of the second edition Many scholars refer to the Trump presidency as a disruption to the political order and each chapter will assess the lessons and legacies of the Trump years and analyze how the Biden presidency is faring in the return to a more traditional style of presidential leadership New to the Third Edition Updated chapter on the 2020 presidential campaign and aftermath Assessment of the Trump years Presidential powers and management of executive branch use of social media relationship with Congress relationship with political parties public opinion domestic and foreign policy Supreme Court appointments Two new chapters unitary powers and intersectionality and the presidency

The Politics of the Presidency, Revised 8th Edition Joseph A. Pika, John Anthony Maltese, 2013-07-15 In the most up to date core text available on the presidency *The Politics of the Presidency Revised Eighth Edition* Joseph A Pika and John Anthony Maltese once again deliver their comprehensive and accessible analysis of the presidency Never losing sight of the foundations of the office the authors maintain a balance between historical context and contemporary scholarship on the executive A solid foundation for any presidency course the revised eighth edition features updated chapters including coverage of the 2012 election and a new chapter analyzing Obama s challenges as a second term president in an entrenched partisan environment

The Politics of the Presidency Joseph A. Pika, John Anthony Maltese, Andrew Rudalevige, 2019-12-20 The most up to date coverage and analysis of the presidency Never losing sight of the foundations of the political office *The Politics of the Presidency* maintains a balance between historical context and contemporary scholarship on the executive branch providing a solid foundation for any presidency course In the highly anticipated Tenth Edition of this bestseller Pika Maltese and Rudalevige thoroughly analyze the change and continuity in the presidency during President Trump s first term his relations with Congress and the judiciary the outcomes of the 2018 midterm election and the competitive setting for the 2020 presidential race

Encyclopedia of the American Presidency, Fourth Edition Michael Genovese, 2021-04-01 Praise for the first edition An altogether excellent introduction to the study of the presidency of the United States Library Journal entries are well written an excellent addition American Reference Books Annual an excellent resource recommended Booklist Highly recommended Choice The most up to date reference of its kind *Encyclopedia of the American Presidency Fourth Edition* is the definitive guide to the role of the president from the American Revolution through the present day Offering a complete account of the presidency in U S history this A to Z encyclopedia will make a great first stop for students and general readers looking for information on the executive branch of the American government Its comprehensive scope spans the relationship between the executive and the other branches of government court cases elections political opponents

scandals and more A valuable resource that provides concise information Encyclopedia of the American Presidency Fourth Edition contains more than 750 entries Entries include Bully pulpit Commander in chief Economic policy Executive privilege Kamala Harris Impeachment Iraq War Thomas Jefferson Middle East Military tribunals New Deal Oval Office Franklin D Roosevelt Situation room Donald Trump Veto power War powers Watergate White House and more *Presidency and Domestic Policy* Michael A. Genovese, Todd L. Belt, William W. Lammers, 2015-11-17 This book systematically examines the first terms of every president from FDR to Barack Obama and assesses the leadership style and policy agenda of each Success in bringing about policy change is shown to hinge on the leadership style and skill in managing a variety of institutional and public relationships The second edition of this timely book adds chapters on George W Bush and Obama and focuses on the significant domestic policy challenges of their respective times The authors have reconfigured the analytical framework of the book to take into account the dynamic opportunity structure that emerged during the George W Bush administration The *Presidency and Domestic Policy* provides unique insights into contemporary presidential leadership in a highly partisan age Presidential Road Show Diane J. Heith, 2015-12-03 In *The Presidential Road Show* Public Leadership in an Era of Party Polarization and Media Fragmentation Diane J Heith evaluates presidential leadership by critically examining a fundamental tenet of the presidency the national nature of the office The fact that the entire nation votes for the office seemingly imbues the presidency with leadership opportunities that rest on appeals to the mass public Yet presidents earn the office not by appealing to the nation but rather by assembling a coalition of supporters predominantly partisans Moreover once in office recent presidents have had trouble controlling their message in the fragmented media environment The combined constraints of the electoral coalition and media environment influence the nature of public leadership presidents can exercise Using a data set containing not only speech content but also the classification of the audience Diane J Heith finds that rhetorical leadership is constituency driven and targets audiences differently Comparing tone content and tactics of national and local speeches reveals that presidents are abandoning national strategies in favor of local leadership efforts that may be tailored to the variety of political contexts a president must confront **Panorama of a Presidency** Steven E Schier, 2014-12-18 As the controversial presidency of George W Bush draws to a close this work provides the first dispassionate even handed assessment of Bush's years in office Widely respected scholar and author Steven E Schier goes beyond the perspective of contemporary political commentary and draws on wide ranging literature about presidential history and strategy to carefully identify both the unique and the familiar aspects of George W Bush's presidency *Panorama of a Presidency* examines Bush's innovative electoral and governing strategies ambitious foreign and domestic policy initiatives and the bitterly divisive consequences of his mode of governance As the first analysis to place the George W Bush presidency in a broad historical and theoretical context the book will be an essential foundation for any future studies on the topic **Presidential Campaigns and Presidential Accountability** Michele P. Claibourn, 2011-02-01 In investigating the

presidential campaigns and early administrations of Barack Obama George W Bush and Bill Clinton Presidential Campaigns and Presidential Accountability shows how campaign promises are realized in government once the victor is established in the Oval Office To measure correlations between presidential campaigns and policy making Michele P Claibourn closely examines detailed campaign advertising information survey data about citizen s responses to campaigns processes that create expectations among constituents and media attention and response to candidates Disputing the notion that presidents ignore campaign issues upon being elected Presidential Campaigns and Presidential Accountability contends that candidates raise issues that matter and develop ideas to address these issues based on voter reactions Conventional disappointment in presidential campaigns stems from a misunderstanding of the role that presidents play in a system of separate institutions sharing power and Claibourn forces us to think about presidential campaigns in the context of the presidency what the president realistically can and cannot do Based on comparisons of the Clinton Bush and Obama campaigns and the first years of the subsequent presidential administrations Claibourn builds a generalized theory of agenda accountability showing how presidential action is constrained by campaign agendas

The Presidency, Congress, and Divided Government Richard Steven Conley, 2002 Can presidents hope to be effective in policy making when Congress is ruled by the other party Conley argues that the conditions of divided government have changed in recent years and he applies a rigorous methodology to examine the success of presidential initiatives the strategies presidents use in working with the legislature and the use of veto power Although split party control has not produced policy deadlock or gridlock neither has its impact on presidential leadership and the retention of congressional prerogatives been adequately explored and analyzed Lou Fisher

Muffled Echoes Amy Fried, 1997 Ten years ago the Iran Contra affair swept the headlines as the nation watched an indignant Lt Col Oliver North testify before a congressional committee Although polls showed that most Americans were critical of North s actions and ambivalent toward the man himself media coverage left the opposite impression with its broadcasts of Ollie for president rallies and stories of congressional aides overwhelmed by a torrent of pro North mail In this book public opinion is more than the sum of a pollster s tally instead Amy Fried defines it as a political tool integral to the political process where vested interests compete to legitimize their interpretation of the public voice Fried explores the construction interpretation and uses of public opinion raising important questions about the media and the role of special interest groups in determining policy

Counting the Public In Douglas C. Foyle, 1999-05-06 Does the public alter American foreign policy choices or does the government change public opinion to support its policies In this detailed study Douglas Foyle demonstrates that the differing influence of public opinion is mediated in large part through each president s beliefs about the value and significance of public opinion Using archival collections and public sources Foyle examines the beliefs of all the post World War II presidents in addition to the foreign policy decisions of Presidents Dwight Eisenhower Jimmy Carter Ronald Reagan George Bush and Bill Clinton He finds that some presidents are relatively open to public opinion while others hold beliefs

that cause them to ignore the public's view. Several orientations toward public opinion are posited: the delegate Clinton favors public input and seeks its support; the executor Carter believes public input is desirable but its support is not necessary; the pragmatist Eisenhower Bush does not seek public input in crafting policy but sees public support as necessary; and finally the guardian Reagan neither seeks public input nor requires public support. The book examines the public's influence through case studies regarding decisions on the Formosa Straits crisis, intervention at Dien Bien Phu, the Sputnik launch, the New Look defense strategy, the Panama Canal Treaties, the Soviet invasion of Afghanistan, the Strategic Defense Initiative, the Beirut Marine barracks bombing, German reunification, the Gulf War intervention in Somalia, and intervention in Bosnia.

Keeping the Republic Christine Barbour, Gerald C. Wright, 2016-11-22 This refreshed and dynamic Seventh Edition of *Keeping the Republic* Brief revitalizes the twin themes of power and citizenship by adding to the imperative for students to navigate competing political narratives about who should get what and how they should get it. The exploding possibilities of the digital age make this task all the more urgent and complex. Christine Barbour and Gerald Wright, the authors of this bestseller, continue to meet students where they are in order to give them a sophisticated understanding of American politics and teach them the skills to think critically about it. The entire book has been refocused to look not just at power and citizenship but at the role that control of information and its savvy consumption play in keeping the republic. Carefully condensed from the full version by the authors, this Brief Edition provides all the continuity and crucial content in a more concise, value-priced package.

The End of the Rhetorical Presidency? Diane Heith, 2020-07-30 *The End of the Rhetorical Presidency* Public Leadership in the Trump Era explores one of the most disruptive aspects of the Trump presidency. Since the FDR administration, presidents developed the capacity and skill to use the public to influence the legislative arena, gain reelection, survive scandal, and secure their legacy. Consequently, presidential rhetorical leadership has its own norms and expectations. Comparing President Trump's communications apparatus as well as rhetoric, including Twitter, to previous presidents, Diane Heith demonstrates how Trump exercises leadership by adhering to some of these norms and expectations but rejects, abandons, and undermines most. Heith argues that his individual rather than institutional approach to leadership represents a change in tone, language, and style. She concludes that the loss of skill and capacity represents a devolution of the White House institution dedicated to public leadership, especially in the legislative arena. More significantly, the individual approach emphasizes weakening the ability of the press and other political elites to hold the president accountable. This book will appeal to students and scholars of the presidency as well as general readers who quest for a deeper understanding of the Trump White House.

Guide to the Presidency Michael Nelson, 2015-05-01 *The Guide to the Presidency* is an extensive study of the most important office of the U.S. political system. Its two volumes describe the history, workings, and people involved in this office from Washington to Clinton. The thirty-seven chapters of the Guide are arranged into seven distinct subject areas ranging from the origins of the office to the powers of the presidency to selection and removal, covering every aspect of

the presidency Initially dealing with the constitutional evolution of the presidency and its development the book goes on to expand on the history of the office how the presidency operates alongside the numerous departments and agents of the federal bureaucracy and how the selection procedure works in ordinary and special circumstances Of special interest to the reader will be the illustrated biographies of every president from Washington to the present day and the detailed overview of the vice presidents and first ladies of each particular office Also included are two special appendices one of which gathers together important addresses and speeches from the Declaration of Independence to Clinton s Inaugural Address and another which provides results from elections and polls and statistics from each office

The Presidential Dilemma Michael A. Genovese, 2017-07-28 This brief thought provoking text evaluates the performance of recent presidents from Johnson to Bush finding that overall each has failed to live up to public expectations Written by one of the top presidency scholars today The Presidential Dilemma reflects on the idea that as our country s problems grow our politicians seem to shrink Arguing that American presidents of the last 40 years have largely failed to meet the needs expectations and responsibilities placed upon them the book discusses how presidents might better maximize their opportunities for leadership and suggests a distinctive theory of presidential politics presidents facing a system of multiple veto points seek to maximize power and influence The third edition of Genovese s stimulating book is thoroughly updated to reflect presidential development in recent years and a new introduction brings his arguments current As he demonstrates the emergence of democracy as a new social and political paradigm undermined traditional authority and legitimacy Subjects no longer automatically follow now citizens must be persuaded They may give to a leader their authority and power or not As Genovese notes in a world of mass consumerism those wishing to lead have precious little to offer by way of inducement Genovese s goal is to examine the reasons why the performance of recent presidents has been underwhelming discuss how they might maximize their opportunities for leadership and ask a key question Can presidents be both powerful and accountable The book follows a clear format and tries to show why America s officeholders have so rarely been leaders and how presidents can become leaders instead of mere officeholders

Communication Yearbooks Vols 6-33 Set Various, 2021-12-02 The Communication Yearbook annuals originally published between 1977 and 2009 publish diverse state of the discipline literature reviews that advance knowledge and understanding of communication systems processes and impacts across the discipline Topics dealt with include Communication as Process Research Methodology in Communication Communication Effects Taxonomy of Communication and European Communication Theory Information Systems Division Mass Communication Research Mapping the Domain of Intercultural Communication Public Relations Feminist Scholarship Communication Law and Policy Visual Communication Communication and Cross Sex Friendships Across the Life Cycle Television Programming and Sex Stereotyping InterCultural Communication Training Leadership and Relationships Media Performance Assessment Cognitive Approaches to Communication

The Post-Cold War Presidency Anthony J. Eksterowicz, Glenn P. Hastedt, 1999 With the end

of the Cold War U S presidential leadership has become both more important and more difficult Post war periods have historically posed challenges to leadership and this time around the long time image of the Oleader of the free worldO has declined in the face of globalization and increased interdependence among nations It is exactly this complex environment that makes Americans look ever more to their president for guidance This accessibly written volume discusses socio cultural political and economic changes during and after the Cold War period and how these have affected modern presidential leadership Prominent contributors cover key issues_image and character domestic and foreign policy distraction theory domestic and international economics executive legislative relations security intelligence executive dominance and activist government_and suggest strategies for helping to ensure a strong presidency in the future Debating the Presidency Richard J. Ellis,Michael Nelson,2019-12-20 The study of the presidency the power of the office the evolution of the executive as an institution the men who have served has generated a great body of research and scholarship What better way to get students to grapple with the ideas of the literature than through conflicting perspectives on some of the most pivotal issues facing the modern presidency Richard Ellis and Michael Nelson have once again assembled a cadre of top scholars to offer a series of pro con essays that will inspire spirited debate beyond the pages of the book Each essay written in the form of a debate resolution offers a compelling yet concise view on the American executive The Party Politics of Presidential Rhetoric Amnon Cavari,2017-03-10 This book develops a theory of presidential public leadership taking into account the partisan nature of the political debate and the role of presidents Presidential Leverage Daniel E. Ponder,2017-12-19 For scholars pundits the public and presidents themselves presidential approval is an evergreen subject Its actual impact however is often unclear all too frequently approval is reported in a vacuum dissociated from the American state writ large Presidential Leverage reaffirms the importance of this contested metric By situating approval within the context of public trust in government Daniel E Ponder reveals how approval shapes presidential strategies for governing providing a useful measure of the president s place in the political system The leverage that presidents derive from public opinion exercises considerable influence on their incentives and opportunities for action Though it is more tenuous and fragile than the authority they derive from the Constitution or the law it makes certain kinds of executive action more attractive at a given time Using a quantitative index of presidential leverage Ponder examines this contextualized approval from John F Kennedy s administration through Barack Obama s showing how it has shaped presidential capacity and autonomy agenda setting landmark legislation and unilateral action His analysis sheds light not only on the complexities of presidential power but also on a broad swath of national politics and the American state
