International Directory of Art Libraries Thomas E. Hill, 2012-10-25 The International Federation of Library Associations and Institutions IFLA is the leading international body representing the interests of library and information services and their users It is the global voice of the information profession The series IFLA Publications deals with many of the means through which libraries information centres and information professionals worldwide can formulate their goals exert their influence as a group protect their interests and find solutions to global problems *Mining Memory* Mary Beth

Tierney-Tello, 2017-01-23 Every major Peruvian author of the twentieth century has written a narrative focused on childhood or coming of age *Mining Memory* argues that Peruvian narratives of the twentieth century re imagine childhood not only to document personal pasts but also to focus on national identity as a dynamic and incomplete process *Mining Memory* shows how 20th century narratives and films reimagine the self and the nation by representing child and adolescent protagonists and their evolution using the remembrance of childhood as part of a nation making project The book demonstrates how in the context of Peru fictions focusing on childhood become vehicles for the national reimagining and collective remembering central to much of Latin American literature The figure of the child as emblem of both a collective memory and an always deferred utopian project holds special promise for twentieth century Peruvian writers as they write from a national context rife with cultural racial and political conflict The book intervenes in debates internal to Peruvian cultural studies as well as wider conversations in Latin American Studies and post colonial studies *Mining Memory* provides a new understanding to both the Latin American and Anglo American traditions regarding the representations of national subjectivities through the voices of the child and adolescent Such a representational strategy performs a very particular kind of hybridity and temporal balancing act capable of addressing the very issues of cultural memory and fractured identities so relevant to multi cultural post colonial cultural contexts **Tony Cragg** Tony Cragg, Catherine Grenier, Centre Georges Pompidou, Centre de création

Precision and Madness Kunstmuseum Wolfsburg, 2007 At last the broader movements of twentieth century Swiss art and the individual artists behind them are tracked through the present day in one standard setting publication Swiss Made Precision and Madness sets the famous Swiss tendency toward precision and order alongside the tendency toward obstinacy and chaos pairing canonical works with pieces made within the past 40 years Provocative pairs include Max Bill and John Armleder Ferdinand Hodler and Urs Lüthi Alberto Giacometti and Romy Zaugg Louis Soutter and Martin Disler Robert Müller and Sylvie Fleury Paul Klee and Silvia Bächli Adolph Wolfli and Ugo Rondinone Tensions emerge between the focused and the expansive over everyday life in the Swiss state and naturally over the mountains Swiss Made Precision and Madness is of interest on its own analytic terms and as an excellent overview of the country's art since 1850

Body Mécanique Sarah Rogers-Lafferty, Brian Massumi, 1998 This book examines in detail from the perspective of over a dozen artists the emerging role of technology and in particular digital technology in the portrayal of the body in contemporary art and includes both text and numerous examples from the work of Laurie Anderson Merce Cunningham Toni Dove and others Organized around the three themes of body language constructed body and body sights the book which catalogs an exhibition at the Wexner Center for the Arts seeks to situate the relationship between body and technology in the continuum of modern and postmodern art
