## Food And Wine Of France 05968:

The Food and Wine of France Edward Behr, 2016-06-14 One of Christopher Kimball's Six Favorite Books About Food A beautiful and deeply researched investigation into French cuisine from the founding editor of *The Art of Eating* and author of *50 Foods In THE FOOD AND WINE OF FRANCE* the influential food writer Edward Behr investigates French cuisine and what it means in encounters from Champagne to Provence He tells the stories of French artisans and chefs who continue to work at the highest level Many people in and out of France have noted for a long time the slow retreat of French cuisine concerned that it is losing its important place in the country's culture and in the world culture of food And yet as Behr writes good French food remains very very delicious No cuisine is better The sensuousness is overt French cooking is generous both obvious and subtle simple and complex rustic and utterly refined A lot of recent inventive food by comparison is wildly abstract and austere In the tradition of great food writers Edward Behr seeks out the best of French food and wine He shows not only that it is as relevant as ever but he also challenges us to see that it might become the world's next cutting edge cuisine France remains the greatest country for bread cheese and wine and its culinary techniques are the foundation of the training of nearly every serious Western cook and some beyond Behr talks with chefs and goes to see top artisanal producers in order to understand what the best means for them the nature of traditional methods how to enjoy the foods and what the optimal pairings are As he searches for the very best in French food and wine he introduces a host of important memorable people *THE FOOD AND WINE OF FRANCE* is a remarkable journey of discovery It is also an investigation into why classical French food is so extraordinarily delicious and why it will endure
