Food Climate And Man:

Food, Climate, and Man Margaret R. Biswas, Asit K. Biswas, 1979 Abstract Long range international intergovernmental planning is essential if the world is to solve its food crisis A series of technically oriented articles for the general public address the relationships among food needs climate and societal demands Not until 1971 when a major climate shift caused a 1% drop in cereal production resulting in high food prices in 1973 did the need for more accurate weather forecasting become apparent Effects of limited water and energy supplies on food production are examined The environmental impact of food production e g use of pesticides and fertilizers soil degradation and methods for soil reclamation are described cs
