Humanitarianism in the Modern World Norbert Götz, Georgina Brewis, Steffen Werther, 2020-07-23 This is an innovative new history of famine relief and humanitarianism The authors apply a moral economy approach to shed new light on the forces and ideas that motivated and shaped humanitarian aid during the Great Irish Famine the famine of 1921-1922 in Soviet Russia and the Ukraine and the 1980s Ethiopian famine They place these episodes within a distinctive periodisation of humanitarianism which emphasises the correlations with politico economic regimes the time of elitist laissez faire liberalism in the nineteenth century as one of ad hoc humanitarianism that of Taylorism and mass society from c 1900-1970 as one of organised humanitarianism and the blend of individualised post material lifestyles and neoliberal public management since 1970 as one of expressive humanitarianism The book as a whole shifts the focus of the history of humanitarianism from the imperatives of crisis management to the pragmatic mechanisms of fundraising relief efforts on the ground and finance This book is also available as Open Access on Cambridge Core [Ethics of Consumption](#) David A. Crocker, Toby Linden, 1998 Contains 27 essays which discuss the impact of consumption on the global environment quality of life and international justice Examines consumption behaviour including both motives and practices **The Quest For A Just World Order** Samuel S Kim, 2019-07-11 In response to a growing sense of dissatisfaction with the state of the world and the state of international relations research Professor Kim has taken an alternative approach to the study of contemporary world politics

Specifically he has adopted and expanded the cross cultural interdisciplinary and transnational approach developed by the World Order Models Project WOMP an enterprise committed to the realization of peace economic equality and well being social justice and ecological balance Systemic in scope and interdisciplinary in methodology The Quest for a Just World Order explains and projects the issues patterns and trends of world politics giving special attention to the attitudinal normative behavioral and institutional problems involved in the politics of system transformation Professor Kim also attempts to remedy a number of problematic features of traditional approaches including a value neutral orientation fragmentation and overspecialization overemphasis on national actors the superpowers and stability and the Hobbesian image of world politics Part 1 presents a conceptual framework for developing a normative theory of world order Each of the four chapters in Part 2 examines a specific global crisis in depth working within the framework laid out in Part 1 In Part 3 a variety of desirable and feasible transition strategies are proposed and Professor Kim assesses the prospects for achieving a just and humane world order system by the end of this century *Climate Justice* Henry Shue,2014 Climate change is the most difficult threat facing humanity this century and negotiations to reach international agreement have so far foundered on deep issues of justice Providing provocative and imaginative answers to key questions of justice informed by political insight and scientific understanding this book offers a new way forward *Who Speaks for the Child* Willard Gaylin,Ruth Macklin,1982-04-30

Ethics of Global Development David A. Crocker,2008-07-10 Poverty inequality violence environmental degradation and tyranny continue to afflict the world Ethics of Global Development offers a moral reflection on the ends and means of local national and global efforts to overcome these five scourges After emphasizing the role of ethics in development studies policy making and practice David A Crocker analyzes and evaluates Amartya Sen s philosophy of development in relation to alternative ethical outlooks He argues that Sen s turn to robust ideals of human agency and democracy improves on both Sen s earlier emphasis on capabilities and functionings and Martha Nussbaum s version of the capability orientation This agency focused capability approach is then extended and strengthened by applying it to the challenges of consumerism and hunger the development responsibilities of affluent individuals and nations and the dilemmas of globalization Throughout the book the author argues for the importance of more inclusive and deliberative democratic institutions **The Global Justice**

Reader Thom Brooks,2008-03-10 The Global Justice Reader is a first of its kind collection that brings together key foundational and contemporary writings on this important topic in moral and political philosophy Brings together key foundational and contemporary writings on this important topic in moral and political philosophy Offers a brief introduction followed by important readings on subjects ranging from sovereignty human rights and nationalism to global poverty terrorism and international environmental justice Presents the writings of key figures in the field including Thomas Hobbes Immanuel Kant John Rawls Thomas Pogge Peter Singer and many others **Companies, International Trade and**

Human Rights Janet Dine,2005-02-24 Originally published in 2005 this book focuses on the role of corporations within the

trading system and the complex relationships between corporations nation states and international organisations The actions and motives that drive corporations are considered as well as the structure of the international trading system Remedial devices such as Codes of Conduct and Human Rights instruments are assessed for effectiveness The book seeks reasons for what is a growing understanding that international trading regimes are not meeting objectives found in many international agreements including both the international trade agreements themselves WTO GATT TRIPS etc and human rights instruments In particular it is clear that the prevalence and severity of poverty is not being adequately addressed This work sets out to investigate the role played by companies in this failure in the globalisation of trade to realise its aims in particular the failure to achieve the minimum of basic rights the right to food

ERS Staff Report ,1983 **Egalitarianism and Global Justice** Kevin K. W. Ip,2016-07-28 In this book Kevin Ip articulates and defends an egalitarian conception of global distributive justice grounded on the value of equality as a normative ideal of how human relations should be conducted Arguing that relationships of equality rather than those characterized by domination or exploitation are a requirement for a just system Ip spells out the real world implications of this approach Ip defends the ideal of equality against the diverse objections which have been brought to bear and the responsibilities we bear in our aspirations towards global justice

Real World Justice A. Follesdal,Thomas Winfried Menko Pogge,T. Pogge,2005-06-08 The concept of global justice makes visible how we citizens of affluent countries are potentially implicated in the horrors so many must endure in the so called less developed countries Distinct conceptions of global justice differ in their specific criteria of global justice However they agree that the touchstone is how well our global institutional order is doing compared to its feasible alternatives in regard to the fundamental human interests that matter from a moral point of view We are responsible for global regimes such as the global trading system and the rules governing military interventions These institutional arrangements affect human beings worldwide for instance by shaping the options and incentives of governments and corporations Alternative paths of globalization would have differed in how much violence oppression and extreme poverty they engender And global institutional reforms could greatly enhance human rights fulfillment in the future The importance of this global justice approach reaches well beyond philosophy It enables ordinary citizens to understand their options and responsibility for global institutional factors and it challenges social scientists to address the causes of poverty and hunger that act across borders The present volume addresses four main topics regarding global justice The normative grounds for claims regarding the global institutional order the substantive normative principles for a legitimate global order the roles of legal human rights standards and some institutional arrangements that may make the present world order less unjust All royalties from this book have been assigned to Oxfam

Freedom from poverty as a human right: theory and politics Pogge, Thomas,2009-12-31 Current Debates in Global Justice Gillian Brock,Darrel Moellendorf,2006-03-30 Issues of global justice dominate our contemporary world Increasingly philosophers are turning their attention to thinking about particular

issues of global justice and the accounts that would best facilitate theorizing about these This volume of papers on global justice derives from a mini conference held in conjunction with the Pacific Division meeting of the American Philosophical Association in Pasadena California in 2004 The idea of holding a mini conference on global justice was inspired by the growth of interest in such questions and it was hoped that organizing the mini conference would stimulate further good writing in this area We believe that our mission has been accomplished We received a number of thoughtful papers on both theoretical and more applied issues showing excellent coverage of a range of topics in the domain of global justice A selection of some of the very best papers is published in this special issue of The Journal of Ethics In particular we tried to include papers that would reflect some of the range of topics that were covered at the conference to give readers a sense of both the scope of the field as it is currently emerging and the direction that the debates seem to be taking As a result of increased attention to theorizing about global justice cosmopolitanism has enjoyed a resurgence of interest as well

The Political Philosophy of Cosmopolitanism Gillian Brock, Harry Brighouse, 2005-07-21 In a period of rapid internationalization of trade and increased labor mobility is it relevant for nations to think about their moral obligations to others Do national boundaries have fundamental moral significance or do we have moral obligations to foreigners that are equal to our obligations to our compatriots The latter position is known as cosmopolitanism and this volume brings together a number of distinguished political philosophers and theorists to explore cosmopolitanism what it consists in and the positive case which can be made for it Their essays provide a comprehensive overview of both the current state of the debate and the alternative visions of cosmopolitanism with which we can move forward and they will interest a wide range of readers in philosophy political theory and law

The Personal and the Professional in Aid Work Anne-Meike Fechter, 2016-03-16 This book considers how the personal and the professional dimensions are related and how they matter for aid work The contributions to this edited volume are based on the assumption that all actors are relevant in development including national and international aid workers A key question which the book explores is why the personal so often remains unacknowledged in development studies even though its salience for aid workers is well documented One possible reason is an implicit narrative of aid work as altruistic and self sacrificing which renders it inappropriate to devote much attention to the experiences of development professionals themselves In order to redress this this book critically considers the kind of difference they make and aims to understand how they respond to the challenges of their work The book explores their efficacy as human beings and employees with individual subjectivities social and cultural beliefs and practices and documents how these shape their involvement in development processes This book was published as a special issue of Third World Quarterly

Facing Up to Scarcity Barbara H. Fried, 2020-02-27 Facing Up to Scarcity offers a powerful critique of the nonconsequentialist approaches that have been dominant in Anglophone moral and political thought over the last fifty years In these essays Barbara H Fried examines the leading schools of contemporary nonconsequentialist thought including Rawlsianism

Kantianism libertarianism and social contractarianism In the realm of moral philosophy she argues that nonconsequentialist theories grounded in the sanctity of individual reasons cannot solve the most important problems taken to be within their domain Those problems which arise from irreducible conflicts among legitimate and often identical individual interests can be resolved only through large scale interpersonal trade offs of the sort that nonconsequentialism foundationally rejects In addition to scrutinizing the internal logic of nonconsequentialist thought Fried considers the disastrous social consequences when nonconsequentialist intuitions are allowed to drive public policy In the realm of political philosophy she looks at the treatment of distributive justice in leading nonconsequentialist theories Here one can design distributive schemes roughly along the lines of the outcomes favoured but those outcomes are not logically entailed by the normative premises from which they are ostensibly derived and some are extraordinarily strained interpretations of those premises Fried concludes as a result that contemporary nonconsequentialist political philosophy has to date relied on weak justifications for some very strong conclusions

Political Theory of Global Justice Luis Cabrera, 2006-02-03 This book offers a moral argument for world government claiming that not only do we have strong obligations to people elsewhere but that accountable integration among nation states will help ensure all persons can lead a decent life
