Committee on Labor and Human Resources, 1983      Moon Phase Whitetail Hunting Jeff Murray, 2001 No longer a guarded secret, hunting whitetails using a lunar strategy is one of the most effective tactics employed by successful trophy hunters. The father of hunting deer by the moon, the man who started it all, Jeff Murray shares his best kept secrets and insights on this fascinating aspect of white-tailed deer hunting and tells you how to make it work for you. From game tracking experts and professional biologists to hunting club managers, outfitters, and guides, great hunters know that deer are inextricably linked to the lunar cycle. In his latest book on the subject, Murray teaches how to predict peak rutting activity and how to plan to be afield when big bucks are moving. Other topics include tactics to zone in on deer in transition areas and when, according to moon phase, deer will be at the field's edge and when they won't. This book also covers the different lunar cycles and how the moon triggers the rut activity. Chapters include: Does the Moon Trigger the Rut?
