Publishers Weekly ,1996 *The Battle of Dyrrhachium, 48 BC* Gareth C. Sampson,2022-05-19 An in depth study of the rivalry between two of Rome s greatest military commanders and the battle where they met in combat In 49 BC the Roman Republic collapsed once more into civil war with opposing sides led by Pompey the Great and Julius Caesar These former allies had built their own factions within the Roman oligarchy and now refused to compromise Yet their violent struggle for control of the Republic lasted eighteen months before these two men met in combat at The Battle of Dyrrhachium Gareth Sampson outlines the strategic background of the battle describing the early campaigns of the civil war The battle itself is analyzed in depth shedding light on the strengths and weakness of both armies and their commanders Sampson also looks at the tactics used at various phases of the battle which culminated in victory for Pompey He then examines the battle s aftermath with Caesar defeated and Pompey in the ascendancy *African Islands* Peter Mitchell,2022-04-11

African Islands provides the first geographically and chronologically comprehensive overview of the archaeology of African islands This book draws archaeologically informed histories of African islands into a single synthesis focused on multiple issues of common interest among them human impacts on previously uninhabited ecologies the role of islands in the growth of long distance maritime trade networks and the functioning of plantation economies based on the exploitation of unfree labour Addressing and repairing the longstanding neglect of Africa in general studies of island colonization settlement and connectivity it makes a distinctively African contribution to studies of island archaeology The availability of this much needed synthesis also opens

up a better understanding of the significance of African islands in the continent's past as a whole. After contextualizing chapters on island archaeology as a field and an introduction to the variety of Africa's islands and the archaeological research undertaken on them, the book focuses on four themes: arriving, altering, being, and colonizing and resisting. An interdisciplinary approach is taken to these themes, drawing on a broad range of evidence that goes beyond material remains to include genetics, comparative studies of the languages, textual evidence, and oral histories. *Island Ecologies and More* provides an up-to-date synthesis and account of all aspects of archaeological research on Africa's islands for students and academics alike.

Hunger and the Sword Paul Erdkamp, 2023-01-16 Roman wars like those of later times took place in a landscape, a landscape not only consisting of mountains, plains, and rivers, but also of men tilling the soil, travelling across sea or land, or employing other means in their struggle for survival and even happiness. This book undertakes to examine Roman wars in this context of the natural and human environment. Roman warfare is generally examined from the viewpoint of the ancient authors, on whose narratives our understanding depends. As a consequence, however, Roman wars seem to have become events that took place on the pages of a book rather than in the environment of the Mediterranean world. The way Roman wars were fought was determined by the geography and climate of the Mediterranean peninsulas, by the ecological restraints on agriculture and transport, and by the economic and social structures of the society of which the armies were a significant part. This book

relates warfare to one of the main conditions of survival it examines on the one hand the food supply of the many thousands that manned the Roman armies and on the other the impact of war on the food supply of those people not waging war
