and Southeast Asia is thought to be the source of the trouble Roman Adrian Cybriwsky examines how Roppongi's nighttime economy is now under siege by both heavy handed police action and the conservative Japanese construction state an alliance of large private builders and political interests with broad discretion to redevelop Tokyo The construction state sees an opportunity to turn prime real estate into high end residential and retail projects that will clean up the area and make Tokyo more competitive with Shanghai and other rising business centers in Asia Roppongi Crossing is a revealing ethnography of what is arguably the most dynamic district in one of the world's most dynamic cities Based on extensive fieldwork it looks at the interplay between the neighborhood's nighttime rhythms its emerging daytime economy of office towers and shopping malls Japan's ongoing internationalization and changing ethnic mix and Roppongi Hills and Tokyo Midtown the massive new construction projects now looming over the old playground

**Boundless Worlds** Peter Wynn Kirby, 2008-12-01 Where lived experience of surroundings is shifting visceral and immersive interpretation of social spaces tends to be static and remote Space and place are also often analyzed without grappling much if at all with the social political and historical roots of spatial practice This volume embarks upon the novel strategy of focusing on movement as a way of understanding social spaces which offers a means to get beyond biases inherent in the social science of space Ethnographic studies of social life in settings as varied as nomadic Mongolia and island Melanesia as distinct as contemporary Tokyo and war torn Palestine challenge Western assumptions about the universality of space and allow concrete understanding of how life plays out over different socio cultural topographies In a world that is becoming increasingly bounded in many ways despite enormous changes wrought by technological ideological and other social developments Boundless Worlds urges a scholarly turn away from the purely global toward the human dimension of social lives lived in conditions of conflict upheaval remapping and improvisation through movement
