Denton,2012-10-02 Robert E Denton The Key To Enlightened Dreaming The Spiritual survival Guide Beyond 2012 ABOUT THE BOOKS The Key To Enlightened Dreaming was originally published in 1998 as a full color hardcover book with original spiritual artwork as well as B W line drawings It teaches the reader to break down dreams into their four main components so that the symbols may be ascertained to allow the dreamer to see the message within At that time I was raising a young family and found that the dreams of a family unit are priceless in guiding young children and parents in the ways of Spirit so that God and our spiritual guides can have a direct contact to us and guide our daily interactions In the fall of 2011 I began to have visions of white light that seemed to be directing me to write another book to warn the planet particularly the United States of America of impending natural disasters that are about to hit the earth Even a date has been given as to when this will truly begin These visions also told me that my techniques in reading the images of Spirit through Dreams Waking Dreams Visions and Soul Experiences would be the best form of protection and direction for those who could learn It s ways As a result I have put the two books together one written in 1998 and the other in the fall of 2011 through the spring of 2012 to release to the world to warn those in the path of the upcoming destrution and give them a means to protect themselves and their families through this direct connection to spirit I would like to sell the two books as one with full color art for 9 99     **Your Dreams Can Save Your Life** Anna Mancini,2013-12-14 Although we naturally sense all the dangers of our environment through our body and subconscious we no longer know how to use these perceptions in order to ensure our own safety Animals are still able to do this and this enables them to be warned and to flee before the outbreak of natural disasters However by learning to benefit from their dreams humans can surpass animals in this field The fruit of more than 20 years of research this book explains a method that is accessible to everyone that enables the links between the body conscious and subconscious to be re established in order to receive more information on the dangers of our environment Once communication has been re established between the body and the subconscious it turns out that human beings are far superior to animals and to all existing technologies in sensing all kinds of dangers whether they be natural human or technological By using the technique that is explained in this book you will learn how to retrieve information available to you in dreams that is important for the safety of you and the people close to you Through this you will also be able to for example avoid accidental death by escaping before the outbreak of a natural disaster earthquake volcanic eruption landslide flood storm tidal wave avalanche tornado etc foil the plans of attackers terrorists thieves rapists or burglars know before going away for example by boat or plane if you are going to arrive safe and sound at your destination or if it would be better to cancel this trip because of an attack shipwreck accident or natural disaster sense many other traps and dangers and avoid them the most gifted among you will also be able to develop a greater sensitivity and intuition directly in a waking state which will enable you to react even more effectively to the dangers of your environment
