Double Particularity Daniel D. Lee, 2017-05-01 Double Particularity is a constructive proposal for theological methodology addressing the Asian American context using the theology of Karl Barth It focuses primarily on employing Barth's theology to develop a methodology for engaging the Asian American context This methodological focus means that it is an integrative and synthetic work bringing seemingly disparate thoughts and concepts together Here the Asian American context serves as an important case study With the center of worldwide Christianity moving to the global South and even as American Christianity becomes more reflective of immigrant populations the theological need for a deeper engagement with context is more urgent than ever Karl Barth particularly his thought on election Christology and reconciliation offers much wisdom and insight for the churches of the majority world and for these ethnic churches even though he is often seen as just a figure in the Western historical tradition Hence this study is a contribution to the development of a connection between Barth and contextual theology to the stimulation and enrichment of both

A Church

of Our Own R. Stephen Warner, 2005 In this definitive collection of essays spanning fifteen years R Stephen Warner traces the development of the new paradigm interpretation of American religion Originally formulated in the 1990s in response to prevailing theories of secularization that focused on the waning plausibility of religion in modern societies the new paradigm reoriented the study of religion to a focus on communities subcultures new religious institutions and the fluidity of modern religious identities This perspective continues to be one of the most important driving forces in the field and one of the most significant challenges to the idea that religious pluralism inevitably leads to religious decline A leading sociologist of religion Warner shows how the new paradigm stresses the role that religion plays as a vehicle for the bonding and expression of communities within the United States a society founded on the principle of religious disestablishment and characterized by a diverse and mobile population Chapters examine evangelicals and Pentecostals gay and lesbian churches immigrant religious institutions Hispanic parishes and churches for the deaf in terms of this framework Newly written introductory and concluding essays set these groups within the broad context of the developing field A thoughtfully organized and timely collection the volume is a valuable classroom resource as well as essential reading for scholars of contemporary religion
