Fonética Y Fonología Españolas:

Fonética y fonología españolas Armin Schwegler, Ana Ameal-Guerra, 2019-01-14 In its 5th edition *Fonética y fonología españolas* remains an indispensable resource for students of Spanish as a second language. This comprehensive text covers the essential components required for fluency with a detailed treatment of phonetics and phonology that provides a powerful framework for the study and practice of spoken language. A focus on the application of articulatory methods enables English speakers to hone advanced pronunciation skills. Extensive attention to dialect phenomena found in Latin American and Peninsular Spanish introduces readers to fascinating sociolinguistic dimensions of regional variations in spoken Spanish. An enhanced pedagogical framework provides a sophisticated and expedient set of linguistic tools. Written and oral exercises help students sharpen their pronunciation. Numerous maps, tables, figures, and illustrations guide students to an intuitive understanding of Spanish as used around the world. Augmented by online supplemental resources including plentiful audio and video samples, class discussion topics, and group exercises, this textbook is designed to build students' confidence while encouraging their participation and sharpening of conversational skills.

Fonética y fonología españolas Armin Schwegler, Juergen Kempff, Ana Ameal-Guerra, 2018-07-11 *Fonética y fonología españolas* has been completely revised and updated for the fourth edition. The text serves as an introduction to the phonetics and phonology of the Spanish language and aids English-speaking students in acquiring a semi-native pronunciation while minimizing their foreign accent. Additionally, the text offers an introduction to various phonetic dialects of Spanish in the Americas and Spain.

La voz del lenguaje Antonio Hidalgo Navarro, Mercedes Quilis Merín, 2012

Principios de fonología y fonética españolas Antonio Quilis, 1997

Algunos lingüistas pretendieron hacer de la fonología y de la fonética ciencias independientes y tratarlas por separado pero desde hace muchos años se vuelve a ver en estos dos aspectos fonéticos del lenguaje un todo algo así como una montaña con dos vertientes inseparables que requieren un mutuo apoyo para su existencia. El valor y desarrollo de la fonología y de la fonética se condicionan mutuamente. De ahí que algunos lingüistas hayan otorgado a la fonología la denominación de fonética funcional. La presente obra es un resumen sintético de todas aquellas cuestiones que tienen que ver con la fonética y la fonología de una lengua concreta, el español.
