Margaret Barnett, 2014-04-24 Because of the exceptionally high proportion of imports in Britain's food supply and the determined efforts of the enemy to sever the supply lines efficient management of food resources was an essential element in the British national war effort This volume was the first comprehensive study of this vital aspect of government strategy and fills a gap in the historiography of this period This volume provides a balanced picture by drawing together the diverse elements that went into food policy economic and social trends international trade relations and labour issues The author also traces the evolution of food policy during the pre war planning period and the early part of the war and analyses the roles of the United States and the labour organizations Feeding Britain Tim Lang, 2020-03-26 How does Britain get its food Why is our current system at breaking point How can we fix it before it is too late British food has changed remarkably in the last half century As we have become wealthier and more discerning our food has Europeanized pizza is children's favourite food and internationalized we eat the world's cuisines yet our food culture remains fragmented a mix of mass ultra processed substances alongside food as varied and good as anywhere else on the planet This book takes stock of the UK food system where it comes from what we eat its impact fragilities and strengths It is a book on the politics of food It argues that the Brexit vote will force us to review our food system Such an opportunity is sorely needed After a brief frenzy of concern following the financial shock of 2008 the UK government has slumped once more into a vague hope that the food system will keep going on as before Food they said just required a burst of agri technology and more exports to pay for our massive imports Feeding Britain argues that this and other approaches are short sighted against the public interest and possibly even strategic folly Setting a new course for UK food is no easy task but it is a process this book urges that needs to begin now Tim Lang has performed a public service Simon Jenkins Sunday Times *Agricultural Economics Research*, 1955 *The*

Battle of the Fields Brian Short, 2014 This book will appeal not only to historians and geographers but to many who maintain a deep interest in the British countryside and its past and to those who continue to share a fascination for the Second World War in particular the home front The Battle of the Fields tells the story of rural community and authority in Britain during the Second World War by looking at the County War Agricultural Executive Committees From 1939 they were imbued with powers to transform British farming to combat the loss of food imports caused by German naval activity and initial European mainland successes Their powers were sweeping and draconian When fully exercised against recalcitrant farmers dispossession in part or whole could and did result This book includes the most detailed analysis of these disposessions including the tragic case of Ray Walden the Hampshire farmer who was killed by police after refusing to leave his farmhouse in 1940 The committees were deemed successful by Whitehall as harbingers of modernity mechanization draining artificial fertilizers reclamation of heaths marshes and woodlands We now deplore some of these changes but Britain did not starve in large part thanks to their efforts This book will appeal not only to historians and geographers but to many who maintain a deep interest in the British countryside and its past and to those who continue to share a fascination for the Second World War in particular the home front It will also demonstrate to all who are anxious about food security in the modern age how this question was dealt with 70 years ago BRIAN SHORT is Emeritus Professor of Historical Geography at the University of Sussex and formerly Dean of School and Head of the Department of Geography

Austerity in Britain Ina Zweiniger-Bargielowska,2000-05-04 Austerity in Britain is the first book to explore the entire episode of rationing austerity and fair shares from 1939 until 1955 These policies were central to the British war effort and to post war reconstruction The book analyses the connections between government policy consumption gender and party politics during and after the Second World War The economic background to austerity the policy s administration and changes in consumption standards are examined Rationing resulted in at times extensive black markets and popular attitudes to the policy ranged from wartime acquiescence to post war discontent Austerity in Britain qualifies the myth of common sacrifice on the home front and highlights the limitations of the fair shares policy which failed to achieve genuine equality between classes or between men and women The continuation of rationing and austerity policies after 1945 was central to party politics Disaffection particularly among women undermined Labour s popularity while the Conservatives critique of austerity was instrumental to the party s victories at the general elections of 1951 and 1955

Wilt,2001-09-20 Food for War is a ground breaking study of Britain s food and agricultural preparations in the 1930s as the nation once again made ready for war Historians writing about 1930s Britain have usually focused on the Depression appeasement or political military and industrial concerns None have dealt adequately with another significant topic food and agriculture as the nation moved albeit reluctantly from peace to war In this new account Alan F Wilt makes right this omission by examining in depth the relationship between food agriculture and the nation s preparations for war He reveals how food and agriculture became closely linked to rearmament as early as 1936 that the government s preparations in this sector as contrasted with other areas of the economy were relatively well developed when war broke out in 1936 and that rural and farm interests well understood the effect that war would have on their way of life He argues that food and agriculture need to be integrated into the more general historical discourse for what happened in Britain in the 1930s not only set the stage for World War II but also contributed to a more robust agriculture in the decades that followed **The Journal of Agricultural Economics Research** ,1987 *Catalogue of Copyright Entries* ,1954 *The Publishers' Trade List Annual* ,1967 *Eating for Victory* Amy Bentley,1998 Mandatory food rationing during World War II significantly challenged the image of the United States as a land of plenty and collapsed the boundaries between women s public and private lives by declaring home production and consumption to be political activities Examining the food related propaganda surrounding rationing Eating for Victory decodes the dual message purveyed by the government and the media while mandatory rationing was necessary to provide food for U S and Allied troops overseas women on the home front were also required to provide their families with nutritious food Amy Bentley reveals the role of the Wartime Homemaker as a pivotal component not only of World War II but also of the development of the United States into a superpower
