The Bible's First History Robert B. Coote,David Robert Ord,2018-01-04 This is a book about an ancient writer the J writer the Yahwist who produced a work of political imagination This work is embedded mainly in the first four books of the Bible best known for some of the most popular and influential biblical stories in Genesis and Exodus The purpose of the book is to represent the whole of the original story with attention to its own meaning without the influence of the other literary

strands with which it was later supplemented Therefore the work includes a fresh complete translation of the text of the J writer who produced the Bible s first history The translation itself helps to establish more clearly than ever the integrity of the J writer The concern here is WHEN and WHY this history was written especially in light of the concerns for justice and prosperity Throughout it is demonstrated HOW and WHY this history comes from the court of David it is a royal history of David s subjects as though they were descended from pastoral nomads such as Abram Isaac and Jacob It is argued that the intended audience of the history was probably those bedouin who regularly visited the court of David in Hebron and Jerusalem Here is a bold and brilliant representation of the J writer s composition perhaps as it was originally intended to be read or heard This ancient tour de force takes on new life in the hands of these skilled interpreters *Nomenclature 4.0 for Museum Cataloging* Paul Bourcier, Heather Dunn, The Nomenclature Task Force, 2015-09-01 Nomenclature 4 0 for Museum Cataloging is an updated and expanded edition of Robert G Chenhall s system for classifying human made objects originally published in 1978 The Chenhall system is the standard cataloging tool for thousands of museums and historical organizations across the United States and Canada For this fourth edition hundreds of new terms have been added and every category class sub class and object term has been reviewed and revised as needed by a professional task force appointed by the American Association for State and Local History This new edition features crucial revisions including A revised and updated users guide with new tips and advice An expanded controlled vocabulary featuring nearly 950 new preferred terms 475 more non preferred terms in the index An expanded and reorganized section on water transportation Expanded coverage of exchange media digital collections electronic devices archaeological and ethnographic objects and more AASLH has developed a free online community for all users and potential users of Nomenclature 4 Click here to access the Nomenclature 4 0 online community Use this site to learn about Nomenclature 4 0 to share news and ask advice and to submit your own proposals for additions and changes for future editions *A New and Complete Pronouncing Bible Dictionary, Containing More Scriptural Words Than Any Other Work of the Kind* ,1873
