Footsteps In The Fog Alfred Hitchcocks San Francisco:

Footsteps in the Fog Jeff Kraft, Aaron Leventhal, 2002-10-01 Footsteps in the Fog is a celebration of the San Francisco films of Alfred Hitchcock The master director's familiarity with Northern California greatly influenced his decision to use Bay Area locations in several of his landmark motion pictures and more importantly was often the source of inspiration for many of these same cinema classics Three of Hitchcock's masterpieces were set in the San Francisco area Shadow of a Doubt Vertigo and The Birds In addition Rebecca Suspicion Marnie Topaz Psycho and Family Plot utilized Bay Area locations and or were inspired by Northern California events and settings Footsteps in the Fog examines these famous films taking the reader on a journey around the Bay Area while weaving together cinemagraphic intrigue Bay Area history and lore and the timeless elegance of San Francisco and its picturesque surroundings Over 400 historical and contemporary photos are featured in the book including impromptu off camera images and shots from the films themselves many never before seen Footsteps in the Fog can be used as a companion to viewing the Northern California Hitchcock films as a guide for visiting the sites and settings used in these motion pictures and as a source of biographical information about Alfred Hitchcock's personal connections to San Francisco and the Bay Area Hitchcock loved Northern California he often entertained Hollywood celebrities at his ranch and vineyard outside of Santa Cruz and frequented such San Francisco institutions as Jack s Restaurant the Fairmont Hotel the Top of the Mark and the historic Bercut Brothers Grant Market Hitchcock fans everywhere will rejoice as they revisit and rediscover the locations and settings used in the great director s most beloved films The San Francisco of Alfred Hitchcock's Vertigo Douglas A. Cunningham, 2012 This book is a collection of essays that examine the integrated relationship that the 1958 Alfred Hitchcock film Vertigo has with the history and culture of California and the San Francisco Bay area **Shadow of a Doubt** Diane Negra, 2021-04-15 Shadow of a Doubt 1943 was British born Alfred Hitchcock s sixth American film and the one that he at various times identified as his favourite and his best It seems likely that one of the reasons he liked Shadow so much is that is an extraordinarily well ordered narrative system a meticulous cause and effect chain that melds its various scenes and sequences together to form a unified narrative that is highly effective in building suspense and cultivating identification with characters This scrupulously organized film operates as a masterclass on principles of narrative design while generating resonant commentary on the nature of family life This book redresses the deficit of sustained critical attention paid to Shadow even in the large corpus of Hitchcock scholarship Analysing the film's narrative system issues of genre authorship social history homesickness and family values Diane Negra shows how the film's impeccable narrative structure is wedded to radical ideological content linking the film's terrors to the punishing effects of looking beyond conventional family and gender roles This book understands Shadow as an unconventionally female centred Hitchcock text and a milestone film that marks the director's emergent engagement with the pathologies of violence in American life and opens a window into the placement of femininity in World War II consensus
