## **For Marx Against Althusser And Other Essays Current Continental Research:**

For Marx Against Althusser, and Other Essays John O'Neill, 1982 Introducing a new cross disciplinary genre co published with The Center for Advanced Research in Phenomenology this volume argues that any attempt to break into the intertextuality of Marx s philosophy economics history and sociology or to separate him from Hegel and the classical economists merely results in crude reductions of Marx s achievement    *The Postmodern Bible* George Aichele, Fred W. Burnett, Robert M. Fowler, David Jobling, Tina Pippin, Wilhelm Wuellner, Bible and Culture Collective, 1995-01-01 The burgeoning use of modern literary theory and cultural criticism in recent biblical studies has led to stimulating but often bewildering new readings of the Bible This book argued from a perspective shaped by postmodernism is at once an accessible guide to and an engagement with various methods theories and critical practices transforming biblical scholarship today Written by a collective of cutting edge scholars with each page the work of multiple hands The Postmodern Bible deliberately breaks with the individualist model of authorship that has traditionally dominated scholarship in the humanities and is itself an illustration of the postmodern transformation of biblical studies for which it argues The book introduces illustrates and critiques seven prominent strategies of reading Several of these interpretive strategies rhetorical criticism structuralism and narratology reader response criticism and feminist criticism have been instrumental in the transformation of biblical studies up to now Many feminist and womanist criticism ideological criticism poststructuralism and psychoanalytic criticism hold promise for the continued transformation of these studies in the future Focusing on readings from both the Hebrew Bible and the New Testament this volume illuminates the current multidisciplinary debates emerging from postmodernism by exposing the still highly contested epistemological political and ethical positions in the field of biblical studies    History and Event Nathan Coombs, 2015-10-31 Nathan Coombs demonstrates that the Marxist science of history has been reimagined by a strand of contemporary French theory after Louis Althusser Taking a comparative approach Coombs explores the technical details of both traditions historical science    *Books in Print Supplement*, 1988    *Subject Guide to Forthcoming Books*, 1983 Presents by subject the same titles that are listed by author and title in Forthcoming books    **The Edinburgh Encyclopedia of Continental Philosophy** Simon Glendinning, 1999 First Published in 1999 Routledge is an imprint of Taylor Francis an informa company    For Marx Against Althusser, and Other Essays John O'Neill, 1982 Introducing a new cross disciplinary genre co published with The Center for Advanced Research in Phenomenology this volume argues that any attempt to break into the intertextuality of Marx s philosophy economics history and sociology or to separate him from Hegel and the classical economists merely results in crude reductions of Marx s achievement    **Seven Essays on Populism** Paula Biglieri, Luciana Cadahia, 2021-01-14 This important intervention interrogates keystone features of the dominant European theoretical landscape in the field of populism studies advancing existing debates and introducing new avenues of thought in conjunction with insights from the contemporary Latin American

political experience and perspectives In each essay the title a nod to the influential socialist thinker Jos Carlos Mari tegui from whom the authors draw inspiration leading Argentine scholars Paula Biglieri and Luciana Cadahia pair key dimensions of populism with diverse themes such as modern day feminism militancy and neoliberalism in order to stimulate discussion surrounding the constitutive nature goals and potential of populist social movements Biglieri and Cadahia are unafraid to court provocation in their frank assessment of populism as a force which could bring about essential emancipatory social change to confront emerging right wing trends in policy and leadership At the same time this fresh interpretation of a much maligned political articulation is balanced by their denunciation of right aligned populisms and their failure to bring to bear a sustainable alternative to contemporary neo authoritarian forms of neoliberalism In their place they articulate a populism which offers a viable means of mobilizing a response to hegemonic forms of neoliberal discourse and government

**Subject Guide to Books in Print** ,1993    **A London Bibliography of the Social Sciences** ,1931 Vols 1 4 include material to June 1 1929    **Identity and Difference** Etienne Balibar,2013-12-17 John Locke s foundational place in the history of British empiricism and liberal political thought is well established So in what sense can Locke be considered a modern European philosopher Identity and Difference argues for reassessing this canonical figure Closely examining the treatise on identity added to the second edition of An Essay Concerning Human Understanding tienne Balibar demonstrates Locke s role in the formation of two concepts central to the metaphysics of the subject consciousness and the self and the complex philosophical legal moral and political nature of his terms With an accompanying essay by Stella Sandford situating Balibar s reading of Locke in the history of the reception of the Essay and within Balibar s other writings on the subject Identity and Difference rethinks a crucial moment in the history of Western philosophy    **American Book Publishing Record** ,1984-04    **Forthcoming Books** Rose Arny,1990    **Phenomenol Rhetoric Commun CB (Current Continental Research)** Deetz,1981    **Books in Print** ,1977    *Tijdschrift voor philosophie* ,1984    **Encyclopedia of Modern French Thought** Christopher John Murray,2013-01-11 In this wide ranging guide to twentieth century French thought leading scholars offer an authoritative multi disciplinary analysis of one of the most distinctive and influential traditions in modern thought Unlike any other existing work this important work covers not only philosophy but also all the other major disciplines including literary theory sociology linguistics political thought theology and more    **Free Will and Continental Philosophy** David Edward Rose,2011-10-20 Free Will and Continental Philosophy explores the concepts of free will and self determination in the Continental philosophical tradition David Rose examines the ways in which Continental philosophy offers a viable alternative to the hegemonic scientific approach taken by analytic philosophy Rose claims that the problem of free will is only a problem if one makes an unnecessary assumption consistent with scientific rationalism In the sphere of human action we assume that since action is a physical event it must be reducible to the laws and concepts of science Hence the problematic nature of free will raises its head since the concept of free will is intrinsically contradictory to such a

reductionist outlook This book suggests that the Continental thinkers offer a compelling alternative by concentrating on the phenomena of human action and self determination in order to offer the truth of freedom in different terms Thus Rose offers a revealing investigation into the appropriate concepts and categories of human freedom and action
