## **Economic And Political Change In Tunisia:**

**Economic and Political change in Tunisia** E. Murphy, 1999-03-08 This book examines the processes of economic and political reform in Tunisia placing the current policies of Zine el Abidine Ben Ali within their historical context The book develops a theoretical understanding of the relationship between economic liberalisation and political change in the Arab world developing the concept of the disarticulation of the corporatist state and concluding that despite efforts at democratization an authoritarian political system is a more likely successor in the era of economic transformation

**Economic Crisis and Political Change in North Africa** Azzedine Layachi, 1998-10-28 A collective effort by American and North African scholars this volume provides a comprehensive analysis of recent economic social and political events in North Africa It shows how the Maghrebi states and societies are currently at a very important junction as they try to adjust to different ways of doing things in new regional and international orders Using a political economy approach the book focuses on a series of issues raised by the interaction between economic crisis and reform on the one hand and political change or stagnation on the other The author and his contributors provide a comprehensive and up to date survey of particular value to scholars and researchers of the Arab world in general and North Africa in particular **Tunisia's Economic Development**

Mustapha K. Nabli, Jeffrey B. Nugent, 2022-09-16 This book identifies the differences in growth and development and the various factors lying behind them across both Middle East and North African MENA and East Asian countries over the 1960 2020 period It considers a very wide range of factors compares initial situations institutions and government policies the dynamic responses to changing circumstances and discusses the inability of the governments of the MENA region to achieve not only political reform but also the kinds of economic reform that would allow their citizens to prosper in an increasingly globalized world The book focuses on Tunisia Since its independence in 1956 until 2010 Tunisia had considerable success relative to many other MENA countries but was somewhat less successful relative to East Asian countries Since 2010 however while transitioning away from autocracy to democracy it has been in rather serious economic decline The book highlights how both the factors identified as enabling Tunisia's initial success and those leading to its subsequent decline can provide many useful insights for improving the management of economic development across the whole MENA region and perhaps also to developing countries throughout the world Party and People: a Study of Political Change in Tunisia Lars

Rudebeck, 1969 **A Comparative Political Economy of Tunisia and Morocco** Gregory White, 2001-07-26 This book examines the profound impact of European integration on two North African countries Tunisia and Morocco Confronting the theoretical literatures on the entanglements of the domestic and international realms and the intricate role played by the middle income state in the international arena White provides the first detailed comparison of Tunisia and Morocco's post independence political economies especially in the context of the Euro Mediterranean Partnerships signed with the European Union in the late 1990s North African states must act on the one hand as entrepreneurs seeking to encourage trade and

attract foreign investment within the domestic economy in the process of crafting foreign economic policy with the European Union. On the other hand, such states are constrained by domestic pressures such as imperatives to secure job creation and maintain internal security. Countries on the periphery are therefore faced with two distinct questions: first, how does a middle income state balance its conflicting roles and manage its relations with a regional power; and second, how does the relationship with the outside world affect key domestic actors. Answering these questions is one of the primary challenges facing Tunisia and Morocco in the new decade.

**Political and Socio-Economic Change in the Middle East and North Africa** Roksana Bahramitash, Hadi Salehi Esfahani, 2016-04-29. Political and Socio Economic Change in the Middle East and North Africa examines the shortcomings of the economic development policies in the region before and after the Arab uprisings. Many MENA countries tried to pursue neoliberal policies to boost economic growth. However, the outcome was associated with rising and disproportionate unemployment among the youth and women. The focal point of the book is the role of gender and the ways in which policies translate into economic outcomes. Particular attention is paid to women's entrepreneurship, especially as owners of small and medium enterprises, which, as the authors argue, can potentially reduce unemployment and poverty for the population as a whole. The book offers perspectives on wholesome policies that take account of issues concerning gender and youth and thus contribute to lower unemployment and reduced poverty and inequity.

**Economic and Political Impediments to Middle East Peace** L. Drake, 1999-11-09. The accords and protocols that underlie the Arab and Israeli peace agreements set into place economic policies and political processes so flawed that they are bound to fail. The chapters in this volume look at the diplomatic and historical precedents that have led to this situation and they debate some cynically and some sympathetically the reasons why the institutional structures and trade regimes the process has created are so weak. But for whatever reason, the structural flaws built into the Middle East peace process are not only biased toward the dominant players but against the people who most want peace.

Understanding The Political Economy Of The Arab Uprisings Ishac Diwan, 2014-05-26. For the millions of citizens in the Arab World who came together in 2010-2011 to discover their common yearning for dignity and liberty, the real revolutions only began after the wave of protests. Understanding the Political Economy of the Arab Uprisings reassesses the interests, potential, and constraints of various socio-political players and their importance in the building of a constructive environment for democratic progress in the Middle East. Initiated by the Cairo-based Economic Research Forum and edited by Ishac Diwan, this invaluable volume features contributions by Middle East academics across the world. They examine the reasons behind the uprisings, how democratic transitions transpire, the role of Arab capitalism in the crises, and how the experiences of other countries such as Indonesia, Turkey, and Iran can forecast where these uprisings may lead the Middle East in the years to come.
