Economic Vulnerability In International Relations East West Trade Investment And Finance

George E. Shambaugh

Economic Vulnerability In International Relations East West Trade Investment And Finance:

Economic Vulnerability in International Relations Beverly Crawford,1993 In providing aid to the ailing economies of the former USSR and Eastern Europe many Western governments fear that they may be leaving themselves vulnerable to fierce economic competition in the future This study examines claims that vulnerability existed in Western economic relations with the former Soviet Union and Eastern Europe from 1970 to 1990 and shows how the historical evidence undercuts the vulnerability assumptions that fueled the Reagan administration s foreign policy and were never systematically tested

Economic Vulnerability in International Relations Beverly Crawford,1993-12-23 **Economic Vulnerability in International Relations** **The Politics of International Economic Relations** Jeffrey A. Hart,Joan Edelman Spero,2013-06-17 The first and definitive book of its kind Joan Spero s *The Politics of International Economic Relations* has been fully updated to reflect the sweeping changes in the international arena With the expertise of co author Jeffrey Hart the fifth edition strengthens the coverage of political and economic relations since the end of the Cold War economic polarization in developing nations and the roots of economic decline in centrally planned economies A new chapter on industrial policy and competitiveness debates further illustrates the changing dynamics of International Political Economy Ideal as a supplement to the International Relations course or as the core text in International Political Economy Spero and Hart s *The Politics of International Economic Relations* continues to give students the breadth and depth of scholarship needed to understand the politics of world economy **Trading with the Enemy** Hugo Meijer,2016-03-01 In light of the intertwining logics of military competition and economic interdependence at play in US China relations *Trading with the Enemy* examines how the United States has balanced its potentially conflicting national security and economic interests in its relationship with the People s Republic of China PRC **Deutsche Mark Diplomacy** Randall E. Newnham,2009-03-02 Whether economic sanctions work at all and how they work if they do are questions that have long been debated by scholars of international relations Using a new analytic approach which distinguishes between positive and negative sanctions and between specific and general sanctions this book aims both to demonstrate the importance of economic linkage and to explain the variety of forms it can take *Deutsche Mark Diplomacy* draws support for its theoretical arguments from a careful study of Germany s efforts to gain political leverage over Russia via economic means from 1870 into the 1990s Focusing on two major powers over a long period during which regimes changed and issues varied Randall Newnham finds strong evidence to show that positive forms of linkage such as foreign aid and trade or credit incentives are more effective than negative types such as embargoes His book significantly expands our understanding of the role played by economic sanctions in international politics at the same time that it offers a more systematic way of explaining German foreign policy *Sanctions as Economic Statecraft* S. Chan,A. Drury,2000-07-14 This book approaches economic sanctions as a form of statecraft in order to better study the oft used but not well understood policy The chapters study a variety of historical and current cases involving the use of economic

threats and promises Their authors come from both academic and policy making fields as well as different disciplinary backgrounds political science and economics They apply different research approaches case studies statistical analysis formal economics to increase our understanding of the sanction puzzle

The Geoeconomic Diplomacy of European Sanctions Kim B. Olsen, 2022-08-01 When policy makers opt for sanctions or other economic power instruments in response to geostrategic challenges the stage is set for geoeconomic diplomacy Challenging traditional conceptions about the interplay between governments and markets this book sheds a new light on the diplomatic actors and processes that shape successful geoeconomic foreign and security policy making Unpacking the networked practices through which diplomats advanced the early implementation of the European Union's far reaching sanctions regimes against Russia and Syria the book demonstrates how geoeconomic diplomats depend on their abilities to navigate in complex actor networks in the interfaces between the public private and non governmental realm

States, Firms, and Power George E. Shambaugh, 1999-08-12 Analyses the effectiveness of economic sanctions as instruments of statecraft

Sanctions Beyond Borders Kenneth Aaron Rodman, 2001 Rodman government Colby College examines the use of sanctions from the early Cold War era through the 1990s including the Helms Burton Law and the Iran Libya Sanctions Act He argues that sanctions are weak and costly measures that damage diplomatic relations particularly when used to prevent key multinational corporations from undertaking economically significant transactions with proscribed nations Annotation copyrighted by Book News Inc Portland OR

A Grand Strategy for America Robert J. Art, 2013-02-15 The United States today is the most powerful nation in the world perhaps even stronger than Rome was during its heyday It is likely to remain the world's preeminent power for at least several decades to come What behavior is appropriate for such a powerful state To answer this question Robert J Art concentrates on grand strategy the deployment of military power in both peace and war to support foreign policy goals He first defines America's contemporary national interests and the specific threats they face then identifies seven grand strategies that the United States might contemplate examining each in relation to America's interests The seven are dominion forcibly trying to remake the world in America's own image global collective security attempting to keep the peace everywhere regional collective security confining peacekeeping efforts to Europe cooperative security seeking to reduce the occurrence of war by limiting other states offensive capabilities isolationism withdrawing from all military involvement beyond U S borders containment holding the line against aggressor states and selective engagement choosing to prevent or to become involved only in those conflicts that pose a threat to the country's long term interests Art makes a strong case for selective engagement as the most desirable strategy for contemporary America It is the one that seeks to forestall dangers not simply react to them that is politically viable at home and abroad and that protects all U S interests both essential and desirable Art concludes that selective engagement is not a strategy for all times but it is the best grand strategy for these times

European Union-United States Security Relations A. Bronstone, 1997-09-15 The European Union's evolution to

become a global actor is examined through its relationship with the United States from the Yomkippur war to the Gulf conflict In depth case studies of the 1973 Arab Israeli war martial law in Poland 1981 82 and the Kurdish crisis in Iraq 1991 are shown to support a theoretical critique The dominant realist approach to international relations is unable to adequately explain transatlantic tensions in this period New frameworks are needed to explain the agency structure of internal European and EU US relationships

Handbook of International Relations Walter Carlsnaes, Thomas Risse, Beth A Simmons, 2012-09-18 The original Handbook of International Relations was the first authoritative and comprehensive survey of the field of international relations In this eagerly awaited new edition the Editors have once again drawn together a team of the world's leading scholars of international relations to provide a state of the art review and indispensable guide to the field ensuring its position as the pre eminent volume of its kind The Second Edition has been expanded to 33 chapters and fully revised with new chapters on the following contemporary topics Normative Theory in IR Critical Theories and Poststructuralism Efforts at Theoretical Synthesis in IR Possibilities and Limits International Law and International Relations Transnational Diffusion Norms Ideas and Policies Comparative Regionalism Nationalism and Ethnicity Geopolitics in the 21st Century Terrorism and International Relations Religion and International Politics International Migration A truly international undertaking this Handbook reviews the many historical philosophical analytical and normative roots to the discipline and covers the key contemporary topics of research and debate today The Handbook of International Relations remains an essential benchmark publication for all advanced undergraduates graduate students and academics in politics and international relations

Victimhood and Vulnerability in 21st Century Fiction Jean-Michel Ganteau, Susana Onega, 2017-04-21 New Visibilities Victimhood and Other Forms of Vulnerability in 21st century Fiction eds Jean Michel Ganteau and Susana Onega addresses the relationship between trauma and ethics and moves one step further to engage with vulnerability studies in their relation to literature and literary form It consists of an introduction and of twelve articles written by specialists from various European countries and includes an interview with US novelist Jayne Anne Philips conducted by her translator into French Marc Amfreville addressing her latest novel Quiet Dell through the victimhood vulnerability prism The corpus of primary sources on which the volume is based draws on various literary backgrounds in English from Britain to India through the USA All contributions are original

The Art of Economic Persuasion Patricia A. Davis, 2010-08-04 Much has been written about a state's use of the threat of military force or economic sanctions to change the behavior of another state Less is known about the use of positive measures such as economic assistance and investment as a means of influence This study looks at the ways in which government officials use economic instruments for foreign policy gains More specifically it examines the means by which a government can enhance its efforts at economic persuasion by inducing domestic business trade and investing in the target nation The author demonstrates the domestic conditions under which the state can use commercial economic incentives to achieve foreign policy goals especially where

these incentives are meant to induce cooperative behavior from another state Using the process of German Polish reconciliation in the 1970s and 1980s as a case study *The Art of Economic Persuasion* argues that complex institutional links between the German government and the German business community enabled the government to encourage commercial relations with Poland which supported the government's policies With singular access to archives of business associations in Germany as well as numerous interviews with German and Polish officials the author carefully retraces German foreign policy towards Poland in the 1970s and 1980s *The Art of Economic Persuasion* is a theoretical addition to the literature on international political economy and international relations It will be of interest to specialists in international relations foreign policy and international political economy as well as economists political scientists and historians of Germany Poland the United States and Cold War relations Patricia Davis is Assistant Professor of Government and International Studies University of Notre Dame

The American Bibliography of Slavic and East European Studies for 1994 Patt Leonard, Rebecca Routh, 1997-05-31 This text provides a source of citations to North American scholarships relating specifically to the area of Eastern Europe and the former Soviet Union It indexes fields of scholarship such as the humanities arts technology and life sciences and all kinds of scholarship such as PhDs

The International Dimensions of Internal Conflict Michael Edward Brown, 1996 Internal conflicts threaten many countries and regions globally The first part of this book examines the sources of internal conflicts and the ways these may affect neighbouring states and the international community The second part covers specific problems policy instruments and key actors

The Global 1980s Jonathan Davis, 2019-03-28 *The Global 1980s* takes an international perspective on the upheaval across the world during the long 1980s 1979 1991 with the end of the Cold War a move towards a free market economic system and the increasing connectedness of the world The 1980s was a decade of unimaginable change At its start dictatorships across the world appeared stable the state was still seen as having a role to play in ensuring people's well being and the Cold War seemed set to continue long into the future By the end of the decade dictatorships had fallen globalisation was on the march and the opening of the Berlin Wall paved the way for the end of the Cold War Divided into four chronological parts sixteen chapters on themes including domestic politics the global spread of democracy international relations and global concerns including AIDS acid rain and nuclear war explore how world wide change was initiated both from above and below The book covers such topics as ideological changes in the liberal democratic west and socialist east protests against nuclear weapons and for democratic governance global environmental worries and the end of apartheid in South Africa Offering an overview of a decade in transition as the global order established after 1945 broke down and a new globalised world order emerged and supported by case studies from across the world this truly global book is an essential resource for students and scholars of the long 1980s and the twentieth century more generally

Dilemmas of Transition in Post-Soviet Countries Joel C. Moses, 2003 Exploring the tensions inherent in transition this perceptive book offers a wide ranging overview of the impact of

democracy and capitalism on the former Soviet republics Leading scholars assess the region's daunting problems in the key realms of privatization democratization foreign investment agrarian reform local governance and market economics The contributors argue that the central dilemma facing all these fledgling countries is the inherent contradiction between the immediate pursuit of privatization and foreign investment and the long term policy goal of democratization Offering both theoretical and comparative perspectives on the far reaching implications of nation building and democratic transition this valuable study will enable both students and scholars to comprehend the unique difficulties of transition

Well-Oiled Diplomacy Adam N. Stulberg, As a window into understanding the relationship between globalization and the pursuit of national security Adam N Stulberg examines Russia's mixed success at leveraging energy advantages in Eurasia from 1992 to 2002 Stulberg supplements traditional analyses of statecraft by highlighting indirect market and regulatory mechanisms for altering the behavior of foreign and subnational actors as well as by demonstrating the usability of soft power and global networks The power of this new theory of strategic manipulation is illustrated in several case studies including Russia's successful natural gas diplomacy toward Turkmenistan and Kazakhstan Russia's troubled oil diplomacy toward Azerbaijan and Kazakhstan and Russia's mixed success with commercial nuclear diplomacy toward Kyrgyzstan and Kazakhstan

The East Asian Computer Chip War Ming-chin Monique Chu, 2013-12-04 The semiconductor industry is a vital industry for military establishments worldwide and the control of or loss of control of this key industry has enormous strategic implications This book focuses on the globalization of the strategic semiconductor industry and the security ramifications of this process It examines in particular the migration of the Taiwanese chip industry to China as part of the globalization of production processes and the extent to which such a globalization process poses security challenges to the United States China and Taiwan Transcending disciplinary boundaries between international political economy security studies and the history of science and technology this multidisciplinary work provides an in depth understanding of the globalization security nexus and disentangles the key policy issues connected to a potential explosive flashpoint in world politics today
