## **Economics Restructuring And Local Environmental Management In The Czec:**

Economic Restructuring and Local Environmental Management in the Czech Republic Petr Pavlínek,1997

*Encyclopedia of Bohemian and Czech-American Biography* Miloslav Rechcigl Jr.,2016-11-10 As the Czech ambassador to the United States H E Petr Gandalovic noted in his foreword to this book that Mla Rechcigl has written a monumental work representing a culmination of his life achievement as a historian of Czech America The Encyclopedia of Bohemian and Czech American Biography is a unique and unparalleled publication The enormity of this undertaking is reflected in the fact that it covers a universe starting a few decades after the discovery of the New World through the escapades and significant contributions of Bohemian Jesuits and Moravian brethren in the seventeenth and eighteenth centuries the mass migration of the Czechs after the revolutionary year of 1848 and up to the early years of the twentieth century and the influx of refugees from Nazism and communism The encyclopedia has been planned as a representative a comprehensive and authoritative reference tool encompassing over 7 500 biographies This prodigious and unparalleled encyclopedic vade mecum reflecting enduring contributions of notable Americans with Czech roots is not only an invaluable tool for all researchers and students of Czech American history but is also a carte blanche for the Czech Republic which considers Czech Americans as their own and as a part of its magnificent cultural history

*Environmental Transitions* Petr Pavlínek,John Pickles,2002-09-26

*Environmental Transitions* is a detailed and comprehensive account of the environmental changes in Central and Eastern Europe both under state socialism and during the period of transition to capitalism The change in politics in the late 1980s and early 1990s allowed an opportunity for a rapid environmental clean up in an area once considered one of the most environmentally devastated regions on earth The book illustrates how transformations after 1989 have brought major environmental improvements as well as new environmental problems It shows how environmental policy economic change and popular support for environmental movements have specific and changing geographies associated with them *Environmental Transitions* addresses a large number of topics including the historical geographical analysis of the environmental change health impacts of environmental degradation the role of environmental issues during the anti communist revolutions legislative reform and the effects of transition on environmental quality after 1989 *Environmental Transitions* contains detailed case studies from the region which illustrate the complexity of environmental issues and their intimate relationship with political and economic realities It gives theoretically informed ideas for understanding environmental change in the context of the political economy of state socialism and post communist transformations drawing on a wide body of literature from West Central and Eastern Europe

Re-Constructing the Post-Soviet Industrial Region Adam Swain,2007-04-11 This book examines the political economy of attempts to restructure the Donbass one of the Soviet Union s most important old economy rustbelt industrial regions It shows how local interest groups have successfully frustrated the central government s and the World Bank s proposed market oriented restructuring and how a manufacturing

based regional economy is surviving partially with restructuring postponed

**Environmental Problems in East-Central Europe** Frank Carter, David Turnock, 2002-09-26 In this new edition the progress made in the last decade to solve the environmental problems described in the first edition is assessed The attempts to bring environmental legislation into line with West European norms is also described Environmental Problems of East Central Europe looks at air and water pollution modern farming water supplies waste management and landscape protection These topics are placed within economic social and political profiles as spending on a clean environment must be reconciled with welfare spending and the safeguarding of jobs European Union assistance civil society and the work of environmental NGOs are also discussed All of these matters are considered within the context of the wider geographical area and then by each individual country including the previously communist states lying to the west of the Soviet Union now with the former federal states of Czechoslovakia and Yugoslavia broken up into seven different entities and a review of the former Soviet Union with particular reference to the Baltic States Environmental Problems in East Central Europe provides a wealth of up to date reference material with a vast amount of supporting literature on environmental conditions and the functioning of civil society and a map of each country The environment is being taken seriously by them all such is the influence of the Rio sustainability agenda in general and the EU environmental acquis in particular The book reveals that Eastern Europe is not a blighted area but in some respects has a higher biodiversity than Western Europe Although there is enormous waste and inefficiency in energy use people actually consume relatively little and the East therefore has some lessons for the West in terms of managing on the bases of fair share of the earth s resources

**Theorizing Transition** John Pickles, Adrian Smith, 2005-08-31 Examining transformations using a variety of perspectives Theorizing Transition provides both a rich empirical map of the dimensions of post Communism and raises important theoretical issues about how we interpret these changes

Environmental Sociology Leslie King, Deborah McCarthy Auriffeille, 2019-02-18 Environmental Sociology From Analysis to Action illustrates how sociological perspectives can help us better understand the causes and consequences of environmental problems and provides examples of efforts to ameliorate these problems The fourth edition of this environmental sociology reader includes 22 edited excerpts 10 of them new to this edition that address among other things environmental inequalities knowledge creation media and perspectives on disaster The selected pieces use a variety of sociological perspectives including environmental justice power structure research ecological modernization ecological footprint and more to examine a wide range of environment related topics New Readings Include Chapter 7 The Du Bois Nexus Intersectionality Political Economy and Environmental Injustice in the Peruvian Guano Trade in the 1800s Brett Clark Daniel Auerbach and Karen Xuan Zhang Chapter 8 Ruin s Progeny Race Environment and Appalachia s Coal Camp Blacks Karia L Brown Michael W Murphy and Appollonya M Porcelli Chapter 9 Environmental Apartheid Eco health and Rural Marginalization in South Africa Valerie Stull Michael M Bell and Mpumelelo Ncwadi Chapter 12 Legitimizing the Environmental Injustices of War Toxic Exposures and Media Silence in Iraq and

Afghanistan Eric Bonds Chapter 15 Left to Chance Hurricane Katrina and the Story of Two New Orleans Neighborhoods  
 Stever Kroll Smith Vern Baxter and Pam Jenkins Chapter 17 Environmental Threats and Political Opportunities Citizen  
 Activism in the North Bohemian Coal Basin Thomas E Shriver Alison E Adams and Stefano B Longo Chapter 19 Ontologies of  
 Sustainability in Ecovillage Culture Integrating Ecology Economics Community and Consciousness Karen Liftin Chapter 20  
 Plans for pavement or for people The Politics of Bike Lanes on the Paseo Boricua in Chicago Illinois Amy Lubitow Bryan  
 Zinschlag and Nathan Rochester Chapter 21 Campus Alternative Food Projects and Food Service Realities Alternative  
 Strategies Peggy F Barlett Chapter 22 From the New Ecological Paradigm to Total Liberation The Emergence of a Social  
 Movement Frame David N Pellow and Hollie Nyseth Brehm      *Historical Dictionary of the Czech State* Rick Fawn, Jiri  
 Hochman, 2010 Czechoslovakia has been at the center of some of the most difficult and tragic episodes of modern European  
 history its sacrifice to Nazi Germany at Munich the Communist Coup of 1948 and the military crushing of the Prague Spring  
 It has also enacted momentous change almost magically as in the peaceful overthrow of communism in 1989 and then the  
 negotiated end to the country in 1992 Czechoslovak history has consequently produced enduring political metaphors for our  
 times such as the Velvet Revolution and Velvet Divorce The second edition of the *Historical Dictionary of the Czech State* has  
 been thoroughly updated and greatly expanded Featuring a chronology introductory essay appendix bibliography and  
 hundreds of cross referenced dictionary entries this detailed authoritative reference provides understandings of the Czechs  
 as a people the territory they inhabit their social cultural political and economic developments throughout history and  
 interactions with their neighbors and the wider world      American Learned Men and Women with Czechoslovak Roots Mila  
 Rechcigl, 2020-11-18 Apart from a few articles no comprehensive study has been written about the learned men and women  
 in America with Czechoslovak roots That's what this compendium is all about with the focus on immigration from the period  
 of mass migration and beyond irrespective whether they were born in their European ancestral homes or whether they have  
 descended from them Czech and Slovak immigrants including Bohemian Jews have brought to the New World their talents  
 their ingenuity their technical skills their scientific knowhow and their humanistic and spiritual upbringing reflecting upon  
 the richness of their culture and traditions developed throughout centuries in their ancestral home This accounts for the  
 remarkable success and achievements of these settlers in their new home transcending through their descendants as this  
 monograph demonstrates The monograph has been organized into sections by subject areas i.e. Scholars Social Scientists  
 Biological Scientists and Physical Scientists Each individual entry is usually accompanied with literature and additional  
 biographical sources for readers who wish to pursue a deeper study The selection of individuals has been strictly based on  
 geographical ground without regards to their native language or ethnic background This was because under the Habsburg  
 rule the official language was German and any nationalistic aspirations were not tolerated Consequently it would be virtually  
 impossible to determine their innate ethnic roots or how the respective individuals felt Doing it in any other way would be a

mere guessing and thus less objective

**Foreign Direct Investment and Regional Development in East Central Europe and the Former Soviet Union** David Turnock, 2017-11-28 With the achievement of further EU and NATO enlargement a critical political and economic lens is now focused on East Central Europe and to a lesser extent the other former communist states Economic growth in each transition state and more broadly the region pivots around the prospects for foreign direct investment FDI with decisions on where foreign investors will locate their projects now vitally important This book the first one devoted to a geographical survey concentrating specifically on FDI in the region brings together a wide range of prominent authors from the US and Europe including the late Frank Carter to provide a timely and critical examination of the importance of foreign investment It presents a detailed analysis of location patterns and their significance for regional development with particular emphasis given to the important socioeconomic and political consequences of uneven distribution of FDI across the region and its constituent countries Divided into two parts the book first deals with general overarching themes and issues before applying these to more specific country case studies The second part deals with regional studies focusing broadly on the Western Balkans and Bulgaria before looking at specific economic sectors in individual countries

Regional Diversity and Local Development in the New Member States P. Blokker, B. Dallago, 2009-09-16 This book analyzes regional and local models of development in the context of existing socio economic disparities and the impact of EU enlargement and European policy offering a comparative and in depth analysis of the distinct nature of regional differences within Central and Eastern Europe

**Proximity, Distance and Diversity** Päivi Oinas, 2017-09-29 Bringing together a wide range of empirical studies from around the world Sweden Norway Austria Germany France UK Israel Russia China Taiwan Argentina Canada framed in related contemporary theoretical frameworks this book examines the question of the significance of proximate vs more distant relationships for economic agents performance and local economic development While this question has been the subject of intense debates in recent years it is obvious that proximity and distance are not explanatory factors as such The book argues for the need to understand the aims of economic relationships the nature of the regional environment in which they originate and the scale at which they operate The book suggests that the notions of diversity innovativeness maturity and multiple scales should be incorporated into the debates on the significance of proximity for economic performance

Local Environmental Regulation in Post-Socialism: A Hungarian Case Study Chris G. Pickvance, 2024-11-01 This title was first published in 2003 This text

examines Hungarian local environmental regulation in practice rather than what should happen according to national legislation The book is based on interviews with officials regulators firm managers and environmental groups in four localities in Hungary and on a national survey of local government officials Numerous quotations from interviews are included It is shown that the local social and economic context influences the behaviour of both local governments and regional environmental inspectorates Firms responsiveness to regulation is studied and it is shown that while some firms are ready to pay moderate environmental fines others are afraid of even symbolic fines The findings are set within debates in the international literature on environmental regulation It is shown that there are convergences with patterns reported in developed capitalist societies but that certain legacies from state socialism are compatible with these patterns

Entrepreneurship and Economic Transition in Central Europe Jean-Paul Larçon, 2012-12-06 Since the fall of the Berlin Wall in 1989 Central European economies have been moving rapidly toward a common set of goals political democracy market oriented economies and integration into the European and international business community For businesses Central Europe offers a unique window of opportunity and in particular two comparative advantages a low cost qualified workforce and stronger growth rates than mature Western European economies This opportunity seized by local entrepreneurs and foreign enterprises alike is a significant competitive threat to companies not present in the region or who have not found alternative strategies for increased growth and competitiveness This book addresses economic transitions in Central Europe and analyzes the problems of Central European integration in the European Union
