Economics John S. Morton,Rae Jean B. Goodman,2003 *Economics, Ethics and Religion* R. Wilson,1997-02-24 There is a revival of interest by economists in ethical issues and beliefs and by moral philosophers and theologians in economics This book is intended to make a contribution to this cross fertilisation of ideas Rodney Wilson has undertaken an extensive survey of Jewish Christian and Muslim views on economics and reviewed the rapidly expanding business ethics literature from a religious perspective The juxtaposition of the work of theologians and moral philosophers with that of economists results in some interesting comparisons **Economics for Environmental Studies** Alfred Endres,Volker Radke,2018-06-08 This

The Reciprocal Modular Brain in Economics and Politics Gerald A. Cory Jr., 2012-12-06 The present work is an extension of my doctoral thesis done at Stanford in the early 1970s In one clear sense it responds to the call for consilience by Edward O Wilson I agree with Wilson that there is a pressing need in the sciences today for the unification of the social with the natural sciences I consider the present work to proceed from the perspective of behavioral ecology specifically a subfield which I choose to call interpersonal behavioral ecology Ecology as a general field has emerged in the last quarter of the 20th century as a major theme of concern as we have become increasingly aware that we must preserve the planet whose limited resources we share with all other earthly creatures Interpersonal behavioral ecology however focuses not on the physical environment but upon our social environment It concerns our interpersonal behavioral interactions at all levels from simple dyadic one to one personal interactions to our larger even global social economic and political interactions Interpersonal behavioral ecology as I see it then is concerned with our behavior toward each other from the most obvious behaviors of war between nations to excessive competition exploitation crime abuse and even to the ways in which we interact with each other as individuals in the family in our social lives in the workplace and in the marketplace
