Economic Development Of Burma A Vision And A Strategy:

Economic Development of Burma, 1997 *Economic Development of Burma* Khan' Mon' Kraññ' (Ü"), 2000 Bringing together their own intimate knowledge of the country's problems and the possibilities that lie ahead scholars attempt to analyze the main factors that have stood in the way of Burma's participation in the worldwide surge of economic growth in the second half of the twentieth century and to devise ways in which the country can overcome these obstacles in the future

Economic Development of Burma Khin Maung Kyi, Ronald Findlay, R. M. Sundrum, 2000-05 **Economic Development of Myanmar** Myat Thein, 2004 There are a number of excellent studies by eminent Myanmar economists as well as scholars from abroad covering different post war periods and or various aspects of development in Myanmar What this book does is to bring them altogether as it were under one roof by recasting bits and pieces of their work according to the author's own understanding In doing so a holistic approach was adopted in order to have a well rounded account of developments over the past fifty years or more In addition an attempt has also been made to present the major developments at different periods of time between 1948 and 2000 in a simple but not over simplified reader friendly format so as to reach as wide an audience as possible It is the author's ardent wish that not only students and policy makers but Myanmar people in all walks of life will read the book discuss it and work together for a better future **Burma's Economy in the Twentieth Century** Ian

abundant resources of the Greater Mekong Subregion GMS including a large motivated and cheap workforce a rich agricultural base extensive timber and fisheries resources considerable potential mineral resources and vast energy resources have seen the subregion increasingly recognized as a new frontier of Southeast Asian economic strength This book aims to assess the recent economic social and political developments in the GMS and identify emerging opportunities and challenges facing the successful transition towards a market driven economy The countries of the GMS are at a critical juncture where subregional efforts and cooperation must be made to fully address the rapidly evolving issues that are vital to appropriate policy formation yet which remain widely debatable The deliberations here shed light on the development stages and offer policy recommendations for pushing forward subregional cooperation **British Economic Development in**

South East Asia, 1880-1939, Volume 1 David Sunderland, 2017-07-05 This collection focuses on the economic development of the areas of SE Asia with which Britain had a trading relationship Covering 1880 1939 the economic growth

This historical note seeks to provide some markers for economists and policymakers interested in Myanmar's woeful experience over seven decades when it fell from being one of the most prosperous and promising countries in East Asia at the end of World War II to one of the poorest now The most encouraging period of economic progress after Burma's independence in 1948 was the decade of quasi democratic governance under the Thein Sein administration from 2011 to 2016 and the National League for Democracy NLD administration led by Aung San Suu Kyi from 2016 to 2021 On 1 February 2021 a military coup plunged the country back into another chaotic period of civil strife and economic suffering with no end in sight For people interested in Myanmar's future it is important to examine the foundations for the economic policy reforms that sparked Myanmar's joyful economic rise beginning in 2011 assess these reforms as they were carried out during the two administrations and consider how they may have contributed to the coup in 2021 This note begins by focusing on the period from 2003 to 2011 when a Third Force was active mediating between the country's military rulers and the democratic opposition growing out of the 1988 uprising that gained international support through the leadership of Aung San Suu Kyi and her party the NLD In this period the roles of Myanmar Egress and the visit of Nobel laureate economist Joseph Stiglitz are given special attention The note goes on to describe somewhat superficially the economic reforms implemented by the Thein Sein administration that arguably contributed crucially to the reforms subsequently implemented during the NLD administration These reforms in the five years leading up to the 2021 coup have been thoroughly described by Sean Turnell economic advisor to Aung San Suu Kyi as head of the NLD administration in his monograph Best Laid Plans The note finishes

with a short set of thoughts about lessons to be drawn and questions to be explored

Civilizing the Margins Christopher R. Duncan, 2004 Southeast Asian nations have devised a range of development programs that strive to incorporate minority ethnic groups into the nation state The authors of Civilizing the Margins discuss the programs policies and laws that affect ethnic minorities in eight countries Burma Cambodia Indonesia Laos Malaysia the Philippines Thailand and Viet Nam Once targeted for intervention people such as the Orang Asli of Malaysia and the hill tribes of Thailand often become the subject of programs aimed at radically changing their lifestyles which the government views as backward or primitive Several chapters highlight the tragic consequences of forced resettlement a common result of these programs Others question the motives behind pushing minorities into development schemes Rather than simply describing the effects of the programs and the experiences of participants the contributors to this book attempt to understand the ideologies and strategies that led to the implementation of these programs

Routledge Handbook of Contemporary Myanmar Adam Simpson, Nicholas Farrelly, Ian Holliday, 2018-03-05 After decades of mismanagement and direct military rule Myanmar's contested transition to a more democratic government has rapidly shifted the outlook in this significant Southeast Asian nation Since 2011 the removal of Western sanctions and new foreign investments have resulted in high rates of economic growth and an expanding middle class albeit from a very low base In a result unthinkable a few years earlier former political prisoner and Nobel laureate Aung San Suu Kyi and her party the National League for Democracy NLD formed a national government in early 2016 However despite significant political and economic reforms since the liberalisation process commenced the transition to civilian rule remains constrained by the military's 2008 Constitution which guarantees that it operates unfettered by civilian oversight As a result although some ethnic conflicts have abated others continue to fester and new conflicts have erupted With a daunting task ahead the NLD government has made some progress in removing the vestiges of repressive military era laws but many

remain untouched and some of the practices of the new government provide unwelcome reminders of its authoritarian history This timely Handbook describes the political economic and cultural dimensions of this crucial period of transition in Myanmar It presents explanations for contradictory trends including those that defy some of the early narratives about the comprehensive transformation of Myanmar The Handbook also considers the impact of major environmental strategic and demographic trends which help underscore that Myanmar s development will be an ongoing task In addition to introductory and concluding chapters by the editors the body of the Handbook is divided into seven core sections Fundamentals Spaces Cultures Living Governance International Challenges Written by an international team of scholars with a mix of world leading established academics and talented emerging researchers the Handbook provides a rigorous scholarly overview of Myanmar s politics economics and society As Myanmar opens to Western businesses and government agencies this is an invaluable reference book that will provide a foundation for further research and offer the first port of call for scholars students and policy makers working on Myanmar and Asia

State Dominance in Myanmar Tin Maung Maung Than, 2007 Focuses on the state s efforts to industrialize Myanmar first through direct intervention and planning under a socialist economic framework as interpreted by the state leaders 1948-88 and lately 1989 onwards through state managed outward orientation

On the Shadow Tracks Clare Hammond, 2024-06-06 On the Shadow Tracks harnesses the railway lines of Myanmar s complicated past to its turbulent present and the result is part travelogue part history and completely absorbing An astonishing achievement Joanna Lumley In 2016 while working as a journalist in Yangon Clare Hammond discovered an obscure map that showed a web of new railways spanning the length and breadth of the country railways not shown on any other publicly available maps She was determined to uncover the railways origins purpose and most of all the silence that surrounded them She would spend three months travelling on these mysterious railways and the next five years piecing their story together Her journey would take her from Myanmar s tropical south to the embattled mountain towns that border India and China In dilapidated carriages along tracks in disrepair through contested ethnic states and former sites of forced labour visiting temples tea shops and festivals Clare encountered a colourful and

contradictory Myanmar through the stories of its people Simultaneously a lush and evocative travelogue an unsparing account of Myanmar s recent history and an astonishing conversation shifting engagement with Britain s colonial legacy On the Shadow Tracks is that rare and necessary thing a book that finds and tells the truth
