**The Expression of Attitude** J. Richard Eiser, 2012-12-06 The Expression of Attitude deals with a number of broad but interrelated questions what are attitudes how do they relate to behavior how are they acquired and in what ways can they be shared The author argues that consistency within attitude structure and between attitudes and behavior arises primarily from interpersonal rather than intrapersonal processes Emphasis is placed on how people interpret behavior as an expression of attitude and what they demand of such behavior before they treat it as decodable in a particular way

**Handbook of Entrepreneurship Research** Zoltan J. Acs, David B.

Audretsch, 2010-08-03 Interest in and attention to entrepreneurship has exploded in recent years. Nevertheless, much of the research and scholarship in entrepreneurship has remained elusive to academics, policymakers, and other researchers in large part because the field is informed by a broad spectrum of disciplines including management, finance, economics, policy, sociology, and psychology, often pursued in isolation from each other. Since its original publication in 2003, the Handbook of Entrepreneurship Research has served as the definitive resource in the field, bringing together contributions from leading scholars in these disciplines to present a holistic, multi-dimensional approach. This new edition, fully revised and updated and including several new chapters, covers all of the primary topics in entrepreneurship, including entrepreneurial behavior, risk and opportunity recognition, equity financing, business culture and strategy, innovation, and the impact of entrepreneurship on economic growth and development. Featuring an integrative introduction, extensive literature reviews, and reference lists, the Handbook will continue to serve as a roadmap to the rapidly evolving and dynamic field of entrepreneurship.
