Senior Research Fellow in the Faculty of Environmental Studies at Edinburgh College of Art Edinburgh UK He is a forester and landscape architect and has been responsible for design advice and training in landscape design for the forestry industry around the world BOOK JACKET **The Landscape of Solitude** Hua Zhang, 2003 **Representing Place**

Edward S. Casey, 2002-01-01 You are here a map declares but of course you are not any more than you truly occupy the vantage point into which a landscape painting puts you How maps and paintings figure and reconfigure space as well as our place in it is the subject of Edward S Casey's study an exploration of how we portray the world and its many places Casey's discussion ranges widely from Northern Song landscape painting to nineteenth century American and British landscape painting and photography from prehistoric petroglyphs and medieval portolan charts to seventeenth century Dutch cartography and land survey maps of the American frontier From these culturally and historically diverse forays a theory of representation emerges Casey proposes that the representation of place in visual works be judged in terms not of resemblance but of reconnecting with an earth and world that are not the mere content of mind or language a reconnection that calls for the embodiment and emplacement of the human subject Book jacket **Painting the Woods** Deborah

Paris, 2020 When first time author and artist Deborah Paris stepped into Lennox Woods an old growth southern hardwood

forest in the Pineywoods of northeast Texas she felt a disruption that was both spatial and temporal Walking the remnants of an old wagon trail past ancient stands of pine white oak elm hickory sweetgum maple hornbeam and red oak she felt drawn into a reverie that took her back to the beginning both physically and metaphorically Paris soon came to realize that Lennox Woods was actually more like a time machine one that could go both backward and forward granting glimpses of the past present and future while offering a fresh vision of the landscape Painting the Woods Nature Memory and Metaphor explores the experience of landscape through the lens of art and art making It is a place based meditation on nature art memory and time grounded in Paris s experiences over the course of a year in Lennox Woods Her account unfolds through the twin arcs of the changing seasons and her creative process as a landscape painter In the tradition of Annie Dillard s Pilgrim at Tinker Creek narrative passages interweave with observations about the natural history of Lennox Woods its flora and fauna art history the science of memory Transcendentalist philosophy the role of metaphor in creative work and even loop quantum gravity theory Each chapter explores a different aspect of the forest and a different step in the art making process illuminating our connection to the natural world through language comprehension of time and visual depictions of the landscape The complex layers of the forest and Paris s journey through it emerge as metaphors for the larger themes of the book just as the natural world underpins the art making drawn from it Like the trail that winds through Lennox Woods memory and time intertwine to provide a path for understanding nature art and our relationship to both and as a means to explore larger questions and themes

**LandSCAPES** Alexandra Bubb, 2013 The visual representation between a person and land is similar to the phrase to whom it may concern Each landSCAPE communicates differently to each person The landSCAPES exhibit aims to decode the visual language of how traditional and contemporary landSCAPES speak Line and shape space and color are the universal artistic elements that art uses to communicate the unique representation of a subject The exhibit discusses these elements in the order one learns how to create artworks line shape space and color The exhibit consists of four sections three of which discuss and decode each of the elements A forth section allows the visitor to use what they have learned about the universal artistic elements to make their own interpretations of traditional and contemporary landSCAPES
