## Extracts From The Enneads:

Extracts from the Enneads Plotinus, 2005-12-01 This scarce antiquarian book is a facsimile reprint of the original. Due to its age, it may contain imperfections such as marks, notations, marginalia, and flawed pages. Psychic and physical treatises; comprising the second and third Enneads* Plotinus, 1950 *The Ethical Treatises* Plotinus, 1926 Catalogus Translationum Et Commentariorum Virginia Brown, Paul Oskar Kristeller, Ferdinand Edward Cranz, 1992 At head of title Union academique internationale **The Library of Philosophical Translations. Plotinus: The ethical treatises with Porphyry's Life of Plotinus, and the Preller-Ritter Extracts forming a conspectus of the Plotinian system** Plotinus, 1917 Plotinus the Platonist David J. Yount, 2014-10-23 In this insightful new book, David J. Yount argues against received wisdom that there are no essential differences between the metaphysics of Plato and Plotinus. Yount covers the core principles of Plotinian thought: The One or Good, Intellect and All Soul, the Three Hypostases, Beauty, God's Forms, Emanation, Matter, and Evil. After addressing the interpretive issues that surround the authenticity of Plato's works, Plotinus, The Platonist, deftly argues against the commonly held view that Plotinus is best interpreted as a Neo-Platonist, proposing he should be thought of as a Platonist proper. Yount presents thorough explanations and quotations from the works of each classical philosopher to demonstrate his thesis, concluding comprehensively that Plato and Plotinus do not essentially differ on their metaphysical conceptions. This is an ideal text for Plato and Plotinus scholars and academics and excellent supplementary reading for upper-level undergraduates, students, and postgraduate students of ancient philosophy. Plato and Plotinus on Mysticism, Epistemology, and Ethics David J. Yount, 2017-02-23 This book argues against the common view that there are no essential differences between Plato and the Neoplatonist philosopher Plotinus on the issues of mysticism, epistemology, and ethics. Beginning by examining the ways in which Plato and Plotinus claim that it is possible to have an ultimate experience that answers the most significant philosophical questions, David J. Yount provides an extended analysis of why we should interpret both philosophers as mystics. The book then moves on to demonstrate that both philosophers share a belief in non-discursive knowledge and the methods to attain it, including dialectic and recollection, and shows that they do not essentially differ on any significant views on ethics. Making extensive use of primary and secondary sources, Plato and Plotinus on Mysticism, Epistemology, and Ethics shows the similarities between the thought of these two philosophers on a variety of philosophical questions such as meditation, divination, wisdom, knowledge, truth, happiness, and love. College of Psychic Science British College of Psychic Science,1928      The Philosophy of the Few against the Christians Pier Franco Beatrice,2023-11-13 This book gives us a new perspective on the Philosophy according to the Chaldean Oracles by Porphyry of Tyre ca 232 305 CE demonstrating that much of what we thought we knew about this work and its fragments is mistaken Here for the first time the attempt is made at reconstructing the original text by following the vicissitudes of its reception and transmission from Late Antiquity through the Middle Ages and the Renaissance up to modern scholarship The extensive and painstaking study of the surviving fragments leads to the radically innovative conclusion that this encyclopedic treatise written by Porphyry in the last decades of the 3rd century CE consisted of fifteen books organized in various sections After an initial discussion of the nature of theurgy and of its subordinate role with respect to philosophy Porphyry describes the entire history of Greek philosophy from Homer up to his own teacher Plotinus to then go on to present introductions to the seven encyclical disciplines whose study is required for the comprehension of theosophy that is the esoteric speculation on the three parts of philosophy anthropology ethics physics and metaphysics theology By harmonizing the teachings of Plato Aristotle Plotinus and the Chaldean Oracles Porphyry intends to present the complete and definitive philosophic system with the aim of showing the universal way for the liberation of the souls of initiates and of contextually fighting the final battle of the Greco Roman civilization against Christianity      *Ancient Philosophy of Religion* Graham Oppy,N. N. Trakakis,2014-09-12 The origins of the Western philosophical tradition lie in the ancient Greco Roman world This volume provides a unique insight into the life and writings of a diverse group of philosophers in antiquity and presents the latest thinking on their views on God the gods religious belief and practice Beginning with the pre Socratics the volume then explores the influential contributions made to the Western philosophy of religion by the three towering figures of Socrates Plato and Aristotle The chapters that follow cover the the leading philosophers of the major schools of the ancient world Epicureanism Stoicism Neoplatonism and the early Christian Church *Ancient Philosophy of Religion* will be of interest to scholars and students of Philosophy Classics and Religion while remaining accessible to any interested in the rich cultural heritage of ancient religious thought      **The Shadow of Eternity** Sharon C. Seelig,2021-12-14 The poetry of Herbert Vaughan and Traherne represents an attempt to shape their lives and verse around the fact of divine presence and influence writes Sharon Seelig The relationship between belief and expression in these three metaphysical poets is the subject of this deeply perceptive study Each of these poets held to some extent the notion of dual reality of the world as indicative of a higher reality but their responses to this tradition vary greatly from the ongoing struggle between God and the poet of *The Temple* which finally transforms the materials of everyday life and worship to the more difficult unity of *Silex Scintillans* with its tension between illumination and resignation to the ecstatic proclamations of Thomas Traherne whose sense of divine reality at first seems so strong as to destroy the characteristic metaphysical tension between this world and the next Seelig s study proceeds from individual poems to the whole work exploring the relation of cosmology and religious experience to poetic form

wisdom of this counter tradition can strengthen the study of mysticism not only by supplementing our contemporary fascination with negative theology by redefining what it means to name God positively but by suggesting a new connection between Christian mysticism and the hyper measured hyper technologized world that surrounds us     *Theological Treatises on the Trinity (The Fathers of the Church, Volume 69)* Marius Victorinus, 2010-04 No description available
