Forbidden Passages Karoline P. Cook, 2016-05-30 *Forbidden Passages* is the first book to document and evaluate the impact of Moriscos Christian converts from Islam in the early modern Americas and how their presence challenged notions of what it meant to be Spanish as the Atlantic empire expanded

The Cuba Reader Aviva Chomsky, Barry Carr, Alfredo Prieto, Pamela Maria Smorkaloff, 2019-05-17 Tracking Cuban history from 1492 to the present *The Cuba Reader* includes more than one hundred selections that present myriad perspectives on Cuba's history, culture, and politics. The volume foregrounds the experience of Cubans from all walks of life, including slaves, prostitutes, doctors, activists, and historians. Combining songs, poetry, fiction, journalism, political speeches, and many other types of documents, this revised and updated second edition of *The Cuba Reader* contains over twenty new selections that explore the changes and continuities in Cuba since Fidel Castro stepped down from power in 2006. For students, travelers, and all those who want to know more about the island nation just ninety miles south of Florida, *The Cuba Reader* is an invaluable introduction.

A Historical Geography of Christopher Columbus's First Voyage and his Interactions with Indigenous Peoples of the Caribbean Al M.

Rocca, 2024-05-02 This book offers a unique account of Christopher Columbus's first voyage, the most consequential voyage in world history. It provides a detailed day-by-day account of the explorer's travels and activities, richly illustrated with thematic maps. This work expands our understanding of Columbus's first voyage by mapping his sea and land experiences, offering both a historical and geographical exploration of his first voyage. Traveling chronologically through events, the reader builds a spatial insight into Columbus's perspectives that confused and confirmed his pre-existing notions of Asia and the Indies, driving him onward in search of new geographic evidence. Drawing from a diverse range of primary and secondary historical resources, this book is beautifully adorned with illustrations that facilitate an in-depth exploration of the connections between the places Columbus encountered and his subsequent social interactions with Indigenous people. This methodology allows the reader to better understand Columbus's actions as he analyzes new geographic realities with pre-existing notions of the Indies. Attention is given to Columbian primary sources which analyze how those materials have been used to create a narrative by historians. Readers will learn about the social and political structures of the Lucayan, Taíno, and Carib peoples, achieving a deeper understanding of those pre-Columbian cultures at the time of contact. The book will appeal to students and researchers in the disciplines of history, geography, and anthropology, and the general reader interested in Columbus.

A Cultural History of Plants in the Early Modern Era Andrew Dalby, Annette Giesecke, 2023-12-14 *A Cultural History of Plants in the Early Modern Era* covers the period from 1400 to 1650, a time of discovery and rediscovery of experiment and innovation. Renaissance learning brought ancient knowledge to modern European consciousness, whilst exploration placed all the continents in contact with one another. The dissemination of knowledge was further speeded by the spread of printing. New staples and spices, new botanical medicines, and new garden plants all catalysed agriculture, trade, and science. The great

medical botanists of the period attempted no less than what Marlowe's Dr Faustus demanded a book wherein I might see all plants herbs and trees that grow upon the earth Human impact on plants and our botanical knowledge had irrevocably changed The 6 volume set of the Cultural History of Plants presents the first comprehensive history of the uses and meanings of plants from prehistory to today The themes covered in each volume are plants as staple foods plants as luxury foods trade and exploration plant technology and science plants and medicine plants in culture plants as natural ornaments the representation of plants Andrew Dalby is an independent scholar and writer based in France Annette Giesecke is Professor of Classics at the University of Delaware USA Volume 3 in the Cultural History of Plants set General Editors Annette Giesecke University of Delaware USA and David Mabberley University of Oxford UK Art in Theory Paul Wood, Leon Wainwright, Charles Harrison, 2020-12-21 A ground breaking new anthology in the Art in Theory series offering an examination of the changing relationships between the West and the wider world in the field of art and material culture Art in Theory The West in the World is a ground breaking anthology that comprehensively examines the relationship of Western art to the art and material culture of the wider world Editors Paul Wood and Leon Wainwright have included 370 texts some of which appear in English for the first time The anthologized texts are presented in eight chronological parts which are then subdivided into key themes appropriate to each historical era The majority of the texts are representations of changing ideas about the cultures of the world by European artists and intellectuals but increasingly as the modern period develops and especially as colonialism is challenged a variety of dissenting voices begin to claim their space and a counter narrative to western hegemony develops Over half the book is devoted to 20th and 21st century materials though the book's unique selling point is the way it relates the modern globalization of art to much longer cultural histories As well as the anthologized material Art in Theory The West in the World contains A general introduction discussing the scope of the collection Introductory essays to each of the eight parts outlining the main themes in their historical contexts Individual introductions to each text explaining how they relate to the wider theoretical and political currents of their time Intended for a wide audience the book is essential reading for students on courses in art and art history It will also be useful to specialists in the field of art history and readers with a general interest in the culture and politics of the modern world Christopher Columbus and the Portuguese, 1476-1498 Rebecca Catz, 1993-09-21 Although much has been written about Columbus's life in Italy and Spain little has been written about his formative years in Portugal This work is the first book length analysis of Columbus's stay in Portugal and Madeira from 1476 to 1485 and his later experiences in the Portuguese islands of the Azores and the Madeiras The work stresses the influence the Portuguese had in educating Columbus about the sea and it depicts his famous voyage to the New World as a logical sequence of the pioneering voyages of the Portuguese in the North Atlantic and along the West Coast of Africa The work attempts to sort legend from fact and debunks the many myths about Columbus's stays on the island of Madeira **Sanctuary**, 1992 Piri Reis Map of 1513 Gregory C. McIntosh, 2012-03-15 One of the

most beautiful maps to survive the Great Age of Discoveries the 1513 world map drawn by Ottoman admiral Piri Reis is also one of the most mysterious Gregory McIntosh has uncovered new evidence in the map that shows it to be among the most important ever made This detailed study offers new commentary and explication of a major milestone in cartography Correcting earlier work of Paul Kahle and pointing out the traps that have caught subsequent scholars McIntosh disproves the dubious conclusion that the Reis map embodied Columbus's Third Voyage map of 1498 showing that it draws instead on the Second Voyage of 1493-1496 He also refutes the popular misinterpretation that Reis's depictions of Antarctica are evidence of either ancient civilizations or extraterrestrial visitation McIntosh brings together all that has been previously known about the map and also assembles for the first time the translations of all inscriptions on the map and analyzes all place names given for New World and Atlantic islands His work clarifies long standing mysteries and opens up new ways of looking at the history of exploration

Creole Subjects in the Colonial Americas Ralph Bauer, José Antonio Mazzotti, 2012-12-01 Creolization describes the cultural adaptations that occur when a community moves to a new geographic setting Exploring the consciousness of peoples defined as creoles who moved from the Old World to the New World this collection of eighteen original essays investigates the creolization of literary forms and genres in the Americas between the sixteenth and nineteenth centuries *Creole Subjects in the Colonial Americas* facilitates a cross disciplinary intrahemispheric and Atlantic comparison of early settlers colonialism and creole elites relation to both indigenous peoples and imperial regimes Contributors explore literatures written in Spanish Portuguese and English to identify creole responses to such concepts as communal identity local patriotism nationalism and literary expression The essays take the reader from the first debates about cultural differences that underpinned European ideologies of conquest to the transposition of European literary tastes into New World cultural contexts and from the natural science discourse concerning creolization to the literary manifestations of creole patriotism The volume includes an addendum of etymological terms and critical bibliographic commentary Contributors Ralph Bauer University of Maryland Raquel Chang Rodriguez City University of New York Lucia Helena Costigan Ohio State University Jim Egan Brown University Sandra M Gustafson University of Notre Dame Carlos Jauregui Vanderbilt University Yolanda Martinez San Miguel University of Pennsylvania Jose Antonio Mazzotti Tufts University Stephanie Merrim Brown University Susan Scott Parrish University of Michigan Luis Fernando Restrepo University of Arkansas Fayetteville Jeffrey H Richards Old Dominion University Kathleen Ross New York University David S Shields University of South Carolina Teresa A Toulouse Tulane University Lisa Voigt University of Chicago Jerry M Williams West Chester University
