**American Book Publishing Record**, 2002

**Data Intelligence and Cognitive Informatics** I. Jeena Jacob, Selvanayagi Kolandapalayam Shanmugam, Robert Bestak, 2022-02-01 The book is a collection of peer reviewed best selected research papers presented at the International Conference on Data Intelligence and Cognitive Informatics ICDICI 2021 organized by SCAD College of Engineering and Technology Tirunelveli India during July 16 17 2021 This book discusses new cognitive informatics tools algorithms and methods that mimic the mechanisms of the human brain which leads to an impending revolution in understating a large amount of data generated by various smart applications The book includes novel work in data intelligence domain which combines with the increasing efforts of artificial intelligence machine learning deep learning and cognitive science to study and develop a deeper understanding of the information processing systems

**Intellectual Property for Managers and Investors** Steven J. Frank, 2006-02-23 Technologists have the ideas Lawyers know the rules But for business managers and investors rules and ideas don't readily combine into a strategic vision No longer is intellectual property IP just a necessary expense for large technology companies Competing and succeeding in today's marketplace requires an in depth understanding of IP its use as a weapon as a shield and as a monetizable asset Yet in a world where fortunes can rise or founder on the strength of an IP portfolio hesitation to enter this arcane unfamiliar world still abounds This book equips the business manager with a working practical knowledge essential to creating and exploiting IP wealth It shows investors how to evaluate IP strength and competitive value With its results oriented perspective and international focus Intellectual Property for Managers and Investors is essential for those with decision making responsibility at the interface where business and innovation meet

The Internet Age of Competitive Intelligence John J. McGonagle, Carolyn M. Vella, 1999-01-30 Two of the most prolific and challenging authorities on the topic of competitive intelligence CI reflect on and respond to the changes in the field over the last decade The authors point out that CI users have to change what they are doing show why they are doing it and provide ways of doing it Their book reviews the problems in the development of CI since the 1980s discusses the impact of the Internet and the rise in use of other secondary sources and draws from and provides access to the growing body of CI information knowledge and literature Combining a scholarly approach with hands on advice McGonagle and Vella have written the first work to guide CI professionals through the emerging literature of their field Among the important changes in the field the authors cover are the radical changes in on line database searching and ways in which the Internet has fundamentally modified how we think of

accessing data Their book explores and reports the major body of work from the Society of Competitive Intelligence Professionals now that more businesses worldwide are using competitive intelligence and either writing about their experiences with it or joining in new benchmarking studies The result is newer information on what really works what doesn't work and who is doing what with it The book is thus a starting point for people new to the field of CI as well as a resource to help experienced professionals do their jobs better Managing International Trade And Investment: Casebook Debora L Spar, 2003-07-14 Despite the ease with which it is often conducted doing business across borders is not the same as doing it at home Rather it entails a whole new set of managerial challenges re assessing competitive advantage evaluating diverse political environments and legal structures considering the impact of currency fluctuations and trading regimes and understanding widely disparate cultures and business norms Using the cases presented in this book instructors can help their students build a framework of analysis that will enable them to understand the challenges of international trade and investment and master the opportunities these represent a
