FitzGerald,Fiona Robinson,2024 Care ethics first emerged as an attempt to decenter ethics feminist scholars like Carol Gilligan argued that women s moral experiences were not reflected in the dominant masculinist approaches to ethics which were centered on a rational disembodied atomistic moral subject Care ethics challenged this model by positing ethics as relational contextualized embodied and realized through practices rather than principles Over the past decades many care

ethics scholars have sought to further this project by considering care politically and epistemologically in relation to various intersecting hierarchies of power and knowledge This book advances this project by discussing the ways care ethics contributes to the decentering of dominant epistemologies and to the challenging of privilege and by considering how to decenter care ethics itself via an encounter with non Western philosophical traditions and alternative epistemologies Written by scholars from different countries disciplines and intellectual traditions the volume offers original care ethics contributions on epistemic injustice privileged irresponsibility ecofeminism settler colonialism social movements such as BLM and various racialized and gendered inequities tied to care work **Good Words** ,1882 Cypriot Nationalisms in Context Thekla Kyritsi,Nikos Christofis,2018-12-05 This book explores the different perspectives and historical moments of nationalism in Cyprus It does this by looking at nationalism as a form of identity as a form of ideology and as a form of politics The fifteen contributors to this book are scholars of different scientific backgrounds and present Cypriot nationalisms from an interdisciplinary framework including approaches such as history political science psychology and gender studies The chapters take a historical approach to nationalism and argue that the world of nations ethnic identity and national ideology are neither eternal nor ahistorical nor primordial but are rather socially constructed and function within particular historical and social contexts As a land that was and still is marked by opposed nationalisms that is Greek and Turkish Cyprus constitutes a fertile ground for examining the history the dynamics and the dialectics of nationalism
