Gale, 2024-10-18 A feminist before such a term was created and most famous for *The Awakening* the controversial Kate Chopin was also the author of a second novel *At Fault* as well as numerous short stories This reference book begins with a brief introduction to

Kate Chopin's varied background and her fictional work. A chronology traces the main events of her private and professional lives. Hundreds of alphabetically arranged entries follow, summarizing the plots of her novels and short stories, identifying her fictional characters and relating them to her own experiences, to her family members and to her friends. Many entries include bibliographical citations.

Jane Austen and the Fiction of her Time Mary Waldron, 2001-06-14. This book presents Jane Austen as a radical innovator. It explores the nature of her confrontation with the popular novelists of her time and demonstrates how her challenge to them transformed fiction. It is evident from letters and other sources as well as the novels themselves that the Austen family developed a strong scepticism about contemporary notions of the proper content and purpose of fiction. Austen's own writing can be seen as a conscious demonstration of these disagreements. In thus identifying her literary motivation, this book moving away from the questions of ideology which have so dominated Austen studies in this century offers a unifying critique of the novels and helps to explain their unequalled durability with the reading public.

The Language of Fiction David Lodge, 2015-10-30. Language of Fiction was the first book of criticism by the renowned novelist and critic David Lodge. His uniquely informed perspective, he was already the author of three successful novels at the time of its first publication in 1966, and lucid exposition meant that the work proved a

landmark of literary criticism not least because it succeeded *Jane Austen and the Fiction of Culture* Richard Handler, 1999 With a new introduction by the authors this edition takes the complete body of work of Jane Austen as the basis for rethinking ethnographic representation and cross cultural analysis Masquerade and Gender Catherine A. Craft-Fairchild, 1993-09-15 Terry Castle's recent study of masquerade follows Bakhtin's analysis of the carnivalesque to conclude that for women masquerade offered exciting possibilities for social and sexual freedom Castle's interpretation conforms to the fears expressed by male writers during the period Addison Steele and Fielding all insisted that masquerade allowed women to usurp the privileges of men Female authors however often mistrusted these claims perceiving that masquerade's apparent freedoms were frequently nothing more than sophisticated forms of oppression Catherine Craft Fairchild's work provides a useful corrective to Castle's treatment of masquerade She argues that in fictions by Aphra Behn Mary Davys Eliza Haywood Elizabeth Inchbald and Frances Burney masquerade is double sided It is represented in some cases as a disempowering capitulation to patriarchal strictures that posit female subordination Often within the same text however masquerade is also depicted as an empowering defiance of the dominant norms for female behavior Heroines who attempt to separate themselves from the image of womanhood they consciously construct escape victimization In both cases masquerade is the condition of femininity gender in the woman's novel is constructed rather than essential Craft Fairchild examines the guises in which womanhood appears analyzing the ways in which women writers both construct and deconstruct eighteenth century cultural conceptions of femininity She offers a careful and engaging textual analysis of both canonical and noncanonical eighteenth century texts thereby setting lesser read fictions into a critical dialogue with more widely known novels Detailed readings are informed throughout by the ideas of current feminist theorists including Luce Irigaray Julia Kristeva Mary Ann Doane and Kaja Silverman Instead of assuming that fictions about women were based on biological fact Craft Fairchild stresses the opposite the domestic novel itself constructs the domestic woman **Robert Louis Stevenson and the Art of Collaboration** Murfin Audrey Murfin, 2019-08-05 Explores Robert Louis Stevenson's collaborative process Contains new readings of thirteen works by Robert Louis Stevenson including several rarely discussed Sheds light on connections between authorship celebrity the literary marketplace and the creative process Supported by extensive manuscript research This book investigates Stevenson's literary collaborations with family and friends as he travelled Scotland America and the Pacific With critical readings of both major and minor Stevenson texts supported and contextualised by unpublished manuscripts and letters by both Stevenson and those he wrote with this book argues that Stevenson's writings are both a product of and a meditation on collaborative writing Stevenson's self reflective body of work reimagines late Victorian authorship by examining the ways that authors choose material negotiate the marketplace and ultimately maintain power over their own words or let that power go **Henry Fielding and the Heliodoran Novel** James J. Lynch, 1986 Argues that although Fielding condemned romance he shared virtually the same

aesthetic assumptions as Mme de Scudery and other heroic novelists Calling this tradition of seventeenth century epics in prose the Heliodoran novel Lynch analyzes how romance conventions serve a clear aesthetic purpose **William Clark Russell and the Victorian Nautical Novel** Andrew Nash,2015-10-06 William Clark Russell wrote more than forty nautical novels Immensely popular in their time his works were admired by contemporary writers such as Conan Doyle Stevenson and Meredith while Swinburne considered him the greatest master of the sea living or dead Based on extensive archival research Nash explores this remarkable career *Bodies, Sex and Desire from the Renaissance to the Present* Kate Fisher,Sarah Toulalan,2015-12-11 An examination of how bodies and sexualities have been constructed categorised represented diagnosed experienced and subverted from the fifteenth to the early twenty first century It draws attention to continuities in thinking about bodies and sex concept may have changed but hey nevertheless draw on older ideas and language *Economies of Change* Michal Peled Ginsburg,1996 The analysis of each novel centers around the notion of transformation or the economy of change as it informs the text and our understanding of it arguing that transformation is not only a basic category of narrative structure but also the key to the link between literary form and cultural context Throughout the book addresses topical issues in current literary theory and cultural studies such as the cultural significance of narrative and its historical dimension in a distinctly practical manner showing how in a number of determinate cases narrative actually works **The English Novel, Vol I** Richard W.F. Kroll,2014-07-21 The English Novel Volume I 1700 to Fielding collects a series of previously published essays on the early eighteenth century novel in a single volume reflecting the proliferation of theoretical approaches since the 1970s The novel has been the object of some of the most exciting and important critical speculations and the eighteenth century novel has been at the centre of new approaches both to the novel and to the period between 1700 and 1750 Richard Kroll s introduction seeks to frame the contributions by reference to the most significant critical discussions These include the question of whether and how we can talk about the rise of the novel the vexed question of what might constitute a novel the relationship between the novel and possibly competing genres such as history or the romance the relationship between early male writers like Defoe and popular novels by women in the early eighteenth century the general ideological role played by novels relative to eighteenth century culture are they means of ideological conscription or liberation poststructuralist analyses of identity and gender and the emergence of sentimental and domestic codes after Richardson Since the modern European novel is often thought to have been formed in this period these debates have clear implications for students of the novel in general as well as for those interested in the early enlightenment Headnotes place each essay within the map of these wider concerns and the volume offers a useful further reading list Taken as a whole this collection encapsulates the state of criticism at the present moment **North American Women Poets in the 21st Century** Lisa Sewell,Kazim Ali,2020-02-25 North American Women Poets in the 21st Century Beyond Lyric and Language is an important new addition to the American Poets in the 21st Century series Like the earlier anthologies this volume includes
