Far Glory The Quest For Faith In An Age Of Credulity:

A Far Glory Peter L. Berger, 1993 An accessible discussion of complex social and religious ideas and an exploration of religious faith in a secular age **Classical and Contemporary Sociological Theory** Scott Appelrouth, Laura Desfor Edles, 2020-08-13 The authors are proud sponsors of the 2020 SAGE Keith Roberts Teaching Innovations Award enabling graduate students and early career faculty to attend the annual ASA pre conference teaching and learning workshop Now available for the first time in print and e book formats Classical and Contemporary Sociological Theory Text and Readings offers students with the best of both worlds carefully edited excerpts from the original works of sociology's key thinkers accompanied by an analytical framework that discusses the lives ideas and historical circumstances of each theorist This unique format enables students to examine compare and contrast each theorist's major themes and concepts In the Fourth Edition of this bestseller examples from contemporary life and a rich variety of updated pedagogical tools tables figures discussion questions and photographs come together to illuminate complex ideas for today's readers Included with this title The password protected Instructor Resource Site formally known as SAGE Edge offers access to all text specific resources including a test bank and editable chapter specific PowerPoint slides *Morality and Public Policy* Clem Henricson, 2016-02-24 Spanning religion moral philosophy and scientific understanding of the human conditions this unique book adds to the latest thinking on morality proposing ways to enhance the capacity of public policy to respond to morality and associated shifts in social mores in different cultural settings Do We Need Religion? Hans Joas, 2015-11-17 The old assumption that modernization leads to secularization is outdated Yet the certainty that religion is an anthropological universal that can only be suppressed by governments is also dead Thus it is now a favorable moment for a new perspective on religion This book takes human experiences of self transcendence as its point of departure Religious faith is seen as an attempt to articulate and interpret such experiences Faith then is neither useful nor a symptom of weakness or misery but an opening up of ways of experience This book develops this basic idea contrasts it with the thinking of some leading religious thinkers of our time and relates it to the current debates about human rights and universal human dignity The Bloomsbury Encyclopedia of Philosophers in America John R. Shook, 2016-02-11 For scholars working on almost any aspect of American thought The Bloomsbury Encyclopedia to Philosophers in America presents an indispensable reference work Selecting over 700 figures from the Dictionary of Early American Philosophers and the Dictionary of Modern American Philosophers this condensed edition includes key contributors to philosophical thought From 1600 to the present day entries cover psychology pedagogy sociology anthropology education theology and political science before these disciplines came to be considered distinct from philosophy Clear and accessible each entry contains a short biography of the writer an exposition and analysis of his or her doctrines and ideas a bibliography of writings and suggestions for further reading Featuring a new preface by the editor and a comprehensive introduction The Bloomsbury Encyclopedia to Philosophers in America includes

30 new entries on twenty first century thinkers including Martha Nussbaum and Patricia Churchland With in depth overviews of Waldo Emerson Margaret Fuller Noah Porter Frederick Rauch Benjamin Franklin Thomas Paine and Thomas Jefferson this is an invaluable one stop research volume to understanding leading figures in American thought and the development of American intellectual history

Sociology and the Sacred Antonius A.W. Zondervan Zondervan,2016-06-16 The acclaimed American sociologist and cultural philosopher Philip Rieff gained great academic prestige with his thesis on the emergence of Psychological Man in western culture and with his classic book Freud The Mind of the Moralist published in 1959 In this work and the later The Triumph of the Therapeutic 1966 he not only offered a highly original interpretation of the work of Sigmund Freud but critically evaluated the enormous influence of psychotherapeutic thinking on Western culture However Rieff s later work on the theory of culture did not garner the same attention and his most recent writings have received very little critical engagement In Sociology and the Sacred Antonius A W Zondervan sets out to remedy this neglect arguing that Rieff s work is ripe for intellectual reconsideration Zondervan begins by presenting an outline of Rieff s entire body of work focusing on his theory of culture and explaining how the sacred is a key notion pivotal to the overall understanding of Rieff s work The author argues that the present upsurge in religion in many varieties throughout the world cannot be explained by the classical secularization thesis making Rieff s theory of sacred order in culture an essential contribution to a new social theory of religion Including material from personal interviews with Rieff that enabled Zondervan to clarify important aspects of his work Sociology and the Sacred is an essential contribution to the understanding of contemporary culture s maintenance of its ties to religion

America and the Challenges of Religious Diversity Robert Wuthnow,2011-07-01 Muslims Hindus Buddhists and adherents of other non Western religions have become a significant presence in the United States in recent years Yet many Americans continue to regard the United States as a Christian society How are we adapting to the new diversity Do we casually announce that we respect the faiths of non Christians without understanding much about those faiths Are we willing to do the hard work required to achieve genuine religious pluralism Award winning author Robert Wuthnow tackles these and other difficult questions surrounding religious diversity and does so with his characteristic rigor and style America and the Challenges of Religious Diversity looks not only at how we have adapted to diversity in the past but at the ways rank and file Americans clergy and other community leaders are responding today Drawing from a new national survey and hundreds of in depth qualitative interviews this book is the first systematic effort to assess how well the nation is meeting the current challenges of religious and cultural diversity The results Wuthnow argues are both encouraging and sobering encouraging because most Americans do recognize the right of diverse groups to worship freely but sobering because few Americans have bothered to learn much about religions other than their own or to engage in constructive interreligious dialogue Wuthnow contends that responses to religious diversity are fundamentally deeper than polite discussions about civil liberties and tolerance would suggest Rather he writes religious diversity strikes us at the very core of

our personal and national theologies Only by understanding this important dimension of our culture will we be able to move toward a more reflective approach to religious pluralism **Dictionary Of Modern American Philosophers** John R.

Shook,2005-05-15 The Dictionary of Modern American Philosophers includes both academic and non academic philosophers and a large number of female and minority thinkers whose work has been neglected It includes those intellectuals involved in the development of psychology pedagogy sociology anthropology education theology political science and several other fields before these disciplines came to be considered distinct from philosophy in the late nineteenth century Each entry contains a short biography of the writer an exposition and analysis of his or her doctrines and ideas a bibliography of writings and suggestions for further reading While all the major post Civil War philosophers are present the most valuable feature of this dictionary is its coverage of a huge range of less well known writers including hundreds of presently obscure thinkers In many cases the Dictionary of Modern American Philosophers offers the first scholarly treatment of the life and work of certain writers This book will be an indispensable reference work for scholars working on almost any aspect of modern American thought Encountering Religious Pluralism Harold Netland,2001-08-14 Harold Netland traces the emergence of

the pluralistic ethos that challenges Christian faith and mission interacting heavily with philosopher John Hick and providing a framework for developing a comprehensive evangelical theology of religions **Losing Our Religion?** Kevin Ronald Ward,2013-10-22 Church going in most Western societies has declined significantly in the wake of the social and cultural changes that began in the 1960s Does this mean that people in these societies are losing any religious dimension in their lives or is it being expressed in other forms and places This study begins by looking at comparative data on how church going patterns have changed in five countries Britain the United States Canada Australia and New Zealand examining reasons for the decline how churches have responded to these changes and why some churches have shown greater resilience It then explores some of the particular challenges these changes pose for the future of churches in these societies and some of the responses that have been made drawing on both sociological and theological insights The conclusion is that despite the loss of belonging believing persists and religion continues to play a significant role in these societies mediated in a variety of diffuse cultural forms Cases illustrating these changes are largely drawn from New Zealand which as the country most recently settled by Europeans has always been secular and thus provides helpful insights *Roman Catholicism in America*

Chester Gillis,2020-03-24 Who are American Catholics and what do they believe and practice How has American Catholicism influenced and been influenced by American culture and society This book examines the history of American Catholics from the colonial era to the present with an emphasis on changes and challenges in the contemporary church Chester Gillis chronicles America Catholics where they have come from how they have integrated into American society and how the church has influenced their lives He highlights key events and people examines data on Catholics and their relationship to the church and considers the church's positions and actions on politics education and gender and sexuality in the context of

its history and doctrines This second edition of Roman Catholicism in America pays particular attention to the tumultuous past twenty years and points toward the future of the religion in the United States It examines the unprecedented crisis of sexual abuse by priests the legal moral financial and institutional repercussions of which continue to this day and the bishops role in it Gillis also discusses the election of Pope Francis and the controversial role Catholic leadership has played in American politics

The Church Between Gospel and Culture George R. Hunsberger, Craig Van Gelder, 1996 This excellent collection of essays written by a diverse group of Christian leaders working on the frontier of mission within the present North American context lays the groundwork for the newly emerging missionary encounter of the gospel with North American culture Demonstrating that the missionary identity of the church is to be found at the intersection of culture gospel church these essays outline the missionary agenda now before the church as it confronts North American assumptions perspectives preferences and practices

Secularism and its Opponents from Augustine to Solzhenitsyn E. Kennedy, 2015-12-11 In this overview of secularism and its history Kennedy traces through a series of intellectual biographies of leading European thinkers such as Rousseau Kant Hegel Marx Dostoyevsky and Solzhenitsyn just how the Western world changed from religious to secular

Contracting Human Rights Alison Brysk, Michael Stohl, 2018 By chronicling the continuing contest over the reach range and regime of rights Contracting Human Rights analyzes the way forward in an era of many challenges This multidisciplinary book contributes to building understanding of the maturation of human rights from a dissident doctrine to a dynamic parameter of global governance and civil society Through an examination of both global and local challenges to human rights including loopholes backlash accountability and new opportunities to move forward this book analyzes trends across multiple issue areas

Confessing the Faith Douglas John Hall, This bold work culminates Hall's three volume contextual theology the first to take the measure of Christian belief and doctrine explicitly in light of North American cultural and historical experience Hall is deeply critical of North American culture but also of sidelined Christian churches that struggle to gain dominance within it We must stop thinking of the reduction of Christendom as a tragedy he says The disestablishment that the churches reluctantly enjoy can enable them to develop genuine community uncompromised theology and honest engagement with the larger culture To a failed culture and a struggling church Hall shows the radical implications of a theology of the cross for the shape and practice of church preaching ministry ethics and eschatology Hall's frank and prophetic volume is the trilogy's most practical and the most sustained probe to date of Christian life in a post Christian context

Sociology of Religion Roberto Cipriani, 2020-10-28 In adopting an international perspective that goes beyond the conventional framework of western theology this volume bridges the divide between European and North American scholars through its careful retrieval of their common theoretical and research interests Cipriani provides a critical analysis of both classical thought and contemporary currents in this readable text aimed at both experts and students He has achieved a broadening in the scientific approach to the study of religion

God in the

Wasteland David F. Wells, 1994 In this sequel to the widely praised *No Place for Truth* David Wells calls for the restoration of the church based on a fresh encounter with the transcendent God By looking anew at the way God's transcendence and immanence have been taken captive by modern appetites Wells argues convincingly for a reform of the evangelical world

Long Eclipse Catherine Gidney, 2004-11-09 Taking a social and cultural history approach Gidney argues that for much of the twentieth century a liberal Protestant establishment imparted its own particular vision of moral and intellectual purpose to denominational and non denominational campuses alike Examining administrators pronouncements the moral regulation of campus life and student religious clubs she demonstrates that Protestant ideals and values were successfully challenged only in the post World War II period when a number of factors including a loosening of social mores a more religiously diverse student body and the ascent of the multiversity finally eroded Protestant hegemony Only in the late 1960s however can one begin to speak of a university whose public voice was predominantly secular and where the voice of liberal Protestantism had been reduced to one among many

Wholeness in Hope Care Daniel Johannes Louw, 2015 Throughout his life the apartheid activist Nelson Mandela Madiba maintained In the darkest moment there is always hope We must never give up Hope as a mode of the courage to be Paul Tillich points to what the Sociologist Peter Berger calls signals of transcendence *Wholeness in Hope Care* explores the rich tradition of hope in wisdom philosophy and Christian theology It connects non hope un hope Gabriel Marcel in *espoir* to a theology of compassion in soul care *cura animarum* Resurrection hope *theologia resurrectionis* points to the healing of life *cura vitae* and the preservation of land *cura terrae* In order to describe the helping and healing dimension in pastoral caregiving the term *promissiotherapy* has been coined Daniel Johannes Louw was Dean of the faculty of theology at the University of Stellenbosch 2001 2005 President of the International Academy of Practical Theology IAPT 2003 2005 and President of the International Council for Pastoral Care and Counselling ICPPC 2011 2015 Series Pastoral Care and Spiritual Healing Series Pastoral Care and Spiritual Healing Vol 3 Subject Pastoral Studies Religious Studies Christianity

The New Blackwell Companion to the Sociology of Religion Bryan S. Turner, 2010-03-02 Reflecting the very latest developments in the field the *New Companion* provides a comprehensive introduction to the sociology of religion with a clear emphasis on comparative and historical approaches Covers major debates in secularization theory rational choice theory feminism and the body Takes a multidisciplinary approach covering history sociology anthropology and religious studies International in its scope covering American exceptionalism Native American spirituality and China Europe and Southeast Asia Offers discussions on the latest developments including megachurches spirituality post secular society and globalization
