Farther Vision Educational Television Today:

The Farther Vision Allen E. Koenig, Ruane B. Hill, 1969 **The Farther Vision. Educational Television Today.**
Edited by Allen E. Koenig and Ruane B. Hill. [By Various Authors.] Allen E. KOENIG (and HILL (Ruane B.)), Ruane B. HILL, 1967 **Organizing Educational Broadcasting** David Hawkrige, John Robinson, 2023-02-03 First published in 1982
Organizing Educational Broadcasting provides advice and guidance in organizational and managerial skills for those responsible for the operation of educational broadcasting systems It is principally designed for those who actually work within educational radio and television systems They are the people who perhaps stand to gain most by reading about international case studies In addition high level decision makers planners and others who are concerned with conceptualizing planning and implementing new systems or more likely modifying old ones will find much to interest them **Hearings, Reports and Prints of the House Committee on Education and Labor** United States. Congress. House. Committee on Education and Labor, 1972 **Encyclopedia of Radio 3-Volume Set** Christopher H. Sterling, 2004-03 Produced in association with the Museum of Broadcast Communications in Chicago the Encyclopedia of Radio includes more than 600 entries covering major countries and regions of the world as well as specific programs and people networks and organizations regulation and policies audience research and radio s technology This encyclopedic work will be the first broadly conceived reference source on a medium that is now nearly eighty years old with essays that provide essential information on the subject as well as comment on the significance of the particular person organization or topic being examined **The Vanishing Vision** James Day, 2023-04-28 This spirited history of public television offers an insider s account of its topsy turvy forty year odyssey James Day a founder of San Francisco s KQED and a past president of New York s WNET provides a vivid and often amusing behind the screens history Day tells how a program producer desperate to locate a family willing to live with television cameras for seven months borrowed a dime and a suggestion from a blind date and telephoned the Lounds of Santa Barbara The result was the mesmerizing twelve hour documentary An American Family Day relates how Big Bird and his friends were created to spice up Sesame Street when test runs showed a flagging interest in the program s live action segments And he describes how Frieda Hennock the first woman appointed to the FCC overpowered the resistance of her male colleagues to lay the foundation for public television Day identifies the particular forces that have shaped public television and produced a Byzantine bureaucracy kept on a leash by an untrusting Congress with a fragmented leadership that lacks a clearly defined mission in today s multimedia environment Day calls for a bold rethinking of public television s mission advocating a system that is adequately funded independent of government and capable of countering commercial television s lowest common denominator approach with a full range of substantive programs comedy as well as culture entertainment as well as information This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact

Drawing on a backlist dating to 1893 *Voices Revived* makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1995 **Public Television** William Hawes,1996 KUHT TV in Houston Texas was the first non commercial educational television station This is the story of its development and struggle for survival **Recovering a Public Vision for Public Television** Glenda R. Balas,2003 In 1995 US public television faced possible elimination of federal funding potentially commercialising this type of broadcasting This study suggests that these strains have undermined public broadcasting historically the result is that programming no longer prioritises social reform **Schools and Screens** Victoria Cain,2024-02-06 Why screens in schools from film screenings to instructional television to personal computers did not bring about the educational revolution promised by reformers Long before Chromebook giveaways and remote learning screen media technologies were enthusiastically promoted by American education reformers Again and again as schools deployed film screenings television programs and computer games screen based learning was touted as a cure for all educational ills But the transformation promised by advocates for screens in schools never happened In this book Victoria Cain chronicles important episodes in the history of educational technology as reformers technocrats public television producers and computer scientists tried to harness the power of screen based media to shape successive generations of students Cain describes how beginning in the 1930s champions of educational technology saw screens in schools as essential tools for training citizens and presented films to that end Among the films screened for educational purposes was the notoriously racist *Birth of a Nation* In the 1950s and 1960s both technocrats and leftist educators turned to screens to prepare young Americans for Cold War citizenship and from the 1970s through the 1990s as commercial television and personal computers arrived in classrooms screens in schools represented an increasingly privatized vision of schooling and civic engagement Cain argues that the story of screens in schools is not simply about efforts to develop the right technological tools rather it reflects ongoing tensions over citizenship racial politics private funding and distrust of teachers Ultimately she shows that the technologies that reformers had envisioned as improving education and training students in civic participation in fact deepened educational inequities **Research in Education** ,1968-07 **Training Methodology: Audiovisual theory, aids, and equipment** ,1969 **Public Health Service Publication** ,1969 **Publications Issued by the Public Health Service** United States. Public Health Service,1969 **Resources in Education** ,1968-10 **Blue Book** ,1981 The Evolution of American Educational Technology Paul Saettler,2004-03-01 The primary purpose of this book is to trace the theoretical methodological foundations of American educational technology It must be emphasized that this work is essentially as history of the process of educational technology rather than of products in the form of devices or media Although media have played an important role in educational technology the reader should not lose sight of the central process which characterizes and underlies the true historical meaning and function of educational technology Moreover the assumption is made that all current theory methodology and

practice rests upon the heritage of the past Indeed a common problem in the field has been the failure in many instances to take adequate account of past history in planning for the present or the future A related purpose of this book is to provide a selective survey of research in educational technology as it relates to the American public schools Such research reviews are not intended to be comprehensive but were included because of their historical importance and their relevance in understanding the process of educational technology *Documentary Programming and the Emergence of the National Educational Television Center as a Network, 1958-1972* Carolyn N. Brooks, 1994 **The Concise Encyclopedia of American Radio** Christopher H. Sterling, Cary O'Dell, 2010-04-12 The Concise Encyclopedia of American Radio is an essential single volume reference guide to this vital and evolving medium Comprised of more than 300 entries spanning the invention of radio to the Internet this reference work addresses personalities music genres regulations technology programming and stations the golden age of radio and other topics relating to radio broadcasting throughout its history The entries are updated throughout and the volume includes nine new entries on topics ranging from podcasting to the decline of radio **To Serve the Public Interest** Robert J. Blakely, 1979 *Summary of Major Legislative Action of the Committee on Education and Labor, U.S. House of Representatives, 92d Congress* , 1973
