Numismatic Archaeology of North America Marjorie H. Akin, James C. Bard, Kevin Akin, 2016-05-05 Numismatic Archaeology of North America is the first book to provide an archaeological overview of the coins and tokens found in a wide range of North American archaeological sites. It begins with a comprehensive and well-illustrated review of the various coins and tokens that circulated in North America with descriptions of the uses for and human behavior associated with each type. The book contains practical sections on standardized nomenclature, photographing, cleaning, and curating coins and discusses the impacts of looting and of working with collectors. This is an important tool for archaeologists working with coins. For numismatists and collectors, it explains the importance of archaeological context for complete analysis.

Horrrifying Children Lauren Stephenson, Robert Edgar, John Marland, 2024-03-07 *Horrrifying Children* examines weird and eerie children's television and literature via critical analysis, memoir, and autoethnography. There has been an explosion of interest in the impact of children's television and literature of the late twentieth century. In particular, the 1970s, 80s, and 90s are seen as decades that shaped a great deal of the contemporary cultural landscape. Television of this period dominated the world of childhood entertainment, drawing freely upon literature and popular culture like the Garbage Pail Kids and *Stranger Things*, and much of it continues to resonate powerfully with the generation of cultural producers: fiction writers, screenwriters, directors, musicians, and artists that grew up watching the weird, the eerie, and the horrific, the essence of 21st-century Hauntology. In these terms, this book is not about children's television as it exists now but rather as it features as a facet of memory in the 21st century. As such, it is the legacy of these television programmes that is at the core of *Horrrifying Children*. The haunting of adults by what we have seen on the screen is crucial to the study. This collection directly addresses that which scared us in the past, inasmuch as there is a correlation between individual and collective cultural memory, with some chapters providing an opportunity for situating existing explorations and understandings of Gothic and Horror TV within a hauntological and experiential framework.
