Angels Julivert,1993 Snakes live in many different climates and in most parts of the world Here several varieties are shown in detail in their stages of growth development and activity in their habitats The full color artwork is scientifically accurate and the text is written for upper elementary and junior high school students *Snake Adventure Book: Discover Amazing*

Snakes, Snake Pictures, Snakes As Pets Kate Cruise,2013-09-26 This snake adventure book contains a journey of fun facts

amazing discoveries curious and intriguing stories about snakes and amazing pictures of snakes You will find some

interesting revelations and secrets you probably never heard about snakes Some myths and truths and other curious stuff

about snakes that children just find cool and groovy to know are also included This book will take your child through a

journey of interesting facts amazing discoveries curious and intriguing stories about snakes and touching pictures of snakes

that are going to stimulate your child s interest to learn more about these mysterious gracious creatures You will find some

interesting revelations and secrets you probably never heard about snakes Did you know that in captivity many of the snake

species can live for surprisingly very long times The average is somewhere between 18 20 years As a mother of 3 young

children and with the experience as an elementary teacher science researcher writer and publisher of many publications for

kids Kate Cruise has learned to listen to interact with kids It is a book series inspired by kids and for kids Kids learn about

new and interesting facts so that a combination of both the curious and the new materials and facts together with the visual

aspect of the pictures Children are entertained with the coolness factor of the discovery book plus they learn some new and a

little bit harder to retain facts simultaneously with the cool stuff and this is how the child is going to retain all of the

information The discovery books work in synchronization with the brain and not against the brain like some dull textbooks try

to teach things Stimulation of thought and contemplation increases intelligence and the brain power TV kills the brain cells

of your child Parents home schoolers alike are reporting unprecedented results with children who usually hate reading books

Suitable for kids age 5 *Snakes: 101 Super Fun Facts And Amazing Pictures (Featuring The World's Top 10 Snakes)* Janet
