God Kelly Ryan Harriger, 2009-05 Does God really exist Or is He just a grandiose delusion passed down through the millennia to help us deal with our nagging need to find a purpose for our existence The author grew up in a believing household never questioning the existence of God but as he grew older and more interested in his faith he developed a driving need to know whether or not his faith was justified A totally blind faith one that couldn't be supported with any hard evidence just wouldn't do If God was real then He must have left a trail of evidence for a rational thinker to follow But if there wasn't any trail to follow then all faith would be blind and any faith would do as it would become little more than a set of guidelines to follow in an attempt to lead a spiritual and moral life The author began his exploratory journey with a set of questions that needed to be answered Do any of the world's religious scriptures reveal information that has parallels in scientific discovery Do any of the world's religious scriptures offer specific prophecies that have unfolded in recorded history And lastly did any of the world's religious scriptures provide a blueprint for living that could drastically change one's life from the inside out As he sought answers to these questions he discovered an overwhelming amount of supporting evidence but it came with a catch it all pointed in one decisive direction

KELLY RYAN HARRIGER lives in Pennsylvania He spent most of his working career in Los Angeles California as a professional writer in the world of advertising marketing and entertainment before returning to his boyhood home in Pennsylvania where he now works as a marketing and advertising consultant for small businesses and non profit groups
