Funk the Clock Rahsaan Mahadeo,2024-05-15 Funk the Clock is about those said to be emblematic of the future yet denied a place in time Hence this book is both an invitation and provocation for Black youth to give the finger to the hands of time while inviting readers to follow their lead In revealing how time is racialized how race is temporalized and how racism takes time Rahsaan Mahadeo makes clear why conventional sociological theories of time are both empirically and theoretically unsustainable and more importantly why they need to be funkyed up with Through his study of a youth center in Minneapolis Mahadeo provides examples of Black youth constructing alternative temporalities that center their lived experiences and ensure their worldviews tastes and culture are most relevant and up to date In their stories exists the potential to stretch the sociological imagination to make the familiar i e time strange Funk the Clock forges new directions in the study of race and time by upending what we think we know about time while centering Black youth as key collaborators in rewriting knowledge as we know it

It Makes (No) Sense Nicolae Naumof,2014-01-03 From a rational point of view people often do things that make little or no sense But when these actions are viewed through the lens of behavioral sciences a new interpretation emerges Through the filter of a four dimensional model of human behavior the reasons that people do what they do begin to come into focus Building on this idea It Makes No Sense offers a counterintuitive perspective and macro rules on human judgment decision making and behavior The first section of the book How We Think explores human judgment and decision making This knowledge serves as the basic of understanding of how social factors transient internal

states and physical environment elements influence human behavior Sections two through six go on to describe the 4D Model of Human Behavior a very effective tool for understanding predicting and influencing human behavior This study gives particular attention to the drivers of human behavior beyond personality Section seven An Alternative to Carrots and Sticks criticizes the established way of offering incentives and applying penalties in order to influence behavior Through the careful application of knowledge from the behavioral and decision sciences behavioral change can occur With the journey through the behavioral sciences perspective celebrated in It Makes No Sense things just might make a bit more sense
