History as Performance Dietlind Hüchtker,2020-09-06 This study analyzes history as performance as the interaction of actors plays stages and enactments By this it examines women s politics in Habsburg Galicia around 1900 a Polish woman active in the peasant movement a Ukrainian feminist and a Jewish Zionist It shows how the movements constructed essentialistically regarded collectives experience as a medially comprehensible form of credibility and a historically based inevitability of change and legitimized participation and intervention through social policy and educational practices Traits shared by the movements included the claim to interpretive sovereignty the ritualization of participation and the establishment of truths about past and future

Performance and Performativity in Contemporary Indian Fiction in English Maria-Sabina Draga Alexandru,2015-02-04 This book starts with a consideration of a 1997 issue of the New Yorker that celebrated fifty years of Indian independence and goes on to explore the development of a pattern of performance and performativity in contemporary Indian fiction in English Salman Rushdie Arundhati Roy and Vikram Chandra Such fiction which constructs identity through performative acts is built around a nomadic understanding of the self and implies an evolution of narrative language towards performativity whereby the text itself becomes nomadic A comparison with theatrical performance Peter Brook s Mahabharata and Girish Karnad s theatre of roots serves to support the argument that in both theatre and fiction the concepts of performance and performativity transform classical Indian mythic poetics In the mythic symbiosis of performance and storytelling in Indian tradition within a cyclical pattern of estrangement from and return to the motherland and or its traditions myth becomes a liberating space of consciousness where rigid categories and boundaries are transcended

Performance of Innovative Controlled Buildings Under Resonant and Critical Earthquake Ground Motions Izuru Takewaki,2018-11-23 This eBook is the fourth in a series of books on the critical earthquake response of elastic or elastic plastic structures under near fault or long duration ground motions and includes six original research papers which were published in the specialty section Earthquake Engineering in Frontiers in Built Environment Several extensions of the first eBook the second eBook and the third eBook are included here The first article is on the comparison of earthquake

resilience of various building structures including innovative base isolation systems and control systems Pulse type ground motions and resonant harmonic ground motions are used for investigating the earthquake resilience of those innovative building structures The second article is concerned with the performance of an innovative seismic response controlled system with shear walls and concentrated dampers in lower stories The resonant one cycle sine waves and resonant harmonic waves are used as the input ground motions The third article is related to the robustness evaluation of a base isolation building connection hybrid controlled building structure under the critical long period and long duration ground motion The multi impulse is used as a substitute for a long period and long duration ground motion and the model reduction to a single degree of freedom SDOF system is conducted to propose a simple response evaluation method The fourth article is an extension of the previously proposed energy balance approach to a damped bilinear hysteretic SDOF system under a double impulse as a substitute for a near fault ground motion The energy absorption through viscous damping is incorporated appropriately in the energy balance and the application of the proposed method to actual recorded ground motions is presented The fifth article is on the robustness evaluation of base isolation building connection hybrid controlled building structures considering uncertainties in deep ground The earthquake ground motion amplitude at the earthquake bedrock is evaluated by the Boore's stochastic method in 1983 including the fault rupture and the wave propagation into the earthquake bedrock Then the phase angle property at the earthquake bedrock is investigated by introducing the concept of phase difference which is defined for each earthquake type A wave at the ground surface nearly resonant to the base isolation building connection hybrid controlled building structure is produced by considering uncertainties in deep ground The sixth article is concerned with the critical response of nonlinear base isolated buildings considering soil structure interaction under a double impulse as a substitute for a near fault ground motion The complicated model of a nonlinear base isolated building on ground is modeled into an SDOF system after a few model reduction processes The approach presented in this eBook together with the previous eBooks is an epoch making accomplishment to open the door for simpler and deeper understanding of structural reliability and resilience of built environments in the elastic plastic and nonlinear range

Nationalism and Youth in Theatre and Performance Victoria Pettersen Lantz,Angela Sweigart-Gallagher,2014-07-11 Nationalism and Youth in Theatre and Performance explores how children and young people fit into national political theatre and moreover how youth enact interrogative patriotic and or antagonistic performances as they develop their own relationship with nationhood Children are often seen as excluded from public discourse or political action However this idea of exclusion is false both because adults place children at the center of political debates with the rhetoric of future generations and because children actively insert themselves into public discourse Whether performing a national anthem for visiting heads of state creating a school play about a country s birth or marching in protest of a change in public policy young people use theatre and performance as a means of publicly staking a claim in national politics directly engaging with ideas of nationalism around the world This collection explores the issues of how children fit into national discourse on international stages The authors focus on national performances by for with youth and examine a wide range of performances from across the globe from parades and protests to devised and traditional theatre Nationalism and Youth in Theatre and Performance rethinks how national performance is defined and offers previously unexplored historical and theoretical discussions of political youth performance

Popular Children's Literature in Britain Julia Briggs,Dennis Butts,2016-12-05 The astonishing success of J K Rowling and other contemporary children s authors has demonstrated how passionately children can commit to the books they love But this kind of devotion is not new This timely volume takes up the challenge of assessing the complex interplay of forces that have created the popularity of children s books both today and in the past The essays collected here ask about the meanings and values that have been ascribed to the term popular They consider whether popularity can be imposed or if it must always emerge from children s preferences And they investigate how the Harry Potter phenomenon fits into a repeated cycle of success and decline within the publishing industry Whether examining eighteenth century chapbooks fairy tales science schoolbooks Victorian adventures waif novels or school stories these essays show how historical and publishing contexts are vital in determining which books will succeed and which will fail which bestsellers will endure and which will fade quickly into obscurity As they considering the fiction of Angela Brazil Enid Blyton Roald Dahl and J K Rowling the contributors carefully analyse how authorial talent and cultural contexts combine in often unpredictable ways to generate and sometimes even sustain literary success
