Farming The Frontier:

Farming the Frontier James R. Gibson, 2011-11-01 In its rich detail this book provides the first comprehensive history of the agricultural development of the Oregon Country Based on extensive research in Hudson's Bay Company documents missionary records and military and private papers this book traces the crucial transition of the Pacific Northwest from a fur trading outpost to an agricultural settlement a process which also saw the shift from British to American jurisdiction in the area *The Farmer's Frontier*, 1959 *The farmers' frontier, 1865-1900* Gilbert Courtland Fite, 1966 **The Farmer's**

Last Frontier Fred Albert Shannon, 1945 Part of a series of detailed reference manuals on American economic history this volume traces the development and expansion of agriculture across the USA during the last half of the 19th century

Beekmantown, New York Philip L. White, 2011-03-15 This volume reports in detail how a particular portion of the American wilderness developed into a settled farming community To fully comprehend the history of the American people in the early national period an understanding of this transformation from forest to community and the pattern of life within such communities where the vast majority of the people live is essential Three major conclusions emerge from Philip L White's study of Beekmantown New York First the economic advantages of the frontier attracted a first generation of settlers relatively high in social and economic status but the disappearance of frontier conditions brought a second generation of settlers appreciably lower in status Second White rejects the romantic notion that the frontier fostered equality and argues instead that the frontier's economic opportunities fostered inequality Finally in contrast to revisionist arguments he affirms that in Beekmantown the Jacksonian period does indeed warrant characterization as the era of the common man This book represents a model in community history the narrative is full of human interest the scholarship is prodigious the applications are universal *Farming the Frontier* Carolyn Podruchny, McGill University. Department of Geography, 1990 **The**

Farmers' Frontier, 1865-1900 Gilbert Courtland Fite, 1987 *Writing Off the Rural West* Parkland Institute, 2001-09 This collection reveals the situation in rural Canada in a new light but more than that it shows us that the ability to renew our rural communities remains within our grasp if we have the will to do so BOOK JACKET *Frontier Farming in an Urban Shadow* Michael P. Conzen, 1971

The Suitcase Farming Frontier Leslie Hewes, 1973 **Farming Inside Invisible Worlds** Hugh Campbell, 2020-09-03 This book is available as open access through the Bloomsbury Open Access programme and is available on www.bloomsburycollections.com It is funded by the University of Otago New Zealand Farming Inside Invisible Worlds argues that the farm is a key player in the creation and stabilisation of political economic and ecological power particularly in colonised landscapes like New Zealand America and Australia This open access book reviews and rejects the way that farms are characterised in orthodox economics and agricultural science and then shows how re-centring the farm using the theoretical idea of political ontology can transform the way we understand the power of farming Starting with the colonial history of farms in New Zealand Hugh Campbell goes on to describe the rise of modernist farming and its

often hidden political racial and ecological effects He concludes with an examination of alternative ways to farm in New Zealand showing how the prior histories of colonisation and modernisation reveal important ways to farm differently in post colonial worlds Hugh Campbell s book has wide ranging implications for understanding the role farms play in both our food systems and landscapes and is an exciting new addition to food studies *Access?*,1987 Waring's Book of the Farm George Edwin Waring (Jr.),1877 *Forest Prairie Edge* Merle Massie,2014-04-26 Saskatchewan is the anchor and epitome of the prairie provinces even though half of the province is covered by boreal forest The Canadian penchant for dividing this vast country into easily understood regions has reduced the Saskatchewan identity to its southern prairie denominator and has distorted cultural and historical interpretations to favor the prairie south Forest Prairie Edge is a deep time investigation of the edge land or ecotone between the open prairies and boreal forest region of Saskatchewan Ecotones are transitions from one landscape to another where social economic and cultural practices of different landscapes are blended Using place history and edge theory Massie considers the role and importance of the edge ecotone in building a diverse social and economic past that contradicts traditional prairie narratives around settlement economic development and culture She offers a refreshing new perspective that overturns long held assumptions of the prairies and the Canadian west *Immigrants to Freedom* Joseph Brandes,2009-12-01 Immigrants to Freedom is not a volume of past circumstances it details the continuing quest of the Jewish people to find a more perfect union with lands and peoples of expanding freedom from the Preface by Moshe Davis An almost unknown chapter in the story of U S immigration and social history opened in 1882 with the creation Southern New Jersey of Alliance the first rural Jewish settlement in the New World Escaping from the pogroms of Eastern Europe disillusioned with the poverty ridden slums of the big cities and inspired by popular leaders such as Michael Bakal and Moshe Herder who taught the dignity of manual labor four hundred Jews chose to become American farmers Thousands more followed to settle within the triangular district bounded by Vineland Millville and Bridgeton all searching for individual transformation as well as group transplantation all seeking to disprove the stereotype of the Jew as small trader and middleman Their successes failures conflicts with the urban Jews of nearby New York and Philadelphia these are the fascinating subjects of this intimately written history These organized agricultural communities were not primarily Zionist unlike the pioneering settlements of the same period in Eretz Yisrael Originally conceived as privately subsidized social experiments free of socialist or nationalist ringes these groups sought to overcome anti Semitism while striving for a more creative life and almost at once true to their basic Jewish sense of family and self help the experiments in farming became programs for saving lives first from the sanctioned savagery of Alexander III later from the holocaust of Nazi Germany These colonizing experiments says Dr Brandes were both a kaleidoscope and a mirror of the major forces in modern Jewish life Agrarianism Americanism Zionism a testing traditional values all were to be found here in microcosm They are a significant chapter in the history of a people straining from oppression to freedom **Australian Agriculture** Ted Henzell,2007

Focusing on the technologies that the farmers and graziers actually used this book follows the history of each of the major commodities of groups of commodities to the end of the 20th century grain crops sheep and wool beef and dairy wine and others Issues facing agriculture as it enters the 21st century are also discussed **Where Cultures Meet** David J. Weber, Jane M. Rausch, 1997-08-01 In *Where Cultures Meet* editors Weber and Rausch have collected twenty essays that explore how the frontier experience has helped create Latin American national identities and institutions Using frontier to mean more than border Weber and Rausch regard frontiers as the geographic zones of interaction between distinct cultures Each essay in the volume illuminates the reciprocal influences of the pioneer culture and the frontier culture as they contend with each other and their physical environment The transformative power of frontiers gives them special interest for historians and anthropologists Delving into the frontier experience below the Rio Grande *Where Cultures Meet* is an important collection for anyone seeking to understand fully Latin American history and culture *Challenging the Orthodoxies* Richard M. Auty, John Toye, 2016-07-27 This book provides an up to date interdisciplinary critique of the new economic orthodoxy as represented by the Washington Consensus The originator of the term John Williamson updates his original thesis which is then discussed by an interdisciplinary group of scholars that includes economists environmentalists political scientists institutionalists sociologists and a philosopher The papers span a range of viewpoints which includes sympathetic modifications to the consensus as well as strong rejections of it **The Farmers' Frontier 1865-1900** Gilbert C. Fite, 1977 An Agricultural History of the Genesee Valley, 1790-1860 Neil Adams McNall, 2018-01-09 This book is a volume in the Penn Press Anniversary Collection To mark its 125th anniversary in 2015 the University of Pennsylvania Press rereleased more than 1 100 titles from Penn Press's distinguished backlist from 1899 1999 that had fallen out of print Spanning an entire century the Anniversary Collection offers peer reviewed scholarship in a wide range of subject areas
