Fasciculus Morum A Fourteenth Century Preachers Handbook:

Fasciculus Morum Siegfried Wenzel, 1989 *Fasciculus Morum* is a handbook for preachers written in Latin in the very early fourteenth century by an English Franciscan friar. It has never been printed but is extant in twenty-eight manuscripts. The work gathers a large amount of material for preaching including more than fifty short poems in English and presents this material neatly arranged in the order of the seven deadly sins and their opposite remedial virtues. The book has attracted considerable interest among students of Middle English literature because of its verses but beyond this it has proven to be of equally great interest because it furnishes a fine example of what popular preachers in the fourteenth and fifteenth centuries would present to their congregations: the religious and moral doctrine as well as the biblical material, authoritative quotations, similes, fables, stories, moral exegesis, and other devices with which they enriched their sermons. It is in other words a summa of what an English Everyman would have heard from the pulpit and as such it represents an important sourcebook for students of medieval social and intellectual history, literature, preaching, religion, iconography, and the arts. This book offers a critical edition of *Fasciculus Morum* together with facing modern English translation. The edition is based on a detailed study and comparison of the surviving manuscripts whose relations are traced in the Introduction. The text is accompanied by notes listing important variant readings. In addition, the numerous quotations in the work are identified wherever possible and in the case of stories and exempla told in *Fasciculus Morum*, references to less well-known occurrences are also included.

Binding Words Don C. Skemer, 2010-11-01 In the Middle Ages textual amulets short texts written on parchment or paper and worn on the body were thought to protect the bearer against enemies to heal afflictions caused by demonic invasions and to bring the wearer good fortune In Binding Words Don C Skemer provides the first book length study of this once common means of harnessing the magical power of words Textual amulets were a unique source of empowerment promising the believer safe passage through a precarious world by means of an ever changing mix of scriptural quotations divine names common prayers and liturgical formulas Although theologians and canon lawyers frequently derided textual amulets as ignorant superstition many literate clergy played a central role in producing and disseminating them The texts were in turn embraced by a broad cross section of Western Europe Saints and parish priests physicians and village healers landowners and peasants alike believed in their efficacy Skemer offers careful analysis of several dozen surviving textual amulets along with other contemporary medieval source materials In the process Binding Words enriches our understanding of popular religion and magic in everyday medieval life

Luther and the Reformation of the Later Middle Ages Eric Leland Saak, 2017-04-19 In 1517 Martin Luther posted his 95 Theses an act often linked with the start of the Reformation In this work Eric Leland Saak argues that the 95 Theses do not signal Luther's break from Roman Catholicism An obedient Observant Augustinian Hermit Luther's self understanding from 1505 until at least 1520 was as Brother Martin Luther Augustinian not Reformer and he continued to wear his habit until October 1524 Saak

demonstrates that Luther's provocative act represented the culmination of the late medieval Reformation. It was only the failure of this earlier Reformation that served as a catalyst for the onset of the sixteenth century Protestant Reformation. Luther's true Reformation discovery had little to do with justification by faith or with his 95 Theses. Yet his discoveries in February of 1520 were to change everything. *Emotion and the History of Rhetoric in the Middle Ages* Rita Copeland, 2021. Presents a history of the ways in which authors of the Middle Ages mobilized the force of emotion in their rhetorical writings and explores the changes that the role of emotion in rhetorical theory underwent during this period in relation to means of textual transmission and conditions of rhetorical teaching. **Becoming the Pearl-Poet** Jane Beal, 2022-10-28. Who is the Pearl poet? How do ideas about his life and interpretations of his poems shape our understanding of his work in late medieval England and beyond? In *Becoming the Pearl Poet*, Perceptions, Connections, Receptions, readers can explore the world of this extraordinary fourteenth century writer. In Part I, Perceptions, five scholars give insightful literary analyses of the narrative poems attributed to the poet Pearl: Cleanness, Patience, Sir Gawain and the Green Knight, and St Erkenwald. In Part II, Connections, six scholars examine connections between these diverse poems, focusing on authorship, ecology, material culture, sartorial adornment, shields, and the poet's pastoral theology. In Part III, Receptions, scholars consider the illustrations of the Pearl Manuscript, British Library MS Cotton Nero A x, the poet's cultural situatedness in the Northwest Midlands and Ricardian court, his religious contexts, later translations and paraphrases of his work, and his medieval and modern audiences. Intended for students and scholars alike, this book encourages readers to gain a deeper understanding of the Pearl poet and his world, learning many new things and enjoying old things in a new way. *Vita Edwardi Secundi* Wendy R. Childs, 2005-02-03. The *Vita Edwardi Secundi* is the best and most readable of the chronicles of the reign of Edward II and throws a fascinating light on the world of high politics. The anonymous author was close to the centre of politics, probably a royal clerk and possibly John Walwayn or someone with a similar career. His focus is largely on domestic politics and the relationship of the king and his barons, and he records the clashes and reconciliations of the period 1311-22 in valuable detail. He also has much to say on the Scottish war, the appointment of bishops, and the outbreak of the French war. The work ends in the winter of 1325-6 with Queen Isabella's refusal to return from France while Despensers remained with the king. The work is much more than a simple chronicle. The author consciously wrote history and so commented extensively on personalities and also on causation, motivation, and the vices of his age. He was generous to Gaveston despite his pride, more condemning of the Despensers' greed, and lamented Lancaster's wasted gifts. His reports on the arguments of both sides in the clashes between the king and his opponents are particularly enlightening and show how serious were the threats to the king's authority, especially those voiced in 1321. The author's fear of civil war and attempts to define the fine line dividing resistance and treason probably reflect the concerns of many close to the court at that time. Recent research has emphasized that the *Vita* should be seen as a journal rather than a memoir, and this enhances its value further, allowing historians to chart

the changing views of a well placed observer during the dramatic events of Edward's reign The Vita has been edited three times before once in each century since its discovery in 1728 but the last edition of 1957 has long been out of print This new edition revises the Latin text and translation provides a completely new introduction and historical notes to take account of recent scholarship and includes a new and full apparatus and indices
