Frigates The Account Of The Lighter Warships Of The Napoleonic Wars 1793 1815:

The Frigates James Henderson,1994-11-15 A naval history of the ships and personalities of the Nelson period The sources used include accounts of the Napoleonic Wars ships logs Admiralty documents private and official reports letters and contemporary descriptions **1812** Jon Latimer,2009-07-01 Listen to a short interview with Jon Latimer Host Chris Gondek Producer Heron the Battle of Lake Erie the burning of Washington the death of Tecumseh Andrew Jackson s victory at New Orleans but their war of conquest was ultimately a failure Even the issues of neutrality and impressment that had triggered the war were not resolved in the peace treaty For Britain the war was subsumed under a long conflict to stop Napoleon and to preserve the empire The one lasting result of the war was in Canada where the British victory eliminated the threat of American conquest and set Canadians on the road toward confederation Latimer describes events not merely through the eyes of generals admirals and politicians but through those of the soldiers sailors and ordinary people who were directly affected Drawing on personal letters diaries and memoirs he crafts an intimate narrative that marches the reader into the heat of battle **Myth of National Defense: Essays on the Theory and History of Security Production, The ,**

Warships of the World to 1900 Lincoln P. Paine,2000 Lincoln P Paine s SHIPS OF THE WORLD AN HISTORICAL HISTORICAL ENCYCLOPEDIA was honored as one of the best reference books of the year by the New York Public Library and Library Journal described it as clearly the most fascinating book of the year Now in two equally fascinating new books Paine focuses on two of the most interesting areas of maritime history WARSHIPS OF THE WORLD TO 1900 and SHIPS OF DISCOVERY AND EXPLORATION WARSHIPS OF THE WORLD TO 1900 traces the history of naval warfare through the stories of more than two hundred of the most famous and important fighting ships from the earliest triremes and Viking longships to the Mary Rose Wasa Bonhomme Richard HMS Victory USS Constitution USS Monitor and Mikasa Each ship is described in a vivid short essay that captures its personality as well as its physical characteristics construction and history from the drawing board to the scrap yard or museum Paintings and photographs show the grandeur and grace of these vessels that helped shape world events An introductory essay maps and a chronology offer the reader a global perspective on the course of naval history from antiquity to the present **Britain's Rise to Global Superpower in the Age of Napoleon** William Nester,2020-12-14 The first study to explore all Britain s key land and sea campaigns from 179 1815 and the two military geniuses who vanquished France The art of power consists of getting what one wants That is never more challenging than when a nation is at war Britain fought a nearly nonstop war against first revolutionary then Napoleonic France from 1793 to 1815 During those twenty two years the government formed financed and led seven coalitions against France The French inflicted humiliating defeats on the first five Eventually Britain and its allies prevailed not once but twice by vanquishing Napoleon temporarily in 1814 and definitively in 1815 French revolutionaries had created a new form of warfare which Napoleon perfected Never before had a government mobilized so much of a realm s manpower industry finance and

patriotism nor under Napoleon wielded it more effectively and ruthlessly to pulverize and conquer one's enemies Britain struggled up a blood soaked learning curve to master this new form of warfare With time the British made the most of their natural strategic and economic advantages Britons were relatively secure and prosperous in their island realm British merchants manufacturers and financiers dominated global markets The Royal Navy not only ruled the waves that lapped against the nation's shores but those plowed by international commerce around the world Yet even with those assets victory was not inevitable Two military geniuses are the most vital reasons why Britain and its allies vanquished France when and how they did General Arthur Wellesley the Duke of Wellington and Admiral Horatio Nelson respectively mastered warfare on land and at sea Of the hundreds of books on the era none before has explored all of Britain's land and sea campaigns from the first in 1793 to the last in 1815 This vividly written meticulously researched book lets readers experience each level of war from the debates over grand strategy in London to the horrors of combat engulfing soldiers and sailors in distant lands and seas Haunting voices of participants echo from two centuries ago culled from speeches diaries and letters Britain's Rise to Global Superpower in the Age of Napoleon reveals how decisively or disastrously the British army and navy wielded the art of military power during the Age of Revolution and Napoleon **Splintering the Wooden Wall** Wade G. Dudley, 2003 This work presents a useful overview of the history theory and practice of blockades during the age of fighting sail It also provides an evaluation of the naval capabilities of the belligerents a comparison of the blockade of the United States to British blockades of Revolutionary and Napoleonic France and a discussion of the importance of geography in the theater of conflict Readers will be fascinated by the story that emerges of the modern world's first superpower at war with a developing nation and of a conflict between civilized states that threatened to devolve into little more than a campaign of terror To support Dudley's examination of documentary evidence are more than thirty tables charts maps and illustrations Jacket

The Trafalgar Chronicle: New Series 4 Peter Hore,2019-11-30 This naval history anthology explores the world of Lord Nelson his era and contemporaries with expert articles and sumptuous illustrations An annual publication of the 1805 Club The Trafalgar Chronicle is dedicated to new research about naval history in the Georgian Era Its central theme is the Trafalgar campaign and the epic battle of October 21st 1805 involving British French and Spanish ships and some 30 000 men of a score of nations This edition focuses on the friends and contemporaries of Vice Admiral Horatio Nelson of the Royal Navy It also explores technical and scientific changes that took place at the turn of the eighteenth century

Contributions include an article by former US Navy Secretary John Lehman on Stephen Decatur and another by Professor John Hattendorf on Admiral Sir John Gambier It also includes the observations of Professor Benjamin Silliman an American scientist who visited Britain in 1805 Other characters who appear are Jack Punch Perkins the first black officer in the Royal Navy William Pringle Green who was so critical of the results at Trafalgar and the two Loyalist Richard Bulkeley's father and son who served with Nelson at the beginning and at the end of his career Two articles on technology in the Georgian navy address the surprising developments of the carronade and ballooning in the age of Nelson

The Frigates James Henderson,1970-07-01 Light swift daring frigates were the cruisers of Nelson s navy commanded by bold young courageous officers ranging the oceans of the world alone or in packs seeking his enemy and usually finding him Although the swashbuckling spirit of these almost incredible sea adventures has been captured in the best naval fiction the story of the frigates of 1793 1815 has never been told as a continuous narrative until now Henderson s vivid writing has the reader pacing the quarterdeck with the first lieutenant or muzzle loading on the smoky gundeck of a 44 His descriptions of frigate and naval technicalities make it easy for the reader to assess famous actions Illustrations
