The Frog Prince's Adventure to Break The Curse AQEEL AHMED,2023-11-02 To sum it up The amazing story of Prince Oliver also known as the Frog Prince and his beloved Princess Amelia took place in the beautiful green Enchanted Forest The interesting story began when a wicked witch cast a spell on Prince Oliver that turned him into a frog and told him he had to live as one until he found true love He wanted a friend who could see through his green slimy skin to the prince he really was even though he looked different now He went to the pond often to try to break the curse that held him back For some reason Princess Amelia went into the forest one sad day to pick wildflowers for her sick mother She found Prince Oliver by the pond and her kind heart saw how beautiful he was She brought him home with her to try to keep her mom company As the days turned into weeks Prince Oliver and Princess Amelia became close friends who cared about each other a lot As their relationship grew Prince Oliver told Amelia about his curse He promised Amelia that he would always be there for him and help him break the spell As they went on their journey they went deeper into the Enchanted Woods and met friendly woodland spirits talking animals and an old hermit who showed them how to break the curse In order to do this they had to give everything they had a sacrifice that could only come from the heart without expecting anything in return At first they were on a quest to help others taking care of hurt animals comforting the old and bringing happiness to the forest Prince Oliver suddenly turned back into a beautiful prince showing how sincere and selfless their love was The hermit tree told them what to do on their trip and said they would be successful The famous love story of Prince Oliver and Princess Amelia in the Enchanted Forest showed how strong real love friendship and the beauty of the human heart can be Their kindness and knowledge as leaders of their country had effects that went far beyond the Enchanted Forest Their love story lived on and made many people believe in the healing power of love and giving without expecting anything in return The pond next to the forest was where their trip began and it stayed a place of love laughter and endless happiness Frog families got together to talk about the good things about real love and the lessons they had learned along the way The story of Prince Oliver and Princess Amelia s love story was always a source of hope showing that real love could win over all problems and that miracles could happen in the middle of the Enchanted Forest This is how the story starts A long time ago there was a friendly frog named Prince Oliver who lived in a lush green forest His home woods were like a picture of magic The trees were so tall they seemed to reach the sky and the soft wind blew the green leaves around In the middle of the woods was a pond that looked like it was alive and as clear as glass Even though he was in a beautiful place Prince Oliver s story was anything but normal Someone bad had cursed Prince Oliver to stay a frog until he found true love He used to be a beautiful prince A long time ago Prince Oliver was a charming young man who was liked by everyone in the country because he was brave kind and looks so good His eyes sparkled like gems and his smile could melt hearts He lit up any room he walked into As the prince walked around the palace grounds one fateful evening he came across a mysterious woman Her dark hair fell down her back and her

eyes showed things that no one could understand She was a witch who had been watching Prince Oliver from afar because she liked how he looked and how he behaved The sorceress went up to the prince with a fake sense of respect She was actually jealous and mean She purred You are a sight to behold Prince Oliver and I wish to offer you a gift as a token of my admiration The prince who was always kind and innocent took her up on her offer He didn't know that the witch was after bad things The beautiful prince turned into a little green frog when she cast her spell with a sneaky glint in her eye She laughed as she faded into the darkness and said You will stay in this form until someone really loves you for who you are Oliver Prince had tears in his eyes He was left alone by the pond in the lovely forest and now his royal life is just croaks and hops The curse was like a thick fog over him and he had no idea when or how it would go away Even though he had changed he was still kind and gentle and he hoped that someone would recognize him as the prince he used to be To break the curse and come back as a prince he hopped around the pond every day In the forest the prince met many frogs and other animals They were all nice and inviting but he felt like he was meant for more He wished he had a real friend who could see the prince in him even though his skin was green and slimy *Publishers' circular and booksellers' record* ,1892

,1892 An illustrated collection of twenty three folk and fairy tales from different parts of the world **Marvelous Geometry** Jessica Tiffin,2009-04-19 Explores self consciousness and metafictional awareness in modern fairy tale and its expression across literary fairy tale popular fairy tale and fairy tale film In Marvelous Geometry Jessica Tiffin argues that within twentieth and twenty first century Western literature there exists a diverse body of fairy tale texts that display a common thread of metafictional self awareness The narrative pattern of these texts is self conscious overtly structured variously fantastical and Tiffin argues easily recognized and interpreted by modern audiences In this broadly comparative study she explores contemporary fairy tale fictions found in modern literature and live action and animated film and television to explore fairy tale s ability to endlessly reinvent itself and the cultural implications of its continued relevance Tiffin s skilled analysis draws on the critical fields of postmodernism narratological analysis stucturalism feminism and performativity without relying solely on any one perspective She considers important fairy tale retellings such as the feminist revisions of Angela Carter the postmodern narratives of A S Byatt as well as fairy tales written for children by James Thurber She also investigates both popular and high art films contrasting Cocteau and Neil Jordan to Hollywood romances and Disney and analyzes the differences between animated features and live action productions Finally Tiffin uses a case study of the recent

successful Shrek films to situate the fairy tale in the twenty first century as an endlessly adaptable folk narrative that self consciously and affectionately reflects generic structures and significant cultural assumptions

Marvelous Geometry covers a wide range of familiar and unfamiliar primary texts from a novel and fruitful perspective

Tiffin s focus on the metafictional nature of the fairy tale turns readers attention to the genre s narrative structure and aesthetic qualities without ever losing sight of the fairy tale s sociocultural impact as powerful marvelous narrative

Scholars of literary and fairy tale studies will enjoy Tiffin s expansive analysis

**Automatic Generation of Computer Animation** Ruqian Lu, Songmao Zhang,2002-01-23

We are both fans of watching animated stories

Every evening before or after d ner we always sit in front of the television and watch the animation program which is originally produced and shown for children

We find ourselves becoming younger while immersed in the interesting plot of the animation

how the princess is first killed and then rescued

how the little rat defeats the big cat etc

But what we have found in those animation programs are not only interesting plots but also a big chance for the application of computer science and artificial intelligence techniques

As is well known the cost of producing animated movies is very high even with the use of computer graphics techniques

Turning a story in text form into an animated movie is a long and complicated procedure

We came to the c clusion that many parts of this process could be automated by using

artificial intelligence techniques It is actually a challenge and test for machine intelligence So we decided to explore the possibility of a full life cycle automation of computer animation generation By full life cycle we mean the generation process of computer animation from a children's story in natural language text form to the final animated movie It is of course a task of immense difficulty However we decided to try our best and to see how far we could go
