From Cognitive Semantics To Lexical Pragmatics The Functional Polysemy Of Discourse Particles:

From Cognitive Semantics to Lexical Pragmatics Kerstin Fischer,2000 This book presents a cognitive semantic model of what the whole range of functions is that English and German discourse particles can fulfil how these functions are related why discourse particles fulfil just these functions and not others and what factors condition their interpretation Methodologically conversation analysis and various methods from lexical semantics such as field analysis and semantic decomposition as well as contrastive studies are combined with the statistical analyses of large corpora simulation experiments involving supervised learning in artificial neural networks and the representation of the results in a computational lexicon This methodologically interdisciplinary study thus not only presents a general model of polysemy which includes structural aspects a conceptual background frame and the contribution of the lexeme it also provides full coverage for the functional readings of discourse particles and a unified definition of the word class *From Cognitive Semantics to Lexical Pragmatics* Kerstin Fischer,2013-06-10 No detailed description available for From Cognitive Semantics to Lexical Pragmatics **Creation Language in Romans 8** Gregory P. Fewster,2013-04-04 Modern scholarship tends to understand Paul s use of creation language in Rom 8 18 23 as part of a commentary on the state of sub human creation This misguided position warrants an inquiry into the state of lexical study in New Testament scholarship As a result Fewster articulates a theory of lexical monosemy cast in the framework of Systemic Functional Linguistics The model is applied to Paul s use of through a robust corpus analysis and investigation into the word s role within the paragraph contributes to the cohesive structure of Rom 8 18 23 and contra the majority of interpreters functions as a metaphor for the human body

Understanding Pragmatic Markers Karin Aijmer,2013-04-22 An original study of pragmatic markers in a corpus of spoken English with a focus on the functions performed by the markers in different types of text *Where Prosody Meets Pragmatics* Dagmar Barth-Weingarten,Nicole Dehé,Anne Wichmann,2012-11-02 This volume demonstrates the synergies that can result from interdisciplinary collaboration Responding to the growing interest in the interface between prosody and pragmatics it presents a collection of papers which use different approaches and data to explore a wide range of interrelated issues in both fields The volume contains a state of the art introduction by the editors and individual chapters organised in three sections In the first section chapters by Sasha Calhoun Joe Blythe Merle Horne and Phoenix Lam examine prosodic cues to referential and discourse textual meaning The second section is devoted to the role played by prosody in the negotiation of speaker change in conversational interaction with papers by Dagmar Barth Weingarten Jill House Emina Kurtic Guy J Brown Bill Wells and Beatrice Szczepek Reed In the final section chapters by Leendert Plug Elizabeth Couper Kuhlen and Anne Catherine Simon Liesbeth Degand focus on various aspects of interpersonal meaning and how they are conveyed Languages discussed are English Dutch German Swedish French and Murriny Patha and the frameworks used include Conversation Analysis Gricean pragmatics Interactional Linguistics Intonational Phonology Phonology for

Conversation and Relevance Theory   **Outside the Clause** Gunther Kaltenböck,Evelien Keizer,Arne Lohmann,2016-10-03 This volume brings together a number of articles on the form and function of extra clausal constituents a group of linguistic elements which have puzzled linguists by defying analysis in terms of ordinary sentence grammar Given their high frequency and communicative importance these elements can however no longer be dismissed as a marginal linguistic phenomenon In recent years this awareness has resulted not only in more systematic treatments of extra clausal constituents but has also highlighted the need to account for them in grammatical theory Based on mainly English corpus data the volume investigates the discourse pragmatic semantic syntactic and phonological features of a range of extra clausal constituents including discourse markers free adjuncts left dislocands insubordinate clauses and various kinds of adverbials The individual chapters adopt a number of different perspectives investigating the diachronic development of extra clausal constituents their multi functionality and their use in bilingual settings also addressing the question of how they can be incorporated into existing models of grammar   Tag Questions in Conversation Ditte Kimps,2018-05-15 This monograph deals with variable tag questions These are utterances with a variable interrogative tag like It s peculiar writing isn t it and the semi variable tag innit such as Nice innit The aim is to provide a corpus based comprehensive semantic pragmatic typology of British English tag questions Compared to existing descriptions the proposed typology is novel in three ways Firstly whereas almost all existing typologies are single layered classifications the functions of tag questions are categorized into two parallel dimensions of interpersonal meaning the speech function and the stance layer Secondly semantic generalizations are proposed for clusters of grammatical intonational and conversational properties Thirdly the bottom up description is based on a sizeable amount of authentic spontaneous conversations which are analysed both qualitatively and quantitatively   Quantitative Methods in Cognitive Semantics Dylan Glynn,Kerstin Fischer,2010 Review text Overall this volume is an important contribution to the development of empirical Cognitive Semantics This collection of high quality papers provides the reader with an insight into the most important empirical approaches in corpus driven semantic research Natalia Levshina in Linguist List 20 3011   *New Directions in Cognitive Linguistics* Vyvyan Evans,Stéphanie Pourcel,2009-06-24 Nearly three decades since the publication of the seminal Metaphors We Live By Cognitive Linguistics is now a mature theoretical and empirical enterprise with a voluminous associated literature It is arguably the most rapidly expanding school in modern linguistics and one of the most exciting areas of research within the interdisciplinary project known as cognitive science As such Cognitive Linguistics is increasingly attracting a broad readership both within linguistics as well as from neighbouring disciplines including other cognitive and social sciences and from disciplines within the humanities This volume contains over 20 papers by leading experts in cognitive linguistics which survey the state of the art and new directions in cognitive linguistics The volume is divided into 5 sections covering all the traditional areas of study in cognitive linguistics as well as newer areas including applications and extensions Sections include Approaches to semantics Approaches to metaphor and

blending Approaches to grammar Language embodiment and cognition Extensions and applications of cognitive linguistics

Modeling Biblical Language Stanley E. Porter,Gregory P. Fewster,Christopher D. Land,2016-03-21 Modeling Biblical Language presents articles with some of the latest scholarship applying linguistic theory to the study of the Christian Bible The contributors are all associated with the McMaster Divinity College Linguistic Circle a collegial forum for presenting working papers in modern linguistics especially Systemic Functional Linguistics and biblical studies The papers address a range of topics in linguistic theory and the Hebrew and Greek languages Topics include linguistic model building temporality and verbal aspect Greek lexical semantics and Hebrew Greek translation appraisal and evaluation theory metaphor theory corpus linguistics discourse analysis and Greek clausal structure These various areas of linguistic exploration contribute generally to the interpretation and analysis of the Old and New Testaments as well as to linguistic theory proper   The Discourse Marker ni zhidao ("You Know") in Chinese Spontaneous Speech Yi Shan,Weiwei Chu,2025-10-30 Drawing on media interview materials this book takes a holistic approach to examining the Chinese discourse marker ni zhidao meaning you know thereby contributing to a deeper understanding of discourse markers in Chinese language use and broader linguistic studies Using a mixed methods approach that combines quantitative and qualitative analyses the study explores the marker s utterance positions semantic properties prosodic features and pragmatic functions The research employs a corpus based methodology with interview transcripts as data sources to examine ni zhidao s distribution across utterance positions and its prosodic characteristics including speech rate pause duration pitch and intensity It also explores the interrelationships among these features The qualitative analysis delves into the marker s semantic status refining its core and procedural meanings while also exploring its textual and interpersonal pragmatic functions It challenges existing assumptions about discourse markers particularly their positioning tendencies offering new insights into their role in communication A key innovation of this work is its integrated approach to investigating the connections between the positioning semantics prosody and functions of ni zhidao This study will be an invaluable reference for researchers and students of linguistics pragmatics and Chinese language studies particularly those interested in discourse markers   **The Concise Encyclopedia of Applied Linguistics** Carol A.
